You Can Buy Here With Confidence That Prices Are Right!

Every article in our 312 stores has been remarked on the basis of its replacement value regardless of former cost. The J. C. Penney Company is saving money for thousands of careful buyers. Are you one of these?

In these days of Special Discount Sales and other wild attempts to unload all kinds of merchandise upon the buying public at prices that, on their face appear attractive, yet do not bear their proper reduction in proportion to their replacement values, it should prove of value to know that the LARGEST ORGANIZATION OF CHAIN DEPARTMENT STORES IN AMERICA has brought all of its selling prices down to rock bottom, based on today's lower replacement costs. This means that we have accepted our loss in depreciation on merchandise on hand in our 312 stores and are passing this on in savings to the buying public.

In our eighteen years of retailing we have never, in a single instance, abused the public confidence, nor made any promises we could not fulfill to the letter. During that time we have built up a business of almost fifty million dollars yearly. This should be proof positive that our patrons have confidence in our merchandise and prices. We do not believe in doing anything half-way. We feel that now is the time that prices should be revised all along the line and we have done this in our store. We are willing to take a loss, by which you gain. We feel that by doing this now we will merit your future confidence and trade.
