

PRICE OF WOOL IS MYSTERY TO SHEEP GROWER

Costs 40 Cents a Pound Under Present Conditions, Says Robert Cameron.

Although the majority of wool growers in Montana have either sold their wool or made other provisions for its disposition, there is one buyer who refuses to permit his wool to go at the present price and after holding his wool for a year has decided to do the same thing again this year or until the price advances to a point that in his mind warrants its disposition.

Robert Cameron, 1200 First avenue north, pioneer wool raiser, who has 7500 sheep within a short distance from Great Falls, feels that the present market is an injustice to the wool raiser and is loathe to permit them to garner the benefits from his efforts.

Cost is 40 Cents a Pound. "It costs 40 cents a pound to raise wool," said Mr. Cameron. "That takes into consideration taxes and the cost of range and the price of help."

Another thing that I'd like to have explained is the statement of the bureau of markets of the department of agriculture for the week ended July 9, which shows that wool can be bought in New Zealand freight paid on its duty paid on it, and it can be landed in this country for 15 cents a pound.

That is a mystery to me. If New Zealand wool can be brought into this country at 15 cents a pound, why are the Boston buyers' representatives here admitting that they are paying 18 cents a pound, and actually paying as high as 20 cents a pound?

Buyer Explains Bulletin. An explanation of the government report which was given by Mr. Cameron on Friday night by John Hutchins, buyer for Farnsworth & Stevenson of Boston, Mr. Hutchins has done a great deal of foreign buying for the Boston company and in his opinion there is but one explanation of the report.

It is impossible, said Mr. Hutchins, that the wool in question is any other than carpet wool or Mohair. The bulk of the wool reported on in the report is from the British East Indies and it is safe to say that it is carpet wool which can be bought at a very low price.

Charges Partner Kept All Profits. Mike Farace Sues for Division of Gain in Coal Mining Enterprise.

Charging his partner, John Suden, with failure to divide the profits of a coal mining enterprise near Sand Coulee and using the funds to further personal interests, Mike Farace Friday filed an action in district court asking for the dissolution of the partnership.

Farace also asks for an accounting of the business and for the appointment of a receiver whose duty it will be to sell the property and adjust the financial differences between the two.

Farace and Suden entered into oral partnership March 15, 1921.

Clinic Held at Belt. Dr. F. T. Fourn, public health officer, and Miss Nella M. Woods, Red Cross nurse, conducted an all-day clinic at Belt Friday for school and pre-school age children.

Low Grade Material. "It seems impossible that anything but the low grade material could be shipped at a price of 15 cents and it is certain that it is not a high grade material."

The emergency tariff levied in April is next to prohibitory. It would mean that the fine wool would be bought at a price of 30 cents or better and with the tariff in effect it would be double that amount, not including the freightage.

The approximate clip for Montana this year, according to Mr. Hutchins, was about 12,000,000 pounds. The choice quantity of this sold for about 20 cents and the poorer grade for prices ranging from 15 to 18 cents.

Not all the wool in the state has been sold or will be sold in the near future, the wool buyer stated. That which has not been sold has been contracted for at least regarding its removal.

A large quantity of it, he stated, has been placed in Chicago warehouses. On this material, he further stated, the producers have received an advance of 10 cents a pound to be sold at a later date when the difference will be paid them.

The majority of wool buyers are of the opinion that the most of the stories given out regarding the wool situation are a trifle more optimistic than they should be, although they are satisfied that there is a bright side to the question.

Reports from the east lead them to believe that the demand for wool has improved slightly during the past week. This, they stated, may be in anticipation of a lightweight season. Trading has been chiefly in finer grades.

The reports indicate a good lightweight season is in prospect for the mills. It is the general opinion that the senate will amend the wool tariff schedule within a reasonable time.

Boy Loses Eye by Dynamite Cap. Neihart Lad Puts Explosive on Rock and Pounds It With Hammer.

Walterid Latzala, 6-year-old son of John Latzala of Neihart, who was rushed to the Deaconess hospital here Thursday evening, as the result of injuries sustained when a dynamite cap which he was hitting with a hammer, exploded, is reported resting quietly by doctors who have his case in charge, and will be able to return to his home in about a week.

The index finger of his right hand was blown off and both hands badly lacerated. His face was scratched and punctured in places but these were only minor wounds.

Walterid was playing near a mine in which his father was trying to explode the cap. Finally he placed it on a rock and pounded it with a hammer.

PLAN WELCOME TO ALIENS WHO PASS U. S. TEST

Americanization Society to Give Program After Citizenship Exams.

Eighty-four Great Falls aliens, representing 16 nationalities, will appear before a mock trial court Tuesday evening at the Y. M. C. A. in preparation for the final citizenship examination. A reception will be given for those who pass the final examination in the auditorium of the junior high school Wednesday evening at 8 o'clock.

Examinations on Wednesday. The final examination will be given Wednesday at the court house and 84 aliens have turned in their applications for admission to citizenship. The oath of citizenship will be given and the certificates conferred by an officer of the district court.

It is our aim, stated Scott Leavitt, chairman of the Americanization society, "to extend a welcome to the aliens who will be admitted to citizenship the meaning of such a step. It is more than a courtesy affair in their lives and we are anxious that a large number of Great Falls people turn out to welcome them into this, the greatest country on the face of the globe."

Reception in Evening. A program has been arranged for the reception of the successful candidates and it will be presented in the auditorium of the junior high school. An address of welcome will be given by Mayor R. M. Armour.

Several musical numbers have been placed on the program and included in the selection are solo by Alex Campbell and Mrs. J. A. Claudon. The community orchestra of 18 pieces, under the direction of Dr. W. A. Hultberg, will also render several selections.
