

EGYPTIANS KILL 23 AND WOUND 13 EUROPEANS AT ALEXANDRIA

Killing of Native by Greek Starts Reprisal in City

Victims Drenched With Petrol and Burned in Streets, Says Cairo Report; Bedouins Plan General Revolution; Troops on Scene.

Alexandria, Egypt, May 23.—(By The Associated Press.)—Five Europeans were killed and 72 others wounded in rioting here Sunday night and Monday morning, it was announced Monday. The police casualties were not given out. It was officially announced Monday afternoon that 23 persons had been killed and 13 wounded.

London, May 23.—Many persons are reported to have been killed in an outbreak in Alexandria, Egypt, where natives attacked Europeans, says a Reuters dispatch from that city. British troops have arrived and taken charge of the town. It is rumored that the outbreak arose from the killing of a native by a Greek, which led to attacks by the natives and students on Greeks and other Europeans.

Ambulances were busy all night taking the wounded to hospitals. Many fires were started and in one district it was reported that people were burned alive.

Mobs during the night smashed windows and Monday morning all business establishments are closed.

Before the arrival of the soldiers Monday morning Europeans had gathered at the government offices, demanding protection or permission to protect themselves. They greeted the troops upon their arrival with great enthusiasm.

A dispatch from Cairo to the Exchange Telegraph Co. reports many dead lying in the streets of Alexandria. One report states that two Europeans were drenched with petrol and burned in the streets.

A band of 1,500 armed Bedouins, says the Cairo message, is reported to be advancing on Ramles, five miles northeast of Alexandria, "to participate in a general revolution which, but for the presence of the British, might succeed."

Cairo, according to the message, is in an excited state, but no disorders have developed there.

BRITISH TROOPS WILL BE SENT INTO SILESIA

Movement of 'Irregular' German Troops Serious, Says Scribe.

High Commission Attempts to Intervene; Poles in Retreat.

London, May 23.—(By The Associated Press.)—The British government has decided to send troops to Silesia at an early date, it was announced Monday.

The decision to send the troops resulted from interchanges between Great Britain and France and the British force will be sent to reinforce the allied contingents in Upper Silesia in the near future. The size of the force was not indicated in the announcement but it is understood that not less than four battalions, probably from the Rhine forces, will go.

Situation Serious.
The correspondent of the London Times in Oppeln reporting German "irregular" military operations in Upper Silesia declared the Germans have been concentrating forces and making preparations for a fortnight. Indications, the dispatch said, point to a determined effort to recover possession of Upper Silesia from the Poles.

The movement is regarded by the Times correspondent as far more serious than a mere reaction of the German population against the insurgents. He asserts that the interallied commission was unable to prevent the outbreak of fighting and is just as powerless to intervene. Apparently the Germans have regular army reserves at their disposal.

Poles Extend Control.
The Polish insurgents, according to the dispatch, have been steadily consolidating their position and extending their control over the industrial districts of Silesia. They are reported to have succeeded in starting work again in mines, foundries and factories and are squeezing the allied authorities out of the towns they still occupy in order to complete their hold on the railway between Kattowitz and Gliwicz.

Every sort of pressure is being employed to compel the surrender of two important towns. No feed is being allowed to enter them but as this has not proved effective, the water and electricity supplies of Kattowitz were cut off Sunday.

ALLIES INTERVENE.
Paris, May 23.—(By The Associated Press.)—The allied high commission in Upper Silesia has sent a delegation to intervene with the Germans to obtain the cessation of all military operations in that territory, according to French official dispatches Monday.

Each of the delegations is composed of representatives of France, Great Britain and Italy. In French circles the situation is regarded as most grave, following the German attack on the Polish lines along the Grossteiner-Striebanun-Krempa front.

Close Frontier, Poles.
The Poles, according to French information, retired from this line. The German attack, although regarded as very serious, is not considered in French official circles as a casus belli, as it was carried out by irregular forces.

The allied representatives in Berlin called on Dr. Wirth Monday and asked him to close the Silesian frontier and take all possible steps to prevent intervention by other volunteer forces. A German government note delivered to the French foreign office today says the German government has no influence on the measures of self-protection taken by the population of the Upper Silesian territory, which is under administration of the interallied commission. The note adds that the commission is solely responsible for the maintenance of law and order in Upper Silesia.

CAPTURE POLISH GUNS.
Berlin, May 23.—Reporting on the German operations in Upper Silesia, the Montags Post Monday announced that German plebiscite police stormed Annaberg, which the Polish insurgents had held for three weeks. The Poles lost three guns.

The Germans, adds the newspaper, also occupied the strategic point of Grossteiner, northeast of Annaberg, capturing two mine throwers and seven machine guns.

LESS GOVERNMENT

(Continued from Page One)

section, but by processes which will insure real justice among all elements.

Give Business Aid.
Turning to industry, our policy must be to give it every facility possible, but to keep government outside of participation in business on its own account. It is not necessary for the government to intrude itself in the business activities which are better conducted through private instrumentalities, merely to demonstrate that the government is more powerful than anything else. The government's part in business should be no more than to insure adherence to the principles of common honesty and to establish regulations that will enable it to sail a safe course. There has been some tendency to regard business as dishonest until it should prove itself honest and to regard the highest business as a crime. But almost all business today is conducted on a scale which, though we have come to regard it as commonplace, would have made our forefathers gasp; and I prefer to assume it is honest until proved dishonest. So I speak for the least possible measure of government interference with business, but for the largest co-operation with properly conducted business and the most effective measures to insure that, whether it be big or little, business shall be honest and fair.

"In our effort at establishing industrial justice, we must see that the wage earner is placed in an economical sound position. His lowest wage must be enough for comfort, enough to make his home, and enough to insure that the struggle for existence shall not crowd out the things truly worth existing for. There must be provisions for education, for recreation as well as for the higher education of individual's abilities. On the other side, the wage earner must do justice to society. He must render services fully equal in value to the compensation he is paid. And finally, the employer and employee owe to the public such efficiency as will inspire that cost of service or production shall not be higher than the public can fairly pay.

Creditor Nation.
Assuming that these things may be laid down as fundamentals, it is for us all to get back to work. That is what made our country great, it is what will put the whole world back on the right track. We must have the world must have confidence that the things will come out right. We have dealt with the greatest problems that humanity ever confronted, in carrying on the war. We will have no problems hereafter greater or more difficult. Therefore, we are entitled to every confidence that we will cope successfully with the problems which lie ahead.

"Our position in the world has been greatly changed as a result of the war. We have become a creditor rather than a debtor. The exigencies of war compelled the government to take, by taxation much wealth from our people to be loaned to our allies. This is the basis of their obligations to us, and it is not a good form in which to hold the obligations of one people to another. It is altogether to be hoped

that in a reasonable period we may change the form of these obligations and distribute them among all the people. We hope also that there may be effective reduction of the cost of government. In these ways we hope to release a great volume of wealth and credit from the burden that government has been imposing and make it available for the development of domestic industry and the expansion of foreign trade. We ask the co-operation of business leaders and we assure them that within its proper limitations the government will meet them half way.

Exchange is Mead.
By this process we shall aim to create demand for the products of our industries, to establish permanent markets abroad for our surplus. We are learning that the immediate need, so far as our own country is concerned, is not so much production as facilities of exchange. To that end, I could wish that the tendency of the world's gold to gravitate to us might be checked. Beyond the point of insuring security to our circulation, gold would be more useful to us in the vaults of great banks abroad, where it would be the guarantee of the gold standard and of those fair exchanges which are vital in international trade. I feel strongly that the protection of the gold standard is one of the great obligations which peculiarly appeals to us.

"We are coming to understand the elements of the problem we face, and that is a long step toward solution. Give us the earnest support of such men as I see gathered here, of such organs of sound policy as we are gathered to acclaim and we shall not be long in putting our country on the right course, ready for the signal 'Full Speed Ahead.'"

Less Skirts Fewer Accidents, Is Claim

Chicago, May 23.—The present style of women's short skirts was given as the cause for the reduction in accidents to persons boarding and alighting from street cars and railroad trains in a report issued Monday by Frederick Rex, city statistician.

ANNOUNCEMENT JOHN L. GILLIN, III.

Distributor 609 FIRST AVENUE NORTH Announces The Wonderful RAY Battery

It is a pleasure for us to be permitted to offer you this remarkable storage battery. The RAY is sweeping the country by storm. Its wonderful showing in test performances has convinced the motoring public that the high cost of batteries and battery service is a thing of the past.

Bonified tests have been made by engineering authorities (we have the records to show you) which prove the RAY to be THREE TIMES AS RUGGED as other widely known makes.

Still further proof of RAY superiority is the fact that the factory presents to each purchaser a two-year unconditional guarantee. This is the broadest battery guarantee offered by any maker. It means that if your battery fails to function properly at any time within two years from date of sale from our service station to you, then you will be given a new battery.

Such a guarantee would not be possible if the RAY were not a remarkable electro-chemical achievement. The reason why this battery is better is because of the famous "Lavier Formula Plates," found in no other battery. These plates are so tough and rugged that they will not wash down or disintegrate, even under excessive charge and discharge, yet they are so porous that the RAY is 100 per cent efficient.

You should investigate this battery. It is manufactured by the Ray Battery Company, of Ypsilanti, Michigan, and is carried in stock by us. Come in right away and see the RAY.

We furnish prompt service on any make of battery.

50 good cigarettes for 10c from one sack of GENUINE "BULL" DURHAM TOBACCO

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Just WHISTLE

Pepsodent

The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Railway Mail Clerks Named for Montana

Special to The Tribune.
Washington, May 23.—Railway mail clerks appointed for Montana are: Ed Barga, Butte; A. J. Homan, Missoula; F. J. Rowland, Byrum; J. Nelson, Anaconda; P. L. Steffins, Creston; R. I. Small, Kalispell; C. C. Miller, Great Falls; A. E. Sexton, Victor; E. C. Jump, Dayton, and A. D. Steffins, Billings.

Ethel M. Peterson was named postmaster at Monarch. The civil service commission has been asked by the postoffice department to hold examinations for postmasters at these offices: Clyde Park, Deer Lodge, East Helena, Geyser and Seeby, the dates to be fixed later.

500,000,000 Feet of Timber Consumed in Superior Forest

Duluth, May 23.—A strip of heavy wooded forests twenty miles long and seven miles wide was burned by late fires which started in the Wales branch of the northeastern Minnesota forest reserve, forestry men reported Monday. C. A. Mahlgren, supervisor of the Superior national reserve, said Monday that the fires had stripped about 500,000,000 feet of timber in about 2,500 acres. Logging camps and sporting clubs have been destroyed by the fires, according to reports.

China and Germany Sign Commercial Pact

Peking, May 20.—(By The Associated Press.)—China and Germany have signed a commercial agreement, which is considered tantamount to a peace settlement.

By this agreement Germany consents to the abrogation of the consular jurisdiction and undertake fulfillment of the obligations of the Versailles

treaty relating to China and reimbursement of China's expenses for internment of Germans.

A supplementary note has been presented to China whereby Germany agrees to advance a lump sum against the war indemnity and restore Chinese property in Germany.

HARDING PONDERS WILSON.
Washington, May 23.—Henry Lane Wilson, former ambassador to Mexico, is understood to be uppermost in the mind of President Harding for appointment as ambassador to Mexico.

Healthy Mother Merry Children Happy Home

TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her. "Where is my hat?" cries the boy. "What did you do with my coat?" asks the daughter. "I can't find any handkerchiefs," yells the husband. The housewife is usually the advisor and general manager of the family.

Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health.

Bloomington, Ill.—"I have taken six bottles of Lydia E. Pinkham's Vegetable Compound and it has done me a wonderful sight of good. I was never very strong and female trouble kept me weak so that I had no interest for my housework. I had such a back ache I could not cook a meal or clean up a room without raging with pain. I would rub my back with alcohol and it would ease for a few hours, but after I had taken three bottles of Vegetable Compound my aches began to gradually leave me. Now I am as strong and healthy as any woman and I give my thanks to Lydia E. Pinkham's Vegetable Compound for my health."—Mrs. J. A. McQuitty, 610 W. Walnut St., Bloomington, Ill.

Dante, So. Dakota.—"I would have pains and cramps every month until I could hardly stand it and could not do my work at all at that time and often had to go to bed. I went to a physician, but he did not do me much good and I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in the newspaper and thought I would give it a trial. Now I feel lots better and don't have to give up and go to bed, and can do all my work. You may use these facts as a testimonial, and I will answer with pleasure all letters I receive, and you may be sure I will praise your wonderful medicine."—Mrs. ARTHUR J. KADE, Box 71, Dante, South Dakota.

Thousands of women owe their health to
