**German Minister of Restoration Tells Reichstag It is a Running Sore**

Berlin, June 3.—Dr. Walter Rathenau, the new minister of restoration, was severely heckled by members of the nationalist, German people and ultra-radicals yesterday when he took the floor in the Reichstag.  
 "The world," he declared, "is not composed of chauvinists nor is it made up of 1,500,000,000 fools, but it holds a large body of fair minded individuals, whose eyes are turned toward Germany and who are inquiring, 'what will Germany do; will her life be devoted to the fulfillment of her debt?' The work of rebuilding the devastated zone in France is a national duty for the world. It is a running sore and until it is healed world peace is unthinkable."

**Paper Mill Strikers Accept Cut in Wages and Go Back to Work**

Green Bay, Wis., June 3.—The strike of 500 employees of the Northern Pacific mills of this city was settled at a conference of mill officials and union officials Thursday night, according to announcement.  
 The men agreed to accept a wage cut of 16 2/3 per cent. It was stated. Union leaders said the union scale of working hours was reduced and that men would go back to work Monday.  
 A similar wage reduction was accepted Thursday by 600 employees of the John Hober company and the Green Bay Paper and Fibre Co. mills, who walked out May 1, it was said.

**STRIKING COAL MINERS REJECT WAGE PROPOSAL**

London, June 3.—(By the Associated Press)—The executive body of the striking coal miners today finally rejected the government proposal for a settlement of the coal strike.  
 The men agreed to accept a wage cut of 16 2/3 per cent. It was stated. Union leaders said the union scale of working hours was reduced and that men would go back to work Monday.  
 A similar wage reduction was accepted Thursday by 600 employees of the John Hober company and the Green Bay Paper and Fibre Co. mills, who walked out May 1, it was said.

**DEATHS AND FUNERALS**

We wish to take this means of thanking our kind friends and neighbors for the kindness and sympathy shown us at the death of our beloved husband and father, F. R. Woolley. We especially wish to thank the members of the union, and all those who sent the beautiful floral tributes.  
 Mrs. F. R. Woolley and Family.

**Stock Market as seen by Bulls & Bears**

Reported by H. B. Lake & Co.  
 New York, June 3.—Market prices lower today. Passing of dividend on Cane Sugar preferred was followed by a sharp break in this particular issue and this had a depressing effect on the balance of the list and on the rise but this stringency, it is thought in most quarters will be of but temporary duration. In this connection it is worth noting that the display of the New York Federal reserve system yesterday was a most excellent one, ratio being the highest in a long time. The market, however, failed to suffer a series of further unfavorable dividend action expected to be taken by some companies and the effect may continue to exert an apprehensive effect on holders of various issues.

**GRAIN AND PROVISIONS.**  
 Chicago, June 3.—Sharp setbacks in the price of wheat took place today after the market had touched new high record quotations for the July delivery. Slowing down of export business as a bearish factor, and so, too, did ideal weather conditions. The finish was heavy, 3/4 to 3/8 cents net decline, with July 1 1/2 to 1 3/4. Corn lost 1/4 to 2 cents, and oats 1/4 to 1 cent. In provisions the outcome varied from 2 1/2 cents decline to 5 cents advance.  
 Wheat values began to break as soon as the opening figures were posted showing that the season's high price record had again been outdone. In this connection it was said that large offerings to Europe over night had not been accepted, and that Italy would need only 400,000 bushels of wheat this season against 110,000,000 bushels imported last season. Bears also made much of a short report that prevailing cloudy weather would greatly facilitate the proper filling of wheat, and that reports on crop estimates were being revised upward. Gossip was current to that assessors' returns showed a much larger acreage than was indicated by the common dividend. A stern buying on the declines caused one decided rally, but the effect was more than counterbalanced later as trading in the September delivery here with further delay.  
 Corn and oats were depressed by a renewal large receipts of corn. The arrivals of corn already estimated to total 760 cars.  
 Provisions averaged a little lower in sympathy with grain and hogs. The prices of futures ranged as follows:  
 Wheat: Open High Low Close  
 July ..... \$1.40 1/4 1/4 1/2 1/4 1/2  
 Corn: ..... 65 1/2 66 1/2 65 1/2 65 1/2

**New York Market**

**FINANCIAL.**  
 New York, June 3.—Liquidation and short selling effected further price improvement in the stock market today. Some of the more active issues were Standard Shares lost 1/4 to 3/8 points, while speculative issues fared even worse.  
 Pressure accumulated through light money, indications of trade depression and further dividend omissions. Chief among these were Cuban Sugar Preferred and Armour Leather Preferred, while International Harvester announced a cut in the common dividend.  
 The Cuban cane dividend action evidently came as a surprise. That stock sustained an extreme loss of 13 points on heavy offerings which included a block of 4,000 shares.  
 The heavy offerings were extremely weak as sugar shares were extremely weak, many of the low stock, subsidiaries, cheaper oils, chemicals and shippings.  
 The market was dull and irregular throughout and efforts to build pools to elevate some secondary specialties met with little success. Weakness ruled at the close on a turnover of 655,000 shares.  
 Yesterday's flurry in money was not repeated. Call loans opened and receded to next week at 7 1/4 per cent, a quotation that prevailed throughout the session. Rates for time funds were unaltered but simply diminished and few deals in commercial paper were reported.  
 The heaviness of foreign exchange, particularly, was associated with selling from London or rejection by British gold buyers of the government's proposals. German and Russian securities alone showed comparative strength.  
 The chief feature of the bond market was a heavy offering of Liberty 3 1/2's. They closed at \$87.90, a net gain of slightly more than one point and almost two points above yesterday's low record of \$87. Other Liberty issues showed mixed results, some simply diminished and a few deals in commercial paper were reported.
