**ORDER TO SHOW CAUSE.**  
 In the District Court of the Eighth Judicial District of the State of Montana, in and for the County of Cascade.  
 In the Matter of the Estate of Henry Burmeister, deceased.  
 Whereas, C. T. Leon Dufrene, has filed herein his verified petition praying for an order authorizing the said John N. Thelen as the executor of the estate of Henry Burmeister, deceased, to reconvey to C. T. Leon Dufrene in performance of a certain written contract entered into and executed on January, 1919, the following described real property, to-wit:  
 Lot eight (8) and the East one-third of lot nine (9), block four hundred ten (410), town or township of Great Falls, Cascade county, Montana, according to the map or plat thereof on file of record in the office of the County Clerk and Recorder of Cascade county, Montana.  
 Now, therefore, it is ordered that Wednesday, the 8th day of June, 1921, at 10:00 a. m., in the District Court of the County of Cascade, in the City of Great Falls, Montana, be and is hereby set and appointed as the time and place to show cause why an order should not be granted authorizing the said John N. Thelen as the executor of said estate to reconvey the foregoing described property to C. T. Leon Dufrene by good and sufficient instrument of conveyance.  
 That a copy of this order be published once a week for four (4) successive weeks before the hearing in the Great Falls Tribune, a newspaper of general circulation printed and published in Great Falls, Cascade county, Montana, in which is situated the land described herein.  
 Dated at Great Falls, Cascade county, Montana, May 7th, 1921.  
 H. H. EWING, Judge.

**Scientific Facts**  
 Mounted on top of a single metal tube are several dials which indicate the temperature at different depths of a pile of coal into which the tube is inserted.  
 By superheating the steam in their locomotives Italian railways have effected a 28 per cent fuel economy and their rain is being hauled at greater speed.  
 An electric ventilating fan for residences is self cooling, air being drawn through a curved pipe extending from the motor housing to the edge of the fan guard.  
 To foil automobile thieves an alarm bell of English invention, enclosed in a locked box, rings as long as a car is in motion unless shut off by the car's owner.  
 A new mechanical hoist for motor truck bodies does the work in two distinct operations, distributing the lifting strain better and raising a body to a higher angle.  
 The British Admiralty has approved a test an English inventor's rudder which is controlled by a motor, steered, stopped or reversed without stopping the engine.  
 A manufacturer of tennis balls has discovered that they can be made to retain their resiliency for long periods if hermetically sealed in packages until ready for use.

THE DAYS OF REAL SPORT

GROWTH OF GRAINS IS BEING RETARDED BY COLD WEATHER

Some Winter Wheat Has Been Killed—Range Conditions Are Very Backward.  
 Helena, May 7.—While spring grain is up in many parts of the state, cold and unseasonable weather is retarding crop growth according to reports of county agents from 21 counties to the department of agriculture, labor and industry, for the week ending April 30. Moisture is needed in Dawson, southern Custer, and Fergus. Considerable seedling winter wheat has been killed badly in eastern Fergus and in portions of Wheatland county. Livestock conditions are reported generally good from all counties, but the range is backward because of cool weather. Stock is coming on the range in good condition. Except for Fergus and Roosevelt counties a general surplus of grain labor is reported at the going wage of \$41 to \$45 a month. Reports from the 21 counties, summarized, are as follows:  
 Dawson—Wheat acreage about 75 per cent seeded. Early sown wheat is doing fine. Late sown wheat is doing fine. Late sown wheat is doing fine. Late sown wheat is doing fine.  
 Custer—Local showers covered the county generally during the week with a good rain on Friday. Weather has been cold. Eighty per cent of spring wheat seeded. 75 per cent of the oats. Flax crop acreage will be much lower than last year unless moisture conditions become very good. Corn planting has begun. Early spring crops are all coming up in good shape.  
 Fergus—Local showers the past week with some snow. Moisture is much needed in the southern part of the county. Wheat coming up in good shape. Rye and oats are fair.  
 Hill—Weather has been too cold for good growing conditions. Considerable rain the latter part of the week. Seeding is practically done in the eastern part of the county. They are anticipating a severe grasshopper outbreak in Camas Prairie Valley.  
 Ravalli—About one inch of precipitation during the week. Weather has been very disagreeable. All vegetation is retarded. Farmers are behind on their seeding because of the weather.  
 Wheatland—The week was windy with light showers and snow flurries over the mountains. Weather generally cool and not warm enough to start the grass or grain. Winter wheat is going the same as last year. A great deal of re-seeding will have to be done. Spring wheat about one-third in.  
 Gallatin—Cool, damp weather, with considerable precipitation in the form of snow, and rather high winds during the week. Considerable land being prepared for corn. Alfalfa coming nicely.  
 Madison—Weather continued cold; no precipitation. Freezing weather night and day. Injurious to spring wheat and peas already sown.  
 Jefferson—Weather continued cold with snow. Has not been favorable for growing crops, and the crops as a consequence are backward.  
 Fergus—Heavy, drying winds during the week with light snow flurries. Rain or snow is needed to start vigorous plant growth. Many of the winter wheat fields in the eastern part of the county are dead. Wheat planted in February and March appears to be coming through very nicely, and spring seeding on summer fallow land seems to be coming very good. There is a scarcity of good farm labor.  
 Cascade—Crop conditions below normal. High winds caused some soil blowing and dried some of the crops that fell. Some insect damage from wire worms, cut worms and winter wheat moths is reported in wheat sections. It is safe to say that as much will be done on this line in the United States in the next century or two as the Dutch have ever done in Holland.  
 Yellowstone—A few scattering showers; low temperature; severe wind; poor growing conditions. Spring grain—wheat, oats and barley—most-

WINIFRED BLACK WRITES ABOUT THE PRIVILEGES OF YOUTH

A young man by the name of William Brown was fined fifteen dollars in court the other day. He was arrested for fast driving. The policeman, furthermore, alleged that the said William Brown was not only driving through the public streets of the city at thirty-five miles an hour, but that he had his arm around the waist of a woman. The judge who imposed the fine said he was fining the man for speeding, not for driving with one arm around a pretty girl.  
 So are the inalienable rights and privileges of youth preserved.  
 Even a hard-hearted judge, in a cold and unromantic court, could not find it in his nature to frown upon the ancient custom of our race.  
 Right he was, and right he will be— that judge of judges.  
 'Till warrant when he heard the dire tale of the policeman that the court room faded from his vision for a minute, and he found himself again, in fancy, in some quiet country road with the sun just sinking in the west or the harvest moon radiant and resplendent in the sky.  
 The scent of the grapes and the wild roses were in the air and the only girl in the world was beside him on the seat of the old-fashioned buggy.  
 And, for the sake of Auld Lang Syne, he fined the youth for speeding and—for nothing else.  
 The Ancient Ritual.  
 Human nature is human nature—be the owner of it the driver of a red-wheeled buggy or the driver of the smartest kind of touring car.  
 The girl he took credit for a driver when the automobile roadsters first came into fashion, I heard a timorous and conservative person say that, for her part, roadsters seemed much more conventional and respectable than the old-fashioned buggies, and so would "You have to drive so fast," said she of the timorous and highly respectable turn of mind, "that of course there is no time for er, er—foolish—don't you know, er—"  
 As for her sapience and worldly wisdom!  
 The youth of this generation has kept up with the speed of its vehicles. The man who could arrive a pair of mottled horses down a country road and still have time enough to put his arm around the girl on the seat beside him has a son who can drive a roadster at thirty-five miles an hour down a well-

RECLAIM SWAMPS, ADD TO FOOD SUPPLY URGE OF PROFESSOR

Wellesley, Mass.—(Correspondence of The Associated Press.)—Drainage of 70,000,000 or 80,000,000 acres in the coastal areas along the gulf and Atlantic seaboard and undrained glacial tracts, particularly in Wisconsin, Minnesota and Illinois, could be one of the surest ways of providing homes and food for a growing population, says Professor Elizabeth F. Fisher of the department of geology and geography of Wellesley college.  
 The statement of Secretary Hoover of the department of commerce that the country is apparently about to pass from a food exporting to a food importing nation was quoted by Professor Fisher in addressing students today as indicating the immediate necessity of increasing the yearly production of food in the nation.  
 This production, she asserted, could be increased from one-seventh to one-sixth by general application of drainage methods, particularly in Wisconsin and Florida and Louisiana. Gulf and coastal land and farther north lie other millions of swamp acres in New England and the middle west where the extraordinary fertility could be uncovered by a course of reclamation of irrigation in the far west, Miss Fisher said.  
 "Unfortunately," she continued, "little of this enormous work of reclamation can be undertaken by states, as 90 per cent of the wet lands in the country are owned privately."  
 Miss Fisher predicted that the time would come "when land will be so valuable in this country and new land so desirable that we shall turn our attention also to the reclamation of the shallow sea areas, especially in the eastern coast, and it is safe to say that as much will be done on this line in the United States in the next century or two as the Dutch have ever done in Holland."  
 An English novelist took his first look at Broadway aflame with light. He read the flashing and leaping signs and said: "How much more wonderful it would be for a man to enjoy the road."  
 The Argonaut (San Francisco).

DEATHS AND FUNERALS

LA ROSA—Funeral services for Mrs. Rose LaRosa, wife of Frank LaRosa, of this city, were held at the O'Connor Co. chapel at 3 o'clock yesterday morning. Burial was in Great Falls cemetery.  
 HICKEY—Funeral services for Mrs. Margaret Hickey, wife of J. F. Hickey, of near Belt, will be held at the O'Connor Co. chapel at 3 o'clock this afternoon. The Rev. Fr. O'Brien will officiate. Burial will be in Calvary cemetery.  
 They never had heard of a telephone. When they wanted to see each other

DEATHS AND FUNERALS

LAMPMAN—James Lampman, aged 48, residing at 212 Central avenue, died at the ranch of Charles Beckstrom, at Kibbey, yesterday morning. The body was brought to the W. H. George Co. chapel, and arrangements for the funeral will be announced later.
