Seven Are Graduated From Shelby School; Community Picnic

Special to The Tribune.
 Shelby, May 26.—The annual commencement exercises of Shelby school were held Friday evening, May 24, in the school auditorium. The graduates were: John Lepper, Mary Barnes, Cecil Albert, Hattie Hart, Gem Cox, Donald Helinger and Norman Apple. The program consisted of an address by Dr. J. H. Underwood of the University of Montana, a valedictory address by Mary Barnes, a class prophecy by Gem Cox, the class history by John Lepper, and musical numbers by the glee club and orchestra and Miss Estelle Hansen, music supervisor.

During the afternoon a big community picnic was staged on the bank of the Marias. Nearly everyone in Shelby attended. There were athletic sports, such as scrub baseball games, relay races, dashes and a tug of war, followed by a real picnic supper. One of the features was a ball game between the high schools of Conrad and Shelby. The game was won by the Shelby team by a one-bit game.

Farmers at Shelby Putting in Acreage

Special to The Tribune.
 Shelby, May 26.—Shelby farmers now have the best crop prospects they have had for four years. They are working early and late putting in a larger acreage. Prospects are also excellent for a banner stock year, as the grass is unusually thick and luxuriant.

ROBERT GRANT NAMED HEAD OF DENVER MINT

Washington, May 26.—President Harding Thursday nominated Robert G. Grant of Denver to be superintendent of the Denver mint, and Arthur S. Allen of Teaneck to be collector of internal revenue for the district of Nebraska.

Stock Market

as seen by Bulls & Bears

Reported by H. B. Lake & Co.
 New York, May 26.—The stock market was somewhat of a mixed affair today. The railroad stocks shaped up in a more favorable way and several speculators that have been under pressure lately exhibited a much improved tone. The April earnings statement of the A. P. & S. Kansas City and Southern Pacific roads created a more cheerful feeling among the holders of railroad stocks and it now looks as though the extreme economies invoked by the carriers a short while ago are beginning to bear fruit. The president of the A. P. & S. has publicly denied that the company would do any new financing and there are also reports in circulation that the regular semi-annual dividend would be declared at tomorrow's meeting. The rubber and iron stocks were adversely affected by reports of curtailment in some plants and also as a result of a reported slowing down in the demand for automobiles. Money rates were rather stiff today but it is thought this will be only temporary. It would not be surprising to see an extension of the rally in various departments of the list.—Logan & Bryan.

Chicago Market

GRAIN AND PROVISIONS.
 Chicago, May 26.—Steady declines in wheat today resulted from prospective liberal receipts here and from welcome rains in sections where there has been complaint of drought. The market closed heavy 1/2 to 1 1/2 net lower, with May \$1.68, and July \$1.27 to \$1.28. Corn lost 1/4 to 1/2; oats 1 to 1 1/2 and provisions 2 to 4 1/2.

With indications that wheat was being shipped here freely from southern and northwestern market centers and that the supply here was likely to be ample to all deliveries on outstanding May contracts, demand from shorts in that month almost halted and the prices dropped swiftly.

July kept within fairly moderate limits as compared with the big price spike back in May. Despite rains and cooler weather the crop outlook continued unimpaired and buying support for July was rather aggressive at times.

Corn and oats declined with wheat, although exporters took 700,000 bushels of corn and charter of corn for Europe were of unusual magnitude.

Provisions were depressed by the downward slide of grain and of hogs as well.

New York Market

FINANCIAL.
 New York, May 26.—Stock trading today was of an uncertain character. Further short coverings was prompted by approaching holidays and favorable railroad earnings.

Other encouraging factors included an increase in the Chicago, Burlington & Quincy dividend with resultant benefits to the Hill roads; the probable success of the new French government loan and indications that the administration had instituted measures to stabilize the international situation.

Apart from several of the more responsive stocks, however, the list showed little evidence of outside support. Ralls, oils, steels, equipments, shippings and coppers again encompassed the most active operations at extreme gains of 1 to 3 points.

Chief elements of weakness were the rubber and iron issues, as well as food specialties and several unclassified stocks whose dividend records were believed to be endangered. Sales amounted to 565,000 shares.

Further withdrawals to meet federal demands and June interest and dividend payments forced out money from its opening rate of seven to 7 1/2 per cent in the final hour. Bank demand accepted at 10 per cent but time rates and commercial paper were unchanged.

Rates on London continued to react; the dollar advanced sharply in Dutch remittances and French, Belgian and Spanish bills were firm in strength.

Merchandise prices were firm. The foreign bonds were active and strong in anticipation of the outcome of the new French flotation. Total sales, (par value) \$12,375,000.
