

ARTISTIC PHOTOS FROM STUDIOS OF BIG CITIES OF COUNTRY ARE ON EXHIBIT AT HEYN & KEELEY'S

People used to distinguish between "art and mere photography." But anyone who visits the exhibition of loaned photographs from all over the United States at Heyn & Keeley's studio this week will realize that photography is fast becoming an art.

Some of the most beautiful pictures in the collection at Heyn's are some soft gray things from the Howard D. Beach studios in Buffalo, N. Y. One just exclaims "Oh!" when he sees these pictures. The poses are easy and natural, and the gray tones are the softest, most restful combinations imaginable.

Ban on Women

Since that time he has refused to permit any but men in his studio and only men's pictures will be taken. No amount of gold can induce him to permit a woman to pose for him.

From the Harrison Ewing studio in Washington, D. C., have come some fine clear brown photographs of President Harding and Vice President Coolidge.

Forgery Charge Laid Against Negro Porter

A warrant alleging forgery has issued out of the Wilson justice court for Homer Kraft, the colored Pullman porter who was shot last Wednesday night by Special Agent Ray Charnock while allegedly resisting arrest.

Sues to Foreclose on Sun River Land

Charles Jackson has brought suit in district court against Mr. and Mrs. C. M. Dorrance of Vaughn and the Montana Cattle Loan Co. to foreclose on a tract of land adjacent to Sun river.

MRS. PAULINE RUFF COMMITTED TO ASYLUM

Mrs. Pauline Ruff of Great Falls was ordered committed to the state insane asylum Saturday by a district court sanity commission.

ARRESTED AS DRUNK; IS TAKEN TO HOSPITAL

H. Demick aged 40, was taken up by the police early Saturday morning for drunkenness and a short time later removed to a hospital on instructions from Dr. W. A. Hall, county physician.

Change In Ice Delivery Beginning April 1st we will have our own delivery and will be in position to serve our customers in all parts of the city. No Need to Worry Quite a little has been said about the price of ice this coming summer account of the mild winter. We are in position to manufacture all the ice necessary and our prices will be right. Crystal Ice and Storage Company Phone 6323

parchment sent from Towel's of Washington D. C.

The wonderful light in the eyes is the striking characteristic of the beautiful pictures sent by Louis Fabian Bachrach of Boston.

Easy and lifelike are the photographs from the Ben Golling studio in St. Paul, Minn. Then there are some clear delightfully posed pictures from the Herman Heyn studio in Omaha.

From Los Angeles come some more of the "fuzzy," hazy pictures which some people admire, and others pronounce as "crazy." The Los Angeles pictures are from Gohns, Hutchens, and Broneer. There are some unusual carbon prints from the Williams studio in Los Angeles.

Salon Pictures. Forty salon pictures collected by J. C. Abel of Cleveland, secretary of the American Photographers association, are also on exhibition.

Heyn & Keeley have also many of their own photographs on exhibition which compare well with the prize winning importations and show that artistic work is being done in Great Falls, both in the clearly outlined style and in the fuzzy style.

Invitations have been mailed to many patrons of the Heyn & Keeley studio for the exhibition which will be open all week for the benefit of all in the city who are interested in what can be done by "mere photography."

Cured His Piles

Now 88 Years Old but Works at Trade of Blacksmith and Feels Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for treating piles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with ointments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

There are thousands of afflicted people suffering with piles who have never yet tried the one sensible way of treating them.

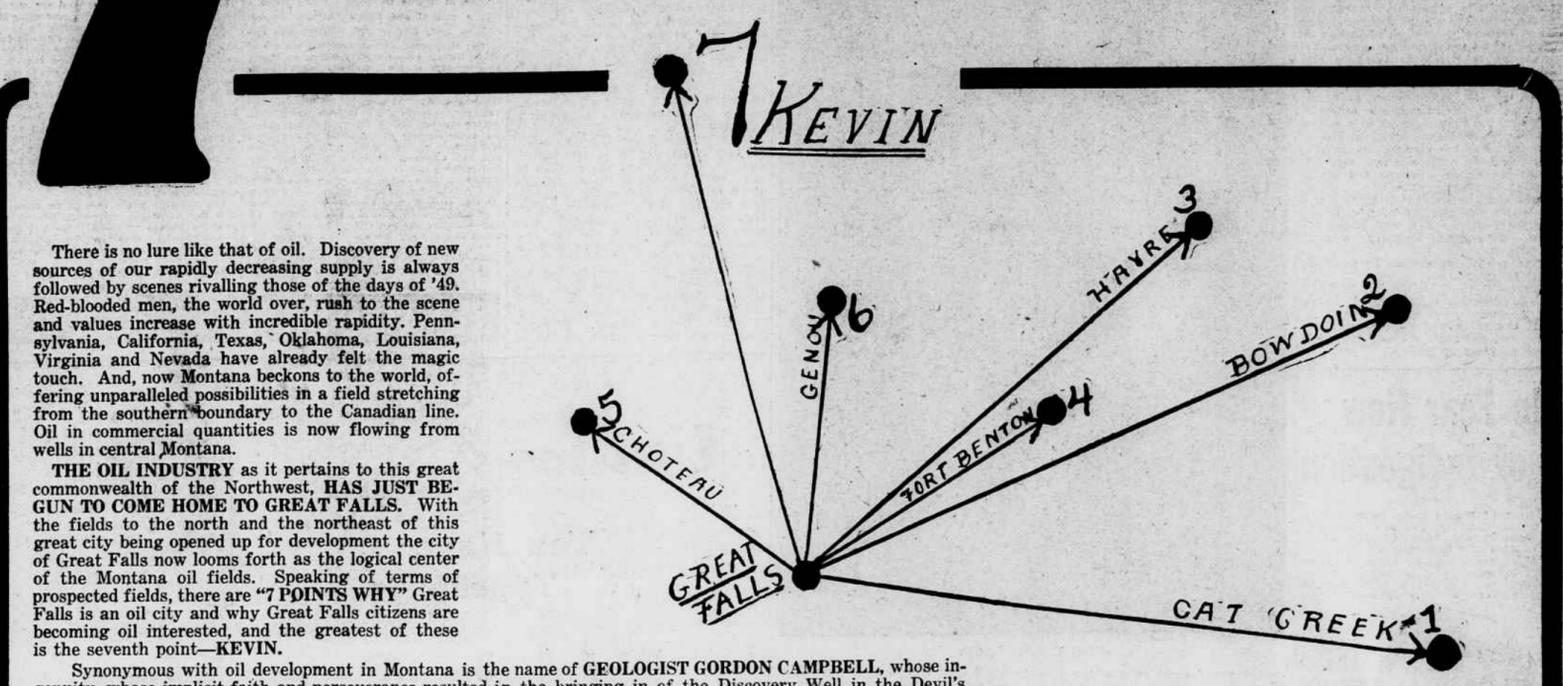

Don't be cut. Don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my internal method for the healing of Piles.

No matter where you live—no matter what your age or occupation—if you are troubled with piles, my method will relieve you promptly.

This liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply mail the coupon—but do this now—TODAY.

FREE PILE REMEDY E. R. Page, 741C Page Bldg., Marshall, Mich. Please send free trial of your Method to:

7 POINTS WHY GREAT FALLS IS OIL INTERESTED

There is no lure like that of oil. Discovery of new sources of our rapidly decreasing supply is always followed by scenes rivalling those of the days of '49.

Red-blooded men, the world over, rush to the scene and values increase with incredible rapidity. Pennsylvania, California, Texas, Oklahoma, Louisiana, Virginia and Nevada have already felt the magic touch.

And, now Montana beckons to the world, offering unparalleled possibilities in a field stretching from the southern boundary to the Canadian line. Oil in commercial quantities is now flowing from wells in central Montana.

THE OIL INDUSTRY as it pertains to this great commonwealth of the Northwest, HAS JUST BEGUN TO COME HOME TO GREAT FALLS.

With the fields to the north and the northeast of this great city being opened up for development the city of Great Falls now looms forth as the logical center of the Montana oil fields.

Speaking of terms of prospected fields, there are "7 POINTS WHY" Great Falls is an oil city and why Great Falls citizens are becoming oil interested, and the greatest of these is the seventh point—KEVIN.

Synonymous with oil development in Montana is the name of GEOLOGIST GORDON CAMPBELL, whose ingenuity, whose implicit faith and perseverance resulted in the bringing in of the Discovery Well in the Devil's Basin, the result of which have loomed forth the many producers of Cat Creek.

Oil operators in every section of the state have come to respect the judgment of Gordon Campbell as worthy in every sense of the word. His surveys and reports have invariably been as correct as is possible in the profession of geology.

Consequently, no small amount of interest and enthusiasm is being manifest in the fact that Mr. Campbell has spent the past year making a complete survey of the territory lying in Toole county, Montana, and situated north of Shelby and south of the town of Sweetgrass.

Great developments are looked for from this structure which lies with its central most point near the town of Kevin, since MR. CAMPBELL HAS ERECTED A DERRICK AND ANNOUNCED HIS INTENTION TO SPUD IN THE test well on ROCKY-RIDGE DOME in the course of the coming ten days.

ROCKY RIDGE DOME lies almost centrally between Shelby and Sweetgrass, and the test well has been spotted on the northeast quarter of SECTION 16-35-3 W. M. M.

It is but for Mr. Campbell to bring in a producer in the KEVIN FIELDS, and the activity which will ensue in the city of Great Falls will by far surpass hopes entertained by the most sanguine.

Great Falls is further interested in the announcement of the formation this past week of the first Great Falls Syndicate, HEADED AND PROMOTED BY GREAT FALLS MEN.

The SWEETGRASS SYNDICATE has for a very nominal consideration secured 2,000 ACRES OF THE CHOICEST HOLDINGS OF GORDON CAMPBELL in this new Kevin Field, and these they have capitalized at \$200,000.00, to be divided into 2,000 UNITS at a par value of \$100.00 EACH; each unit representing an equity holding in the lease hold interest of one acre of land.

With these units or ownerships goes the FULL AND UNDIVIDED AMOUNT OF THE ROYALTY amounting to 87 1/2 PER CENT OF THE PRODUCTION OF THE ENTIRE 2,000 ACRES.

2,000 ACRES, 2,000 UNITS, 87 1/2% ROYALTY CAN YOU BEAT IT?

Never before were investors of large or small capital offered so liberal an offer; and it is needless to state that such a proposition will never reappear on the Montana oil market.

And, added to this the trustees of the Syndicate who are MONTANA BUSINESS MEN OF THE VERY HIGHEST STANDING, AGREE TO PUT DOWN A WELL WITHIN NINETY DAYS. This well, will be spotted, and its drilling operations supervised by Mr. Campbell; his driller, "Cy" Hurd, the man who brought in the Montana discovery well in thirty-five days of drilling, will have charge of the active work, as he is with the test well of Mr. Campbell.

The trustees of the Sweetgrass Syndicate ARE MEN WHO STAND FOR SOMETHING IN NATIONAL, STATE AND BUSINESS AFFAIRS. Their association with the company as well as the association of Mr. Campbell is sufficient to warrant the very best kind of a thoroughly business-like deal.

THIS IS A GROUND FLOOR PROPOSITION. The trustees promise nothing more nor less than an honest co-operative effort to prove the KEVIN field. They are merely willing to accept the word of Mr. Campbell after a thorough investigation and since Gordon Campbell is so confident of the merits of the Rocky-Ridge Dome that he has staked his every cent on its future, they are willing to take a chance along with him, as well as a fair and square chance along with every unit or ownership holder of the syndicate.

History of the development of the great oil fields demonstrates that the largest beneficiaries have been those investors of red blood who have taken the early, big chance.

Northern Montana and the Great Falls territory are on the threshold of DEVELOPMENTS AS GREAT AS ANY STATE IN THE UNION HAS EVER WITNESSED. Obviously, now is the time for small capital to take its chance.

A little while and it shall be too late. When all the fields here have been prospected and found producing, the risk will not be so great, of course, but the chance of big profit will have been reduced greatly.

Now is the time for quick action. You will wonder a little later why you did not get in.

True, all is not gold that glitters, and all is not oil under the derrick. But where ordinary prudence is used, and where operations are in the hands of HONEST AND LOCALLY ESTABLISHED MEN, no industry in the history of all the world has offered chances even approaching those that are within the grasp of the investor, large and small, in the oil fields of Montana, and through the instrumentality of such a company as the Sweetgrass Syndicate.

Our depositories are the CONRAD BANKING COMPANY OF GREAT FALLS, and the BANK OF FERGUS COUNTY IN LEWISTOWN. Checks or money orders can be mailed direct to the home office of the syndicate or to either of these depositories.

—This is a Great Falls Company, and the opportunity is first offered to the home people. These trustees of the Sweetgrass Syndicate merely offer the ground-floor opportunity which will a little later be grasped by the outsider who will come here for the rich profits which will surely come through legitimate development work north of this city.

—This offer is so unusual that units will not long be on the market. Quick action alone will assure you your share of the opportunity. ACT NOW! Fill in the blank below and mail it in at once. Write for prospectus and literature.
