

Common Law Wife Pays Repairs on Car Jointly Owned

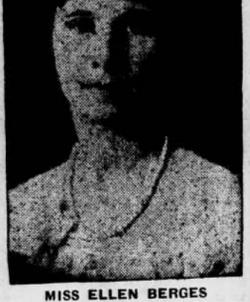

Verdict for \$80.25, the full amount sued for, was returned in district court Saturday by the jury in the case of the Black Eagle Carriage Manufacturing Co. against C. R. Rose and Lou Ashley. The case was appealed by Mrs. Ashley from justice court, where the same amount had been awarded to the company.

TWO STUDENTS FROM CITY IN STATE CONTEST

Declarers From Ursuline Academy and High School to Speak at Missoula.

Two students from Great Falls, one from Ursuline academy and the other from the high school, will take part in the declamatory contest at Missoula Friday night.

The annual declamatory contest, held the evening of the last day of the annual interscholastic track meet, is arranged by the state university, and always has entries from more high schools than sent teams to the meet.

MISS ELLEN BERGES

Miss Ellen Berges was winner of the declamatory contest at Ursuline Academy held a week ago, and will represent the state university, and always has entries from more high schools than sent teams to the meet.

JOHN FINNEGAN

John Finnegan, winner of the declamatory contest at the high school at the state interscholastic contest at Missoula Friday, is a junior in the high school, which he entered last fall from Grand Forks, N. D., high school.

Charge of Assault Against Mrs. Calvert Has Been Dismissed

The charge of third degree assault preferred against Mrs. Cora Calvert, by Mrs. Agnes Plath of the West Side has been dismissed in the Wilson court because of lack of evidence against the defendant. The charge grew out of an encounter between the women at a ranch six miles west of Great Falls, in which a pull of hot water and a stove lid was alleged to have been used by Mrs. Calvert. The defendant told officials that the trouble started when the complainant came to the ranch and attempted to eject her. The case was dismissed on motion of County Attorney H. G. Bennet.

CHICAGO TRIP IS PRIZE FOR LAMB GROWER

Boys and Girls of Montana Who Join Sheep Clubs Eligible for Award.

Boys' and girls' clubs are being organized this month by County Agent F. E. McSpadden and Miss Alberta Borthwick, home demonstration agent, through Cascade county. Mr. McSpadden is especially enlisting the boys of the county in the orphan lamb and breeding sheep clubs. A free trip to the International Livestock exhibition for sheep club members of Montana, offered by Armour's Bureau of Agriculture and Economics, will be given to the boy or girl champion sheep grower of Montana. A total of \$150 will be allowed to defray the expenses of the trip.

The prize will not be given in cash but a check will be sent the winner before making the trip. The club member making the trip will be required to write a story of his experience to contain not less than 200 nor more than 400 words, and mail one copy each to club leader and Armour's bureau.

Many There Last Year. This bureau agrees that the winner, who is to be its guest, will have the best care and entertainment. Special trips have been planned which will be given to the young people. Four hundred seventy-five club members were entertained by the Armour's bureau in 1920.

Every bona fide member of a standard club who finishes the work and gives a complete record and affidavit showing that he has completed the work as required by the state leader, is eligible for the prize. The affidavit which must be signed by a county extension worker or a citizen in good standing, is to accompany the record.

DISCUSS WAGES PAID BY CITY MONDAY, IS PLAN

Matter May Be Brought Up at Next Meeting of Board of Aldermen.

Adjustment of wage scales paid by the city of Great Falls will probably be discussed at the council session next Monday night, according to Mayor Ray M. Armour. Several improvement projects are held in abeyance until the scale is set for the coming year and the mayor has found that there is considerable demand that the way be cleared for operations by settling disputes affecting the price of labor.

Notices were once mailed to the unions that a reduction of \$1 per day would be made with many of the crafts at the end of a 30 day period, but the old scale was restored because of the failure of private concerns to act. It has been the policy of the city in the past to not take the lead in making any changes in wage scales, for Mayor Newman stated when the subject was under debate.

Mayor Armour does not understand that private employers have reached a decision as to the position they will take relative to a new scale, but he said that the council may consider it advisable to discuss the matter because of the situation of pending public improvements.

Hits Safety Zone Post; \$5 Is Judge's Verdict

For having driven into the safety zone post at Central avenue and Fourth street, Louis Pratt was found guilty of reckless driving by Police Magistrate George Baban Saturday and fined \$5. The post was completely wrecked and was taken to the police station as evidence against the driver.

TRIAL OF DEN CHESTER POSTPONED TO MAY 23

Kansas City, Mo., May 7.—Trial of Denzel Chester on a charge of first degree murder in connection with the killing of Miss Florence Barton here October 2 was postponed by agreement Saturday until May 23. The trial was scheduled for next Monday.

sent to the state club leader not later than November 15, 1921. Any record received later will be disqualified. Both members of the orphan lamb and breeding sheep are eligible to compete for this prize.

Most Exhibits at State Fair. Every sheep club member competing for this prize is required to exhibit for this prize in six months of age, at the state fair. Here three judges will pass upon the lambs and select the three best lambs, giving each a rating on the basis of 50 points for the first, 40 for the second and 30 for the third. The three club members whose sheep have been placed first, second and third at the state fair will then forward to the state club leader before Nov. 15, 1921, the record of their sheep club work. This record will contain the financial record of sheep club work and a story of at least 150 words, describing the care and management of the lamb or flock of sheep. These stories will be reviewed by three judges and rated in the following manner: 40 points on story and 10 points on costs shown in the financial statement. These ratings will be added to the ratings for the first, second and third lambs shown, and the club member making the highest rating will be eligible to make the trip. If for any reason the champion should be unable to make the trip, the near champion will be selected.

Ashes of George Roehl, Pioneer Victim of Fire, Will Be Buried Today

The ashes of George Roehl, 82 year old pioneer resident of Neilhart, who was burned to death in a fire which consumed a hotel concentrator at the city last Monday, were put in an urn and brought to Great Falls Friday. The funeral services will be held from the O'Connor Co. chapel at 2 o'clock (Sunday) afternoon and the Rev. Christoph Keller will officiate. Burial will be in the Great Falls cemetery.

TWO OF A KIND. "How's your cold, Donald?" "Verra obstinate." "And how's your wife?" "About the same."—London Mail.

CITIZENS FORM ORGANIZATION OF TAXPAYERS

Committee Named to Plan Campaign and Report at Meeting Set for Thursday.

For the avowed purpose of eliminating waste in the administration of public affairs; to guard against unnecessary expense; to observe everything pertaining to the expenditure of public funds and to discover methods by which taxes can be reduced, a small delegation of Great Falls citizens met in the council chambers at the court house Saturday evening and formed the nucleus of an organization styled the Cascade County Taxpayers' association. The next meeting will be held next Thursday night, when a committee of four men will submit concrete suggestions with an idea of mapping out a comprehensive program.

Alfred Malberg acted as chairman of the meeting and on invitation from him, many of those present Saturday night entered into a general discussion for the purpose of deciding whether the forming of an organization would be a wise move. At the conclusion, it was unanimously voted to proceed with the plan and the chairman named Dan McKay, H. H. Rooney, R. H. Wright and G. A. Bosley as members of the committee.

The public schools, the boulevard problem, the dandelion pest, the city streets and the health department were discussed by those who spoke. The speakers said the criticisms they offered were tendered in a friendly spirit, and that their suggestions were intended as a means of correcting matters which now operate to the disadvantage of the taxpayers. Some sentiment in favor of a contract system for the care of the boulevards was expressed and those who discussed the dandelion menace said that the city could not afford to hire men to destroy the pests.

Mayor Ray M. Armour told the meeting that if an organization were formed he would urge that the committee members be carefully selected, and that his administration would always welcome constructive criticism. The taxpayers themselves, he said, are generally responsible for any defect that leads to increased costs. He stated that Great Falls is now paying \$5.50 a day for common labor, while nearly all of the other cities in the state are paying \$4.50.

Other speakers were Dan McKay, H. H. Rooney, Charles Steele, G. A. Bosley and a number of men who were not introduced. Mr. McKay declared that beef, wool and wheat had returned to a normal price or below, and asked the meeting to consider the things that were still abnormally high. He mentioned expenditures made for the public schools, and said that he had never heard of the Great Falls schools distinction with other schools in the state. Great Falls is not mentioned at other places as having the best schools in the state, he said. He urged that careful consideration be given to the selection of the organization's committees and asserted that the association should be made the most efficient public body in the county.

130 CAR OWNERS RUSH TO REPORT CARS FOR TAXES

Machines Voluntarily Reported to County Assessor Worth \$100,000.

One hundred and thirty automobile owners have during the last week voluntarily notified County Assessor Harold Mady that their cars had not been reported for assessment and asked that the machines be included in their property statements. The notices were received in response to the assessor's advertisement that all property not reported by May 9 would be assessed at 10 times their true value, as specified by law.

Machines reported during the week have a value of over \$100,000 the assessor estimates, and inquiries made after the cars were listed brought to light enough other personal property to bring the total up to near \$120,000. "The field men report that an automobile is the most difficult item of personal property to locate in many instances," said Assessor Mady. "Fortunately the machine is away from home when the field men call, and I think this fact accounts for the greater portion of the omissions. At any rate, the 130 owners have notified us that their cars were not listed during the last week on which property can be reported without being assessed at 10 times its value."

Trial of Woodruff Put Off to May 10

Trial of Amos T. Woodruff, former financial secretary of the Great Falls Mill and millmen's union, on charges of larceny as bailed was postponed in district court Saturday until May 10. The delay was ordered to permit the summoning of witnesses, it was understood.

CAN'T BEAT "TIZ" WHEN FEET HURT

"Tiz" for Sore, Tired, Puffed-Up, Aching, Calloused Feet or Corns.

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, sore, aching, puffed-up, and only "Tiz" take the pain and soreness out of corns, callouses and bunions. As soon as you put your feet in a "Tiz" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly draws out all the poisonous exudations which puff up your corns and cause sore, inflamed, aching, sweaty, smelly feet. Get a box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

If Your Hair Is Thinning

Strengthening and growing the roots of the hair is one of the real secrets of forcing hair to grow. Something has heretofore not been fully realized. Merely stimulating the surface tissues of the scalp does not stimulate the hair growth to the extent desired. The new method just mentioned can be forced to grow several inches a month. Hair will stop falling as if by magic. The new vigor of the hair will be fully noticed, and all bald spots will be soon entirely filled out with new sprouts. This can all be easily obtained by the simple use of beta-quinol, which can be secured at any drug store in the original bottle, and is not a hair restorer. This can be mixed at home with a half pint of bay rum and a half pint of water, or with any hair oil you prefer. It contains no oil whatsoever. To Have the Arm Pits Soft and Free From Hair. You can be sure that there is but one sensible way to remove hairs from the arm pits, and in fact from any part of the body. It is foolish to "burn" them off, injuring and spotting the skin. Just use beta-quinol with sulfo solution. This will actually dissolve away the hairs completely, and leave the skin super-soft and smooth. It will not irritate the most delicate skin. Sulfo solution can be obtained at nearly any drug store. Something Better Than Soap for a Head-Wash. As to head-wash, you are advised against using soap or the many shampoos sold, because of the alkali they contain. This dries the hair secretions. Get a package of eggol at the drug store and dissolve a teaspoonful in a half a cup of water. You can get enough eggol for twenty-five cents for a dozen or more head washes. It is magic in cleansing hair and scalp, and aids wonderfully in making hair grow.

If Ruptured Try This Free

Apply It to Any Rupture, Old or Recent. Large or Small and You Are on the Road That Has Convinced Thousands. Sent Free to Prove This. Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 315 Main St., Adams, N. Y., for a free trial of his wonderful skin-tightening application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Even if your rupture doesn't bother you why then send for this free trial. Even if you suffer this nuisance? Why run the risk of gangrene and such dangers from a truss as has thrown thousands on the operating table? A nice such risk just because their ruptures do not hurt or prevent them getting around. This is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's fist. Try and write at once, using the coupon below:

People of Seven Townships Living in No-Mans Land

Officials of Both Chouteau and Teton Counties Decline to Recognize Them. Special to The Tribune. Fort Benton, May 7.—The Chouteau County Abstract Co. of this place has been awarded the contract for transcribing the records for the seven townships that are to be cut off of Chouteau county and added to Teton county. At the present time this particular strip of country might be classed as "no man's land" and inhabitants are in a quandary to tell where to transact county business. Under the law the board of county commissioners of Chouteau county does not have authority to transact business covering this area and the board from Teton county is also without power. The matter of adjusting the affairs of the territory involved lies with a commission which is to be named by Governor Dixon. As soon as this commission is appointed, the matters incidental to shifting the burden of legislation will receive consideration.

Rain Around Valier Improves Conditions Upon That Project

Special to The Tribune. Valier, May 7.—Farming conditions were greatly improved on the Valier project Saturday when Friday night's heavy rain continued through the day, amounting to over an inch in 18 hours. Seeding here is well advanced and the outlook is very optimistic. Notwithstanding reports to the contrary, a large acreage will be seeded this year, especially on irrigated land. Water is now available for irrigation, but so far the demand has been very slight and the water in storage is gaining daily. The earth has a mass of dirt and a half million billion tons.

DYE ONLY WITH "DIAMOND DYES"

Unless you ask for "Diamond Dyes" you may get a poor dye that streaks, spots, fades and gives that dyed look. Every package of Diamond Dyes contains simple directions for home dyeing or tinting. No rich, fadeless color into garments or draperies of any material. No mistake! No failures!

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them. To do this get two ounces of salicylic powder from any drug store and mix it with a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt which lodge in the body that form in the pores of the skin—pinching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. The salicylic powder, which water simply dissolves the blackheads so they wash right out, leaving the pores free and clean and in their normal condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.

RI-MOIDS (GRANULES) FOR INDIGESTION

Taste good, do good; dissolve instantly on tongue or in water, take as needed. QUICK RELIEF! ALSO IN TABLET FORM FOR THOSE WHO PREFER THEM. MADE BY SCOTT & BOWNE, MAKERS OF SCOTT'S EMULSION.
