### Shingle Manufacturers Prepare to Fight Lower Import Rates on Product

Delegation of Lumber Men Appears Before Financial Committee to Protest any Reduction in Present Tax.

Washington, Aug. 29.—Reports among northwestern lumber men that an attempt would be made to overturn the import duty of 50 cents a thousand on shingles, carried by the Fordney tariff bill, brought a delegation of shingle manufacturers before the committee Monday in defense of the subject. Representative Johnson, Republican, Washington, headed the delegation, and announced that if there was to be fight "we want to be counted in" in support of the duty.

George A. Bergstrom of Everett and E. E. Case of Raymond, Washington, were heard in behalf of the rate which they said measured the difference between operation or closing of their plants.

Each of the witnesses maintained that a higher duty than 50 cents actually was necessary, but expressed satisfaction with the rate as provided in the Fordney bill. They contended that Canadian shingle makers were driving plants out of business on this side of the line because of cheaper Canadian production costs.

The committee also heard a protest against the proposed duty of one cent a pound on cattle under two years, by A. M. Happer of El Paso, who spoke for the American association of Mexico. That border cattlemen be allowed the privilege of getting young stock wherever it was available and to enjoy the right of obtaining grazing land on either side of the Rio Grande when conditions necessitated was Mr. Happer's plea.

### German Political Situation Has Assumed Grave Aspect Since Erzberger Murder

Berlin, Aug. 29.—(By The Associated Press.)—After a meeting of the German cabinet Monday, President Ebert issued a decree prohibiting meetings, processions, demonstrations and the publication of periodicals and pamphlets to encourage seditious movements.

Political conditions in Germany, which, during the past few days have assumed a grave aspect, were also considered by the cabinet. President Ebert presided over the session, which was called on Saturday in such a way as to show that the ministry was concerned over the situation. The assassination of Mathias Erzberger, last Friday, has appeared to have set a match to the piled up combustibles, which have been smouldering for some time, and the cabinet is believed to find itself in a serious predicament.

One of the features of the situation which is troubling the government is the attitude of labor, in demanding the definite suppression of the activities and machinations of the pan-Germans.

Ratification of the treaty, however, is believed to be certain in the Reichstag through the votes of three coalition parties and the independent socialist, which command 277 out of the 469 votes in the Reichstag.

### RUINED AIDEN WAR MEMORIAL OF EAST TROUBLE

City Is Literally Vast Sepulchre of Dead as Result of 1919 Revolt.

Mute Evidence Still Remains to Tell People of Turkish Outrages.

Aidin Asia Minor, Aug. 10.—(By the Associated Press.)—One of the saddest and most tragic of war memorials in the Far East is the ruined city of Aidin, sixty miles southeast of Smyrna, in the great fig growing district of Asia. It is literally a vast sepulchre of the dead. Here hundreds of innocent Greek and Armenian women, children and priests lie in nameless graves—victims of massacre by the Turks in the summer of 1919.

The broken columns of a thousand shattered homes are the mute witnesses of the martyrdom of the population. Although two years have passed since they were sacrificed, no tombstone, no cross or wreath marks the place they fell. Many of the victims were burned to death. Their whitening bones form a part of the crumbling masonry and earth. The silence of the place is oppressive.

In the little church of the metropolis there is still to be seen on the floor grim reminders of the unfortunate priests who were killed and incinerated before the altar.

A few among the more hopeful and courageous of the population have returned to the city and are living in the ruins of their former homes.

Through the dark and debris-strewn alleys, sombre women and girls in mourning move like spectres. Their faces tell a story of poignant suffering and anguish. Some of them have lost their reason.
