The books of the Montana veterans' welfare commission will be closed indefinitely, according to Charles Davidson, Great Falls city attorney and member of that body, unless funds are secured in some way for the continuance of the work of the office.

Mr. Davidson returned from Helena Sunday night after conferring with the other members of the commission, the officials of the Helena post of the American Legion and Governor Joseph Dixon relative to the charge made in the Helena post that the funds of the commission had not been properly handled.

Charles E. Pew of Helena, chairman of the commission, announced before Mr. Davidson left Helena, it was stated, that he would arrange the affairs of the commission's office preparatory to closing it if the necessary funds were not available.

Frank Walker of Butte, Mr. Davidson and Chairman Pew, the members of the commission, conferred with Governor Dixon at Great Falls for a week's visit in the interest of the work of her organization.

Mr. and Mrs. N. C. Nelson, Jr., who were married in this city last Saturday by the Rev. Alexander G. Bennett, left Monday afternoon for Lewistown, where they will make their home before her marriage Mrs. Nelson was Miss Grace Bowles, of Lewistown.

The members of the commission asked Governor Dixon, according to Mr. Davidson, to appoint a committee to make an investigation of the affairs of the commission and to investigate the committee which will be appointed by the state executive board of the legion within the next few days. The governor did not say what course he would pursue.

According to a report made at the meeting of the commission, it was shown, according to Mr. Davidson that approximately \$185,000 has been expended by the commission and \$180,000 of this amount has been passed by the state auditors. The funds of the commission are exhausted and the commission members asked for the issuance of more bonds, but this request was refused by the governor, because the veterans' bonds are five per cent bonds and the low interest on them would not make them as saleable as other bonds on the market at the present time.

First Appropriation \$200,000. The first appropriation to the commission was made at the 1919 legislature and amounted to \$200,000. He stated that in 1921 a full report of the activities of the commission was made both to the commission and outgoing governor and that Mr. Pew appeared at that time and explained the workings of the commission and an additional appropriation of \$50,000 was given the commission by the legislature. The full appropriation voted has not been used, according to Mr. Davidson. In addition to the appropriations made, bonds placed for private sale brought in approximately \$140,000.

National Museum of Soviet Russia in Danger of Collapse. Yahnaka, Polyana, Russia, Nov. 21.—The home of the late Count Leo Tolstoy, which is classed by the soviet government as a national museum is in danger of collapse. Although the government is running free weekly pilgrimages to the house, no money has been spent in its upkeep and the Tolstoy family plans to start a world-wide restoration fund of \$100,000.

The family also proposes to fund a Tolstoyan university obtaining funds through publication of a memorial edition of eight volumes of Tolstoy's works the first of which are now being prepared by his daughter, Alexandra.

There was triumph in the young officer's voice, and I realized that while he might agree with Smith that appearances were against us, he was not apt to adopt the implacable prejudice which the tall man of mystery was palpably cherishing. I have seen Smith's type in action many times—let a man of that sort get an idea or a prejudice into his mind and he is as tenacious of it as a bulldog in its grip.

He appears to count it a virtue never to change his mind or to be affected by argument. Smith replied, and then he saw me for the first time. Taking advantage of his conversation with the young officer I had moved swiftly and noiselessly to a spot within a foot of him.

He gave a start as he saw me, a very slight movement, it is true, but unmistakably a start, drew his heavy eyebrows together in a portentous frown as he followed the young officer to the table where Dr. Moss was bending over the trooper. The room was suddenly and abnormally quiet. Everything that it was under the spell of medical authority.

Dr. Moss Decides. The face of the physician was, of course, unreadable, but I gathered something of the exigency of the moment from his haste with which he bared the young trooper's arm, bathed it with an antiseptic solution, and gave him a hypodermic. There was not a sound save tense, hurried breathing in the room as the physician waited with his hand upon the pulse of the youth, his eyes upon the pallid face, for the result.

"Just in time," he commented at last, stepping back. "But he must be removed to a hospital at once."

I think mine were the only eyes in the room that were not watching the physician's. The same subconscious realization against the man named Smith, which I had felt from the moment I saw him, now kept my eyes fixed upon his face. And I wondered if my imagination were playing tricks with me—I fancied that in his face alone of all the room there was not relief at the physician's announcement that he had been in time, that instead, disappoint-

Mrs. A. C. Fleming, of Helena, who has been in Great Falls for the past three weeks as the guest of her brother and sister-in-law, Mr. and Mrs. W. R. Pope of 113 Twenty-sixth street north, left Monday afternoon for her home in Helena.

Mrs. Sara E. Morse of Helena, executive secretary of the Montana Association for the Study and Prevention of Tuberculosis, arrived in Great Falls Monday and will attend the meeting here this week of the Montana State Teachers' association.

Miss Henrietta Lund of Chicago, supervisor of civilian relief work by the American Red Cross, working out of Chicago, the headquarters of the Central division, has arrived in Great Falls for a week's visit in the interest of the work of her organization.

Mr. and Mrs. N. C. Nelson, Jr., who were married in this city last Saturday by the Rev. Alexander G. Bennett, left Monday afternoon for Lewistown, where they will make their home before her marriage Mrs. Nelson was Miss Grace Bowles, of Lewistown.

**University Women Entertain Teachers at Afternoon Tea**

Visiting teachers of the city who are university graduates were entertained Monday afternoon by 50 members of the American Association of University Women at an informal tea held at the Congregational church, between the hours of 4 and 5 o'clock.

In the receiving line were the four club officers, Miss Wenona Frear, president; Miss Jeanne Buckmaster, secretary, and Mrs. Guy Miller, treasurer. Mrs. Fere V. Loper, Mrs. L. J. Totten, Mrs. L. G. Cook and Mrs. Douglas Wilson poured during the afternoon.

A musical program was provided by six high school students. Miss Dorothy Marks contributed several vocal solos. The remaining numbers were piano solos by Miss Wilda Faunce, Miss Merle Stenson, Miss Mildred Kufus, Miss Dorothy Norton and Miss Lucille Reitor.

**Fisher Not Coming to Ask Teachers for "Vindication" Action**

Arthur Fisher, professor of law at the state university, Missoula, whose "leave of absence with pay" from that institution has attracted considerable attention throughout the state, is not in at the present Montana State Teachers' association convention and so far as his friends know, he will not be here. It is said by these same friends that his case will not be presented to the convention by them and they quote Mr. Fisher as saying that he is not looking for "vindication" from the association.

Charges against Mr. Fisher's loyalty to his country at a time when it was at war were presented by the American Legion to the state board of education last summer. A division of sentiment in that body resulted and a compromise vote gave Mr. Fisher a year's "leave of absence with pay."

Mr. Tyler said there has been a marked slump in naturalization over the entire country during the past year. Several reasons are responsible for the drop, he said, the chief of which is the fact that over 128,000 aliens were naturalized while in the service. These men, Mr. Tyler asserted, under normal conditions, would be petitioning for their final papers at this time. He also said that practically all of the foreign-born settlers in the country have been naturalized and that there has been a noticeable decrease in the number of alien arrivals, both of which have had an effect on naturalization hearings.

Sixty applicants for citizenship will be examined Wednesday open their knowledge of the principles of American government by District Judge H. E. Ewing and G. W. Tyler, naturalization examiner from Seattle, who arrived in Great Falls Monday morning. Mr. Tyler came from Malta where he assisted in the examination of a class of 65 aliens and he will spend today (Tuesday) at Fort Benton, where the applications of 30 aliens will be considered.

Mr. Tyler said Monday that the simplified process of becoming a citizen created for the benefit of aliens who served this country during the world war, would be in effect during the naturalization hearing Wednesday.

Because the naturalization department has discovered that many aliens entered military service after the war had unofficially ended, for the sole purpose of taking advantage of the soldier ruling, only those service men who actually served the country during the period of the conflict will be admitted to citizenship on the presentation of an honorable discharge supplemented by proper identification from two witnesses. Other ex-service men who served after the conclusion of the war, must not only present an honorable discharge, but a declaration of intention and a certificate of arrival. This class of petitioners is relieved of only the requirements of five years' residence in the country and the one year residence in the state.

Virtually all of the Wednesday class of applicants are aliens who have gone through the usual procedure in attaining citizenship, according to Mr. Tyler.
