

CITY MAY FORBID PARKING AUTOS IN BUSINESS STREETS

Move to Prevent Congestion and Accidents in Downtown District to Come Up Next Week on Report of Welfare Committee.

Removal of parking privileges on Central avenue, First avenue south and First avenue north and all streets passing through the business district, was urged Monday night at the meeting of the city council after a bill for damages from Dr. A. L. Gleason, who claimed his automobile had been damaged by a passing street sprinkler, had been received. Several of the aldermen believed that automobile owners should be barred from using the busy streets as parking space as a means of relieving the congested conditions now found on the principal streets and avenues.

Taxicabs Present Problem.
Alderman R. R. Johnson made the suggestion that the above named streets be closed to further parking and he also requested the public welfare committee, into whose hands the suggestion was placed for a report at the next meeting, to bring in recommendations that all lunch wagons, popcorn stands and news stands be barred from maintaining their present locations. The question of excluding taxi drivers from using Central avenue as stations for their machines was brought to the fore by Alderman Harry R. Stevens in connection with Alderman Johnson's suggestion. Several aldermen cited numerous instances to show the danger of accidents on crowded streets.

Dr. Gleason's car was parked on Fourth street near the Conrad bank, when a street sprinkler rained it and it was pointed out that the narrowness of that street, further congested by the street car tracks, made accidents of this nature likely. Dr. Gleason's bill of \$21 was referred to the judiciary committee and the city attorney.

To Improve Paving on Central.
The question of improving the paving of Central avenue until such a time when funds would be available for resurfacing the entire stretch, was brought to the attention of the council by Alderman Gilbert T. Boyd, who said

LUNG MOTOR SHOWN FOR CITY FIREMEN

Manufacturer Gives Demonstration of Apparatus Owned by Fire Department.

Firemen at the Central station Monday witnessed a demonstration of the lungmotor, given by P. C. Dudley, vice president of the Lungmotor Co. of Boston, Mass. Mr. Dudley explained the principles involved in the lungmotor mechanism, showing how nearly it approached the workings of the respiratory system of the body. Experiments shown by Mr. Dudley brought out that it is impossible to injure a person's lungs by the use of a lungmotor.

Following the demonstration, Fire Chief Trodick stated that the department has been very successful in its use of the lungmotor. The first lungmotor was purchased by the fire department in 1917 and since that time it has been called into service 41 times. Chief Trodick said that resuscitation was achieved in 75 per cent of these cases.

The use of the lungmotor, according to Chief Trodick, has been mainly with cases of pneumonia, drowning, influenza, gas inhalation, collapse on operating tables and electric shocks. Success was attained in virtually all of these calls, with the exception of the influenza cases. Not a single influenza patient was saved, although the lungmotor prolonged life as long as 72 hours after physicians had given the person up as dead.

Rancher of Conrad Sued for Divorce on Assault Charge

Alleging that her husband brutally assaulted her on two occasions and on August 14, threatened to take her life, Lila Payne Monday instituted action for divorce against J. W. Payne, prominent Conrad rancher and business man. It is alleged in the complaint that Payne choked and kicked his wife on May 7 and August 12. Mrs. Payne also charges that her husband falsely accused her of unchastity.

Mrs. Payne asks the court to grant her \$75 monthly alimony during the pendency of the action, \$2500 permanent alimony, either in cash or division of property and attorney fee. On the application of counsel for Mrs. Payne, Judge J. B. Leslie Monday issued an order restraining Payne from selling property, which is estimated to be worth \$10,000.

The property mentioned in the complaint, lists a cabin in Conrad, ranch property, an automobile, livestock and money in the Farmers State Bank of Conrad, the amount of which Mrs. Payne was not advised. They were married in Jonesboro, Ill., on November 7, 1905.

"Go Home to Dad" He Told Wife, Says Divorce Complaint

Charging that she was compelled to leave her home near Big Sandy because her husband failed to provide the necessities of life for her and two children, Mary Stachlowsky Monday filed an action for divorce against Joseph Stachlowsky. Mrs. Stachlowsky alleges that when she suggested to her husband that procure food he became enraged and told her to "take the kids and go to your dad, he can feed you", which she did.

It is alleged that Stachlowsky, during the time he worked for a neighbor, ate his meals at the place where he was hired and that he had no concern as to whether his wife and children were provided with food. The wife charges him with having called her vile names in the presence of others and having published false charges against her chastity. She asks for an absolute decree, \$50 monthly alimony, custody of the children and the costs of the suit. They were married in Brinkman, Mont., on November 24, 1914.

that several large Central avenue property owners had complained to high regarding the condition of the street. City Engineer M. L. Morris was instructed to make an investigation of the avenue and will submit his opinion as to the best means of improving it to the council at the next meeting. Alderman Boyd also urged the boulevard committee to give attention to the problem of dandelion eradication, which he thought was attaining the seriousness of several months ago.

Boulevard Costs are Talked.
The reading of three resolutions, for the first time, providing for the levying of assessments on all real estate in boulevard maintenance districts Nos. 1, 2 and 3 aroused considerable discussion when it was found that the cost per lot in District No. 2 was considerably in excess of that in District No. 1. Alderman Leonard Joyce asked for an explanation of the difference and he was told that the higher assessment on the south side was due primarily to the fact that several of the boulevards have been lowered this summer and that part of the expenses of last year are charged to this season's account.

Figures supplied by Charles E. Landgren, foreman of the boulevard department, showed the actual cost of maintenance per lot in District 1, since May 1, to be \$44 in District 2, \$4.95, and in District 3, \$5.25. The total cost of boulevard maintenance, as shown in the resolutions, is \$21,634 in District 1, or \$24 for corner lots and \$6 for inside lots; \$16,000 in District 2, or \$26.64 for corner lots and \$8.88 for inside lots; \$1,451.47 for District 3, at the rate of \$5.35 per 50-foot frontage. When the assessments are mailed to each property owner, a note of explanation, itemizing the expense, will be included, according to a statement by Mayor R. M. Armour.

Chlorine is Bought.
Barada, Gordon & Page, Inc., was awarded the contract for the furnishing of liquid chlorine to meet the requirements of the city filtration plant for the year beginning September 1. The Hunkins-Wills Lint and Cement Co. was awarded the contract for supplying hydrated lime, and the American Steel and Wire Co. was given the contract for furnishing sugar sulphate of iron. The contracts were let on the recommendations of the water committee.

City Clerk W. H. Harrison submitted his report of receipts and expenditures for the quarter ending July 31. The total receipts, according to the report, is \$107,304.70, and the total disbursements, \$249,218.16. The cash on hand at the beginning of the year was \$277,163.95 and the treasurer's balance on July 31, 1921, was \$216,144.38. Expenditures for protection of life and property was responsible for a big share of the outlay, amounting to \$25,792. Cash disbursements amounted to \$13,724. Cost of operating commercial properties, the report shows, amounted to \$17,595.69.

Bids to be Asked.
Specifications for furnishing coal to the city during the fiscal year commencing September 15, 1921, prepared by City Engineer M. L. Morris, were approved by the council. Bids will be opened September 4. The council accepted the bid of the F. E. Evans Contracting Co. for the furnishing of a second hand road scarifier at a cost of \$400. This equipment is now being used by the city.

A report of the public improvement committee, recommending the construction of curbing on both sides of Seventh street from Fourth alley south to Tenth alley, was adopted. The petition of E. A. Sutherland for permission to operate a small dairy at 2200 Third avenue south was referred to the city improvement committee.

Trodick May Go To Vancouver.
Decision as to whether Fire Chief A. J. Trodick should be sent to the twenty-eighth annual convention of the Pacific Coast Association of Fire Chiefs, which will be held in Vancouver, B. C., September 27-28-29 and 30, was placed in the hands of the fire committee. Bonds for \$500 of the Tribune as surety for the faithful execution of the contract for official city printing, was approved. A bond from the Two Miracle Concrete Co. in the sum of \$29,000, covering the Third avenue south paving contract, was also approved.

On motion of Alderman Johnson, it was decided to hold the next council meeting on September 6, the regular meeting date falling on Labor day. All city offices will be closed on September 5. As the final act of business, the council granted a 20-day leave of absence to Alderman Boyd, who expects to make a trip east.

Go to the GRAND tonight and see a good Pan Show! Six big acts. Two shows, 7:30 and 9:15. Seat sale noon today. Phone 4237.—Adv.

The Paris

After September 1st The Paris Will Observe the 6 O'clock Closing Hour.

Use Our Perpetual Mail Order Service. It Is Most Satisfactory.

The First Modes of Fall

Miles of boxes and tissue wrappings in our receiving room—hundreds of new dresses, new suits, new wraps and coats on our floors. With each new arrival it becomes increasingly evident that here the fall season has opened.

The Fall Suit Is Prominent in Our New Autumn Exhibition

—Are skirts shorter or is that merely a rumor? Do coats differ radically from the styles of the past season? The styles are very interesting. Have you seen them?
—We must tell you that they are structures of beauty and originality. They, too, are treated to various forms of trimming. The materials are Downy Veldyne, Moussyne, Panvelaine, Duvet de Laine and Evora.

\$29.50, \$39.50, \$45.00 to \$125.00

New Wraps for Autumn Days for Added Warmth and Smartness

—All the rich Fall Fabrics are represented in this new showing of wraps and coats. Whether you prefer the slim, wrappy coat, or the generous flare, you will find your wrap here.
—There are smart, fur-trimmed coats, slightly fitted in and flared.
—Collars of mole, raccoon, opossum or fox fur is "grandeur supreme," created from Panvelaine, Velora, Moussyne and Marvella.

\$29.50, \$35.00, \$45.00 to \$125.00

Autumn Frocks Win by Their Charm and Our Showing Reveals New Modes

—Fall colors may be less gay, but they are richer for their sober magnificence. It is a revelation to look over the new Autumn frocks in our collection. The outstanding attractiveness of the new dresses are the elaboration of trimming which turns strongly to beads and hand stitchery.
—The favored fabrics are Canton Crepe, Dull Crepe and Roshanara Crepe.

\$19.50, \$29.50, \$35.00 to \$97.50

The Separate Skirt Scores

—As the season swings on, milady dons her trim sports skirt for morning wear. This group provides much variety of color, cut and fabric. And it goes without contradiction that the rich autumn plaids blend perfectly with nature's setting. We are showing many new conceptions—

\$9.75, \$12.50, to \$24.50

Rich Costume Blouses

—It may be of sheer georgette in any of the good suit shades, with a gorgeous trimming note. Or it may be an over-blouse of heavy silk, whichever you prefer. At any rate, you will be interested in our goodly showing at this early stage of the season.

\$5.95, \$9.75, to \$19.50

Jersey Sport Jackets

—Are expressed in models of the tuxedo style with embroidered long lapels. These sports coats are truly a garment of service, because one may wear them with any kind of skirt which makes a good business or sports suit. Colors gray, open, rose, taupe. Special

\$6.75

Our Corset Service

That Adds to the Perfect Satisfaction of Your Corset Buying

COMPLETE corset stocks from which our customers can select the correct model for the requirements of their individual figure types makes the service of our Corset Department ideal from every standpoint. —To maintain stocks of the size necessary to provide this high type of service requires a larger investment in corset merchandise than most stores care to make in these times.

—With us the question is not a matter of the amount invested, but rather the satisfaction of our patrons. By not obliging our corsetieres to make "compromise" fittings we can insure greater satisfaction and a constantly increasing clientele for this store.
—The knowledge that we have at all times the exact model in the correct size that will best serve your particular figure requirements; that its style is in keeping with the very latest tendencies; that it will be fitted by an expert, are simply a few reasons why you will find in the service of our corset department that additional satisfaction which makes your corset buying more pleasurable.
