

Hargrove's For Quality.

Perhaps Rodin's "Thinker" Had It All Thought Out --

That it was just as well to go without clothes--as to wear poor ones.

Fine thought even now--for if we do say it ourselves with a seemingly ulterior motive--this season's market is flooded with suits that you wouldn't wear--nor COULDN'T wear--after two months' service.

You want good material and workmanship and that kind cannot be bought and will not be sold this season at \$25.

We say pay \$32.50, \$35 and up, because at these figures WE (and others can too if they are marking their suits as close) are showing good quality and fine values in the kind of garments that go to make Real Friends. Spring suits in stock now--

IN THE DAYS OF KINGS

The dandy of the time of Charles II wore expensive plumes in his hat, often set off with gems of extraordinary value.

In this age when kings have been thrown into the discard the Gordon Hat gives the particular man all the distinction any hat can give.

There are some unusually attractive colors shown in Gordon Hats this season--you'll like them.

But indictment does imply that in the judgment of the grand jurors there is probable cause to believe the accused guilty."
