

Church Services Today..

Our Savior's Lutheran, 1408 Second avenue north, The Rev. A. Lund, pastor. Morning services at 11.

Church of the Incarnation, Episcopal, Third avenue north and Sixth street, The Rev. Christoph Keller, rector. Holy communion at 8. Morning service at 11.

First Congregational, Ninth street and Third avenue north, The Rev. V. V. Loper, pastor. Morning worship at 10:45. "America's Place in the Kingdom of God." Solo by Opal Maññ. "How Beautiful Upon the Mountains." Church school at 12.

Scandinavian M. E., Fourteenth street and Second avenue north, The Rev. Andrew Morgan, pastor. Evening service at 8. Prayer meeting Thursday evening.

First Church of Christ, Scientist, Masonic Temple. Morning service at 11. Subject, "God." Sunday school at 12:15. Wednesday evening meeting at 8.

Trinity Lutheran, Eleventh street and First avenue south, The Rev. Paul E. Rohlfing, pastor. Morning service at 11. "They That Sow in Tears Shall Reap in Joy." Sunday school at 9:45. Confirmation class Friday evening at 7. The Ladies Aid will meet Wednesday at 3 with Mrs. O'Krusch.

Emmanuel Baptist, 1005 Seventh avenue south, The Rev. D. L. McGriff, pastor. Morning service at 11. "Giving God What is Left." Evening service, "No Good Thing Will I Withhold From Them That Walk Upright." The Lord's Supper will be given at the evening service. Church meeting Monday evening. Prayer meeting Tuesday evening.

Union Bethel A. M. E., 916 Fifth avenue south, The Rev. A. W. Johnson, pastor. Morning service at 11. "General Class." Evening service at 8. "Localism." Young people's meeting, Friday evening at 7. Prayer meeting, Wednesday at 8.

First Baptist, Second avenue north and Sixth street, The Rev. Daniel Bryant, pastor. Morning worship, 10:30. "The Birthday of Our Nation." Sunday school at 12. Evening service, 8. "The Meaning of Wednesday." Stereophon lecture, "Things Chinese: Baptists in an Awakened Land."

United Brethren, Sixteenth and Central avenue, The Rev. W. B. Nelson, pastor. Morning worship, 11. "When the Fire Died Down." Evening worship, 8. "Sudden Storms." Sunday school 10. Prayer meeting Wednesday at 8. Ladies' auxiliary will meet with Mrs. Hooker Wednesday, 2:30.

Swedish Baptist, Second avenue and Seventh street, The Rev. Erik Gronlund, pastor. Morning service 11. "Self Heed Taking." Sunday school and Bible class 12. Young people's program 7:45. Evening service at 8. Prophecies literally fulfilled at the First Coming.

First Methodist, Sixth street north and Second avenue, The Rev. A. B. Smith, pastor. Boys' Sunday school at 9:30. Class meeting at 9:45. Boston Heights Sunday school at 10:30. Morning worship at 10:30. Sacrament of the Lord's Supper, Sunday school at 12. South Side Sunday school at 12:15. Intermediate league at 6:45. Senior Epworth league at 7. Evening worship at 8. Midweek prayer service Wednesday at 8.

Presbyterian, 700 First avenue south, The Rev. Leo L. Totten, pastor. Morning service 10:30. The Rev. W. D. Shrive, D. D., secretary of the board of home missions, will speak on "America by the Way of the Neighborhood." Evening patriotic service, "The Springs of Liberty."

Warren Methodist Episcopal, 212 Fifth street southwest, The Rev. T. T. Pike, pastor. Morning worship at 10. Evening worship at 8. "Laying Aside Every Weight." Sunday school at 10. "The Story of a Tramp." Ladies Aid meeting at the church Wednesday at 2. Prayer service Wednesday at 8.

Bethlehem Lutheran, Second avenue north and Eighth street, The Rev. N. J. Forsberg, pastor. Sunday school at 9:30.

American Housewives Make Better Pies Than in Old Days

Pies, as we know them, are supposed to be an especially American institution. They have meat pies in England and fruit tarts, but neither are more than distant relations of our own beloved pie. We used to hear much of the bad effect of pie on the American digestion, but housewives have become better pastry cooks since those days. Pastry is a perfectly wholesome form of food if it is properly made and, which is even more important, properly baked. An oven to bake pies should not be too hot. If it is the pie crust will be browned on top and soggy and uncooked underneath and it is this uncooked pastry which is unwholesome. Enamelled pie plates will be found very helpful in securing the proper baking for pies. Our grandmothers thought no pie could be well baked except on an earthenware plate and scorned the tin pie plate when it was introduced. We are fortunate enough to have in enamelledware a pie plate the porcelain surface of which gives us all the good qualities of old earthenware and whose metal foundation provides us with the durability of the tin plate. They are good, and well made pies are digestible. It is up to the housewife to see that they are both.

SAVE THE SOAP. Pieces of toilet soap which have become too small for toilet use make an excellent shampoo if placed in a glass and dissolved in water until they become a jelly.

HAS ELEVEN FIANCES WAITING

Miss Virginia Lee.

Who are the 11 men, New York is asking, whose ardent suits have won Miss Virginia Lee's "Yes" and who expect on her return from abroad to become her husband? Uadulant, slender-hewed Miss Lee, whom Howard Chandler Christy enticed over as "the ideal Christy girl," has confessed to friends in Paris that she is afraid to return "because I've got 11 fiancés, and they'll all be waiting at the pier." But none of her fiancés can list the entire 11. And perhaps their names will remain a mystery until her vessel docks. Miss Lee was born in Mexico City and educated in New Orleans. She is 21 years old.

Scientific Facts in Tabloid Form for Busy Readers

France in the vicinity of Brest is increasing the manufacture of building and paving blocks from crushed coal clinkers, sand, lime and cement. On the thermos bottle principle is a Wisconsin inventor's dinner pail that keeps food hot in one section and cold in another at the same time. Balloons made in Holland for meteorological purposes of rubber treated by a chemical process rise to greater heights than those usually employed. Although the United States uses twice as much petroleum as all the rest of the world, its potential supplies are only one-seventh of the world's total.

A new British law provides for the registration of proprietary medicines and appliances and their owners and enforces stringent restrictions upon their sale. Operated by a gasoline engine and either tractor or horse drawn, a machine has been invented that strips twigs from camphor trees without injury to the trees. Lubricating oils for the regions are being obtained by distilling the bituminous limestones that are found abundantly in Syria and Palestine.

Under the control of the driver, an auxiliary step for an automobile has been invented, being hinged under the running board, against which it is held when idle. Before the air reaches the regular heating elements in a new French electric stove it is warmed by contact with strips of fabric interwoven with resistance wires. To distribute advertising matter over a wide stretch of territory from a drifting balloon an inventor has patented an attachment operated by a slow burning fuse.

The government of the Federated Malay states is aiding private experiments in the production of rubber seed oil, a substitute for linseed oil, on a commercial basis. An Ohio inventor's lubricant for automobile springs consists of an oil that penetrates between the leaves and removes rust and dirt, leaving a film of graphite behind. The Roumanian inventor of several devices employing liquid to transmit power impulses has decided that every electrical mechanism has its liquid vibration counterpart.

Steel edged rubber heels, a Massachusetts inventor's idea, are said to assure safe footing on slippery pavements, at the same time being as resilient as all rubber heels. A process has been discovered in South Africa for the production from cotton of an artificial wool said to be a better insulation against heat and cold than the genuine. A new electric lamp for signalling to chauffeurs from inside closed automobiles has a magnetic base so that it can be rotated on a convenient metal part of the front of a car. A mixture of liquid air and powdered aluminum has been invented in Europe for blasting in mines, having more than twice the power of black powder without its dangerous fumes. Siles for repairing worn shoes have been invented that are coated with a waterproof adhesive solution that enables them to be attached by any person without sewing or nailing. English airplane engineers have developed a four cylinder rotary motor to be built into a propeller with four blades, which are metal and are utilized as exhaust expansion chambers.

Experts of the United States department of agriculture have developed a machine that gathers the heads from clover as it is driven over a field so that the seed can be obtained. A light draft boat that a Frenchman has invented consists of two cigar-shaped floats supporting a frame on which a man sits and drives it with pedals geared to an aerial propeller. A patent has been issued for a tubular shield to be attached to a large fork or spoon to protect a user from heat if obliged to stand close to a cooking fire any length of time. A device has been patented by a citizen of Colombia to enable light locomotives to be used as stationary engines without alteration except substituting gear wheels on their front axles.

A Georgia inventor's chair can be used as a rocker, a stationary chair or one that reclines and has attachments that convert it into a desk, a dressing table with mirror and a book case. A shipyard worker is the inventor of a launching device for lifeboats that places them on an even keel 40 feet from the side of a vessel and gives them a forward movement as they enter the water. English engineers after investigation have reported favoring the electrification of South African railroads in the vicinity of Cape Town and Johannesburg and in Transvaal and Natal mining regions.

Improved tones are claimed for a photograph in which the needle is attached to the center of an auxiliary diaphragm at a right angle to the reproducing membrane, to which it transmits its motions through an arm. According to a census taken this year the republic of Austria has a population of 6,067,430, ten cities showing increases in ten years, while Vienna and most of the smaller cities and rural districts have decreased. According to the latest dope on the location of factories, Michigan, of course, leads with 35 motorcar plants, Indiana second with 23, Ohio with 22, New York with 15, Illinois 10, Pennsylvania 10, Missouri 8, Wisconsin 6, New Jersey, Connecticut and Massachusetts 3 each, Kentucky, Oklahoma, Georgia and Virginia 2 each, and South Carolina, Vermont, Texas, California, Alabama, Mississippi, Louisiana, Delaware, Arkansas, Maryland and Kansas each.

Labor is going into business on its own account nowadays along several lines on a co-operative basis. One of the most successful of such undertakings is the Boston Union Cigarmakers' Co-operative. It was incorporated a little over a year ago at \$100,000 by members of the union following a deadlock between manufacturers and workers in a strike, and its shares, all \$50, are held by about 1500 members of the union.

SAFETY FIRST. Grover Cleveland Bergdoll's application for German citizenship may be taken as a certain indication that Germany is not preparing for a new war.—Life.

Club ball, played in England in the fourteenth century, is believed to have been the parent of cricket.

SOCIETY

Informal Afternoon at Mrs. Howard's

Mrs. A. J. Howard of 1425 Sixth avenue north entertained Friday afternoon in honor of her house guest, Mrs. Catherine McNabb of Big Sandy. The afternoon was spent with fancy work and music, after which dainty refreshments were served. The guests were: Mrs. A. B. Dirks, Dr. Mary O'Connell, Mrs. Walter Stumpert, Mrs. A. Burlingame, Mrs. J. W. Robertson, Mrs. S. B. Dawson, Mrs. James Kennedy, Mrs. Ira Hogan, Mrs. Harvey Noble, Mrs. G. Younk, Mrs. Ed Henen, Mrs. J. P. Hammill, Mrs. Frank Shields of Dunlap, Ia., and the guest of honor, Mrs. Catherine McNabb.

Celebrate First Anniversary

Mr. and Mrs. E. J. Yoemans were host and hostess Wednesday evening at the dinner dance at the Meadow Lark country club. The occasion was their first wedding anniversary. Covers were laid for Mr. and Mrs. J. C. Dow, Mrs. N. Bush, Randall Bush and Mr. and Mrs. Yoemans.

Mrs. Fish Honored

Mrs. Fred Fligman was hostess at a luncheon given Friday noon at the Meadow Lark country club in honor of Mrs. J. Fisch of Helena. Covers were laid for 15.

Mrs. Smith Gives Pretty Luncheon

Mrs. La Rue Smith entertained at a very pretty luncheon Thursday noon at the Meadow Lark country club. Larsskpur and snappers formed an centerpiece on the table. Dainty place cards marked the place of each guest. There were 11 guests present.

U. C. T. Ladies Hold Last Meeting

Mrs. Fred Woehner and Mrs. W. T. Scott were hostesses to the U. C. T. ladies Thursday afternoon in the parlor of the Park hotel. There were five tables of bridge in play during the afternoon. The high scores were won by Mrs. W. Heaney and Mrs. J. A. Claudon. Further meetings will not be called until September.

Entertains for Little Guest

Little Keith Didicksen of Lincoln, Mont., was honored Wednesday afternoon when Mrs. Thomas Staunton of 422 Fifth street north entertained for him, the occasion being his sixth birthday. The afternoon was spent in games and other amusements. A color scheme of pink and white was carried out in the birthday refreshments. Fans of colored balloons at the place of each guest were suspended from a chandelier above the table. A large birthday cake with six candles formed the centerpiece. Those invited were: Marjorie Hartman, Frances Hartman, Barbara Karcher, Mary McIsaac, Catherine Quealy, Margaret Quealy, Ruth Smith, Jack Gray, Carlos Kumpke, Donald Larson, Billy Morris, Bobby Morris, Leonard Pfister, Douglas Titus, Mrs. George G. Mill, Mrs. Henry Mill, Mrs. William Morris and Mrs. G. A. Poole.

Dancing Club Gives First Series

The Irresistible Dancing club gave the first of their series of summer dances on Friday evening at the Elks hall. The dance was well attended and judging from the opening dance these dances promise to become one of the chief attractions during the summer. The music was furnished by Pierce's orchestra of 5. The next dance of the series will be given Friday, July 15.

Mr. and Mrs. Steel Return From Trip

Mr. and Mrs. Ernest Steel returned Wednesday from Glacier park where they made their wedding tour. They will reside at 1225 Fourth avenue north.

Picnic at Giant Springs

Twenty-five members of the younger set enjoyed a picnic at Giant Springs Thursday afternoon. The party was chaperoned by Mrs. Al Beckmann and Mrs. James Tullis. Those present

were Miss Eileen Slattery, Miss Marjory Britten, Miss Mary Brown, Miss Vanny Bunnell, Miss Eleanor Brittenstein, Miss Ethel Lemon, Miss Helen Morris, Miss Lydia McDonald, Miss Betty Prentice, Miss Lanelle Nell, Harry White, Gordon Helm, Gordon Lapeyre, John Gerber, Melvin Jenkins, Mynard Tenney, Barrett Collier, Donald Rydell, Corwin Sharpe, Herman Goodman and Dixon Brittenstein.

Motor to Lincoln to Spend Fourth

Mr. and Mrs. Thomas Staunton and little guest, Master Keith Didricksen, motored to Lincoln Friday morning to spend the Fourth.

Miss Mady Leaves for Glacier

Miss Gretchen Moe Mady will leave this (Sunday) morning to spend the Fourth in Glacier park.

Mrs. Yoemans Has Guests

Mrs. N. Bush and her son Randall arrived Saturday from their home in Holland, Mich., to spend the summer with their son-in-law and daughter, Mr. and Mrs. E. J. Yoemans.

Miss Jackson Entertains

Miss Helen Jackson was hostess Friday evening at her home, 914 Second avenue north. The evening was spent with a five hundred, there being four tables in play. The girls head prize was won by Miss Betty Prentice and the boys by Cyril Greely. Clark McLennan was awarded the cut prize. At the close of the evening light refreshments were served. The guests invited were: Miss Gertrude McClure, Miss Marjorie Macrae, Miss Betty Prentice, Misses Mary and Dorothy McCann, Marjorie Stephens, Laverne Weiss, Ruth Strain, Mynard Tenney, Thomas Evans, Myril and Cyril Greely, Clark McLennan, Roy Fitzgerald, Frank Shaw, Alfred Cordrey, Lewis Beers and Laurel Weiss.

Theater Party for Miss Powell

Wednesday afternoon Miss Dorothy Powell of Billings was complimented at a theater party given by Miss Theresa Auerbach. The guests included members of the Kappa Kappa Gamma sorority. Refreshments were served at Hotel Rainbow. Those present were Miss Margaret Johnson, Miss Gertrude Skinner, Miss Dorothy Strain, Miss Jodie Lee Wren, Miss Ruth Jarl, Miss Anne Rector and the guest of honor, Miss Dorothy Powell.

Entertains at Dinner Dance

Mr. and Mrs. Lee Ford entertained informally at the Wednesday evening at Hotel Rainbow. Those present were Dr. and Mrs. Donald K. Woods, Mr. and Mrs. George Stanton, Dr. and Mrs. Gowen Ferguson, William Flowerree Jr., Harry Woods, Robert Ferguson and Ed Nelson.

Entertains for Guest

Mr. and Mrs. Herbert Nathan entertained about 40 members of the younger set Thursday evening in the ballroom of the Blackstone apartments. The affair was given for Miss Marian Black of Berkeley, Cal., who is their niece.

Soviets to Try Out "Aero-Train" July 5

Reval, Sthonia, June 10.—(Correspondence of the Associated Press.)—Newspapers published in Moscow and other soviet Russian cities give much space now to accounts of new inventions said to have been made under auspices of the bolshevik government. Among them are reported vastly improved wireless telephone apparatus and, most recently, an "aerotrains" to run on rails.

The "aero-train," to be tried out on July 5, is the invention of the engineer, Makhonin. Its propulsive power will be propellers, similar to those used on airplanes, to be worked by two internal combustion engines. The front part of the train is to have a tapering shape, to gain greater speed through decreased resistance to the air.

Watch One Corn end in this way—then decide

Learn now the right way to end corns. Apply Blue-jay—the liquid or the plaster—to one corn. Mark how the pain stops. Watch the corn, in a little while, loosen and come out. Stop paring corns—it is dangerous. Put aside the old, harsh treatments. Try this new way at once. Blue-jay is the scientific method. A famous chemist invented it. This great surgical dressing house makes it. Countless people use it. Blue-jay is ending not less than 20 million corns a year. A touch applies it. The action is gentle, the results are sure and final. Fairness to yourself requires that you try it if you ever suffer corns.

End other foot troubles. To keep the feet in proper condition, bathe them with Blue-jay Foot Soap. It checks excessive perspiration, it stops smarting and burning. Then use Blue-jay Foot Relief, a soothing, cooling massage for aching muscles and tendons. A final luxury is Blue-jay Foot Powder, an antiseptic, deodorant powder that keeps feet feeling fine. Each new Blue-jay treatment—Each, 35c; Combination pkg., \$1.00.

SAYS U. S. WOMEN ARE GOSSIPERS

Mrs. Katherine Clemons Gould, who won a separation from Howard Gould, the third son of the late Jay Gould, after a sensational legal fight, in an interview declared that in her opinion American women are the "worst gossipers in the world" and she declared them responsible for the scandals which besmear any woman "who goes to court to secure her rights. Her opinion of American men, Mrs. Gould summed in the statement that "they make the worst husbands in the world."

SLAVS PLAN PROVINCIAL AUTONOMY IN ITALY

Trieste, June 13.—(Correspondence of the Associated Press.)—Though the influx of five Slav deputies and four German ones threaten to make out of the Italian chamber of deputies a babel, the Slavs have come forward to state that they are not going to cause any undue trouble. Interviewed by Il Piccolo of this city, Signor Medvescek, head of the Slav delegation of five, said: "The object of the Slavs will be to encourage an economic, moral and political collaboration. We wish to safeguard the rise of the Slovene nation. We seek to have our language respected, local and provincial autonomy and an increase in Slovene schools."

A FINE DISTINCTION. First Young Thing: Does she pencil her eyebrows? Second Flapper: That's evidently where she draws the line.—Life.

The Home Kitchen

By Jeannette Young Norton Author of "Mrs. Norton's Cook Book"

SOME OF THE SECRETS OF MAKING FROZEN DAINTIES.

An ice cream freezer is a good investment, especially when good ice cream may not be purchased nearby. There are several good and inexpensive freezers on the market, including small vacuum freezers, which, though having no paddle and requiring no turning, make remarkably smooth cream of fine even texture. Perfect cleanliness is a prime requisite of ice cream making. The freezer should be thoroughly dried after using. Particular care should be given to dry the wood where any metal comes in contact with it. The freezer may then be put away in a dry place, wrapped in a bag. A canvas ice bag, a wooden mallet and a pick are needed for the proper preparation of the ice. Old-fashioned frozen custard is often made for little folks, as it is nourishing and wholesome. The French nursery cream is a cupful of sugar and a little of the soft center of a vanilla bean. This cream is simple and excellent for children. There are a number of reliable colorings to be had if they are desired for fancy use. In flavoring a mixture to be frozen it is well to remember that the volatile flavorings "freeze out," so a double portion should be used. Whenever fruits are used they should be thoroughly ripe, washed before hulling 'to retain their sweetness, then melted down in the sugar syrup before being added to the cream. When sugar is added to uncooked mixtures it should be melted, then cooled. This is done by adding a little boiling water to the sugar.

Frozen Peaches.

Pare, stone and cut up peaches of ripe, mellow flavor, enough to equal one quart. Add a pint of sugar and heat in a saucepan until the fruit is melted, but not boiled to pieces. Cool slightly, then add pint of cream and the stiffly beaten whites of two eggs, beaten with ten teaspoonsful of powdered sugar. Freeze and let stand an hour.

Frozen Cranberries.

Take a quart of cranberries and cover with a pint of water. Cook until soft enough to strain. Strain and add half cupful of sugar to each cupful of juice. Reheat, and when melted add a teaspoonful of powdered gelatine which has been dissolved in a little hot water, and freeze. This cream is excellent to "break" a heavy dinner. It should be served right after the roast, before the entrée or salad.

Frozen Cream Cheese.

This frozen cheese dish is often used for a luncheon dessert in hot weather. Take two packages of full cream cheese or one and one-half cupfuls of well-drained home-made cottage cheese. Work the cheese to a paste by slowly adding a pint of heavy cream, and one-half a cupful of sugar, the stiffly-beaten white of an egg, a small cupful of candied pineapple, cherries, angelica and seeded raisins chopped, and the crumbs of four stale macaroons. Freeze as usual. When frozen, but not too hard, repack in a square mould and bury in salt and ice until needed. Serve cut in slices or blocks.

Mint Frappe.

Chop fine one cupful of fresh mint leaves. Add the juice of two lemons and let stand. Melt two cupfuls of sugar in two cupfuls of water, boil it five minutes, then pour over the mint and let stand until cold. When cold, strain, color a delicate green, add a teaspoonful of peppermint flavoring, and freeze to a firm, but not too consistency. Serve in tall glasses capped with whipped cream, and a green candied cherry on top of each glass. This is wonderfully refreshing to serve at an afternoon tea.

TRY THIS.

"I hear that Mrs. Bland calls her cook a chef. How absurd!" "Oh, I don't know! Perhaps that's how she gets hers to stay."—Boston Transcript.

FRESH CUT FLOWERS. ELECTRIC CITY CONSERVATORY.

The Removal Sale

Renews July 5th to 9th. BUT five days remain of the Removal Sale, which will renew Tuesday, with vigor, the brisk selling of the opening days. Stern reductions of from twenty-five to thirty-three and a third percent have been provided for this important sale; on the choice stocks of women's and misses' apparel. Handsome economies may be affected by milady in her purchases for the summer wardrobe. The store will remain closed all day tomorrow in observance of Independence Day—July Fourth. Tuesday morning's Tribune will have a message of importance regarding the Removal Sale.

Learn now the right way to end corns. Apply Blue-jay—the liquid or the plaster—to one corn. Mark how the pain stops. Watch the corn, in a little while, loosen and come out. Stop paring corns—it is dangerous. Put aside the old, harsh treatments. Try this new way at once. Blue-jay is the scientific method. A famous chemist invented it. This great surgical dressing house makes it. Countless people use it. Blue-jay is ending not less than 20 million corns a year. A touch applies it. The action is gentle, the results are sure and final. Fairness to yourself requires that you try it if you ever suffer corns.

End other foot troubles. To keep the feet in proper condition, bathe them with Blue-jay Foot Soap. It checks excessive perspiration, it stops smarting and burning. Then use Blue-jay Foot Relief, a soothing, cooling massage for aching muscles and tendons. A final luxury is Blue-jay Foot Powder, an antiseptic, deodorant powder that keeps feet feeling fine. Each new Blue-jay treatment—Each, 35c; Combination pkg., \$1.00.
