GREAT FALLS TEAM IGNORED BY HELENA TOURNAMENT MANAGERS

Have, Chinook, and Other Montana Nines Not Considered for Championship.

Plans for the participation of the Great Falls Independents in the baseball tournament which is scheduled to take place in Helena before the middle of September have apparently fallen through and no Great Falls team will be entered in what is termed as a tournament to settle the claim to the baseball championship of Montana.

Manager Sam Newman of the Independents has written several letters to the men promoting the tournament but has failed to receive a satisfactory reply and is taking it for granted that silence on the part of the promoters means that the Independents are not considered for participation in the tournament.

With Helena, Sand Coulee and some of the other teams of the state entered in the tournament the Independents would stand a good chance of finishing in first place. But the question of the championship of Montana will not be settled by the tournament at Helena. Have has one of the strongest clubs in the state and defeated the Independents with Bob Ingersoll on the mound. But the Chinook club claims victories over Bob Ingersoll and his Have Bear cats. Chinook appears to have the strongest claim to the baseball championship of the state with Have and the Independents next in line.

Hurled Beer Glass Hits Ferguson's Eye; Iver Evans Arrested

Iver EVANS, 33, a cigar maker, is in the county jail charged with hurling a beer glass which struck Neil Ferguson in the right eye. The glass so severely lacerated the optic that physicians fear that sight will be lost. Ferguson is confined at Columbus hospital. Evans was arrested Tuesday morning by Officer Ernest Goings and was taken immediately to the county jail.

According to police accounts, the two men engaged in an argument in the St. Paul poolhall early Monday night which culminated in the fight. Evans, it is alleged, reached for a glass and before Ferguson could throw up his hands for protection, received the mug full in the face. The glass made a deep cut in the right eye ball, it was reported at the hospital. Ferguson was found at the Salvation Army hall several hours after the fracas.

CASH VALUE OF WILD GAME KILLED IN U. S. ANNUALLY IS \$100,000,000

By R. P. HOLLAND Editor American Game Bulletin. Has game a cash value to a community? Is it an asset. Is it worth anything aside from furnishing health to the community in the recreation and exercise gained by its pursuit? More than \$100,000,000 in game is taken in the United States yearly.

The board of game commissioners of Pennsylvania have prepared the following table showing the amount of game animals and birds killed in that state last year. The game warden in Pennsylvania returned a report to the commission, showing the amount of game they killed last season. Taking the reports received from the 8 per cent, together with the number of licenses issued, the figures for the total amount of game killed were obtained.

Table with 2 columns: Birds and Animals, Estimated Kill. Includes Deer, legal bucks, Wild turkeys, Rabbits, Snowshoe rabbits, Squirrels, Raccoons, Ruffed grouse, Ring-necked pheasants, Quail, Wild ducks, Blackbirds, Reed birds, Yellowlegs, snipe, rail plover.

This shows 7,427,280 pieces of game killed, or 13,785,410 pounds of choice meat, using a conservative weight for each piece of game. Figuring this meat at 40 cents per pound, gives \$5,514,164 as the cash dividend returned last year from Pennsylvania's game.

Below is a letter received from John M. Phillips, game commissioner of Pennsylvania, which gives figures of interest to every man, whether he be a sportsman or not: "Enclosed please find a clipping covering the kill of game and the amount of money returned on rabbits in the season of 1920, as compiled by the Pennsylvania game commission. I have gone over this statement and it is correct, based upon reports returned by 8 per cent of the licensed hunters. If anything, I think, it is below the actual kill, as many returns were made from gentlemen who did not hunt at all and from others who killed a bear or a deer and were proud of their trophies—the latter would naturally pay little attention to small game. I am positive that the return on rabbits is below the actual kill, as we did not take into account those trapped by boys under 14 on the farms on which they reside.
