

FOCH SMOKES PIPE OF PEACE WITH INDIAN CHIEF

WOMEN'S FIRST MAJOR DEMAND OF CONGRESS IS GRANTED BY MATERNITY BILL

SOUX TRIBE IN WAR PAINT TO GREET 'CHIEF'

French Marshal Dubbed 'Charging Thunder' at Adoption by Natives.

Conversation Carried on in Three Different Tongues; War Dance.

Bismarck, N. D., Nov. 27.—Marshal Ferdinand Foch smoked the pipe of peace here Sunday with Chief Red Tomahawk, cementing former friendship of the Dakota Sioux Indians and the French nation. The presentation of the pipe of peace was part of a tumultuous reception given the French soldier here by thousands of people who came from many towns in western North Dakota.

The dialogue of Marshal Foch and Chief Red Tomahawk, the Indian who killed Sitting Bull, after the latter had led the rebellious Sioux into the massacre of General Custers' forces, was conducted in three languages. An interpreter repeated the substance of Chief Red Tomahawk's remarks in English, while an aide repeated them in French to Marshal Foch.

Smokes Pipe of Peace

Marshal Foch clasped hands warmly with Red Tomahawk as the latter uttered the words, "My friend." The pipe of peace, made of a long ash stem and a stone bowl to denote the strong character of the friendship pledge, was first smoked by Chief Tomahawk and

then puffed by Marshal Foch, as the latter beamed a smile on the Indian chief.

Chief Tomahawk then conferred on Marshal Foch as a signal honor from the Indians, the name "Watapech Wak-yah," or "Charging Thunder." A score of Indians in war paint and full tribal dress chanted a song composed especially in the marshal's honor while the ceremony was taking place.

To Chief Tomahawk's statement that "I realize that some of our young men spilt blood in France with your people and lay side by side under the earth," Marshal Foch replied:

"I know the record of the North American Indian in the war and I have come here in part particularly to thank this nation for the splendid men we sent and especially the mothers of the Indian soldiers."

Just before Marshal Foch left the platform, he turned to a little Indian woman with head and shoulders draped in a quaint dark shawl, and shook hands warmly. She had lost a son in France. Dance For Marshal

Indians who came from the Standing Rock reservation, 150 miles away, were eager to dance for Marshal Foch. Unable to do so in the crowded city auditorium where the program was held, they hastened to the railroad station, and as the marshal walked between lines of khaki clad former service men the Indians "kilt him out from the rest of the party and danced their war dance to the evident delight of Marshal Foch. Squaws joined the braves in the dance and chanted their songs.

When the special train arrived at 11 a. m. for a two-hour stay, the marshal was greeted with unbounded enthusiasm. Former service men from Bismarck and Mandan acted as guard of honor for a short parade through the city.

Arrangements had been made in advance by wire at Marshal Foch's request so that he could attend church. The crowd in the city auditorium was kept waiting while the allied generalissimo attended mass at St. Mary's church. There he met Father Andreu of Bottineau, N. D., a former officer in the French army who was born a few miles from the marshal's birthplace in France.

At the auditorium Marshal Foch was welcomed by Governor R. A. Nestos and Philip R. Bangs of Grand Forks, state commander of the American Legion. In a brief talk Marshal Foch expressed his gratitude for the aid of the people of the state in winning the war.

After his trip through the populous east, Marshal Foch was deeply impressed by the great prairie country which he traversed Sunday. "Its grandeur is almost overpowering," he said. Billings, Montana, is the next stop on his schedule.

WANT MINE RE-OPENED.

Denver, Nov. 27.—Miners at the Cameron mine of the Colorado Fuel and Iron company, closed last Monday after only a small proportion of miners reported for work, have asked the company to re-open the mine at a reduced wage scale, it was announced Saturday. Attorney Fred Farrar, in behalf of the company, filed with the state industrial commission a petition signed by 107 of the 135 men normally employed requesting a decrease in wages.

STUDENT COMMITS SUICIDE.

Helena, Nov. 27.—William Less of Whitehall, aged 19, son of Andrew Less, an undertaker here, committed suicide by poison here Sunday. He left a note saying he could not stand the pain of a disease in his leg. The boy had been attending school here.

Do You Get Ahead or Just Get Along?

That is a question you ought to answer. If you are not getting ahead, why?

FARMERS COMPETE FOR GRAIN PRIZES AT CHICAGO SHOW

Wizards of Soil Have Fine List of Exhibits; One 30 Foot Ear of Corn.

Chicago, Nov. 27.—Thousands of farmers of 24 states and half a dozen Canadian provinces are matching skill for the \$10,000 premium list offered by the Chicago Board of Trade for the best samples of corn, wheat, oats, barley, rye, seeds and hay grown during the current year. The decision will be reached at the third International Grain and Hay show, which opens here Saturday.

Agricultural colleges, crop associations, experimental stations, the United States Department of Agriculture and Canadian provincial departments of agriculture are represented by extensive exhibits showing the handiwork of wizards of the soil throughout the productive stretches of the continent.

Prof. G. L. Christie, Purdue university, superintendent of the exhibit, which is held in connection with the International Livestock exposition, declared that the number of samples had increased 1,000 since last year.

Standing sentinel at the entrance of the grain show is a 30-foot ear of corn. To build this symbol of the corn belt 30 bushels of corn were required. This single freak ear, hog-raising statisticians declare, would fatten from six to nine hogs from 107 pounds each to 227 pounds each in 60 days.

Eureka Chemical Plant Turns Out Muric Acid; Product Is Sold East

Special to The Tribune.

Libby, Nov. 27.—Miss Marie Bockman spent Thanksgiving with her parents, Mr. and Mrs. Herman Bockman, coming from Eureka, where she is employed as stenographer for the chemical plant. She said the actual production of muric acid, the company's chief product, was started when the fourth unit of the plant, the apparatus that refines and purifies the acid, was put into operation. The sawmill, the grinding machinery, and the boiling equipment, comprising the other three units, were already in operation, and working perfectly.

Miss Bockman describes the process of manufacture briefly as follows: The tamarack wood is sawed into blocks, which are sent to the grinder and shredded to fibre, this fibre is placed in great boilers that cook the saw out of it. The saw forming a black sticky sweetish substance called molasses by the workers, is drawn off from the boilers, it contains about 40 per cent muric acid. It is then passed through a chemical bath, the fourth step in its manufacture, and comes out a white powder. Miss Bockman said that the market for the product is at present all in the east, and it will be shipped there for distribution.

Frantz Deep Test Well Is Down 3,000 Feet, in Limestone

Special to The Tribune.

Winnett, Nov. 27.—The hole at the deep test of the Frantz corporation in section 27-15-30, Antelope field, has reached 3,000 feet, with the drill working in a light gray limestone formation. The 5 and 3-16ths inch casing will be carried down, underreaming from 2885 feet to bottom of hole, because of caving in the formation.

Competent field opinion holds that another 50 feet of drilling will develop the Amiesen sand, which should give good production. Another ten days should finally tell the story of success or failure for this test.

Reports sent out from Lewistown that there was 100 feet of oil standing in the hole are not true.

Mountain Grouse Are More Plentiful, Hunters Declare

Helena, Mont., Nov. 27.—Grouse, which have been protected in this county for several years, are declared by hunters to be more plentiful this winter than ever before known. The hunters say that the birds grow larger than formerly because, they believe, of the excellent feeding they have enjoyed during the last summer.

The Rocky mountain grouse grows as large as a turkey and according to epicures is considered more toothsome. Because the present crop of hunters to be more plentiful has been shot at, they show no fear and allow hunters to approach them closely.

Owens Forging Checks on Eureka Employer, Is Now Held for Trial

Special to The Tribune.

Eureka, Nov. 27.—John Bierly was arrested Monday on a charge of forging checks on the Eureka Furniture exchange and had passed about \$46 worth of checks on A. A. Carter, the proprietor. He was given a trial in justice court and pleaded guilty. He was bound over to the district court.

Bierly also admitted stealing a watch and pawning it at one of the pool halls in town.

So clever was the work of Bierly that all of the checks went through the bank and Mr. Carter had to look at them twice before he could say they were not signed by him.

Plumb to Speak at Jobless Meeting

Washington, Nov. 27.—Senator La Follette of Wisconsin, Glenn E. Plumb and William H. Foster will be speakers before the national unemployment conference which will be held by workers and unemployed at Detroit on December 3 and 4. It was announced Saturday at a meeting here Saturday.

Other officers named were: Edward Phinney, Livingston, secretary; E. M. Sybert, Livingston, vice president; D. J. Fitzgerald, Livingston, treasurer; W. O. Hutchinson, Wilsall; W. F. Lee, Clyde Park; M. H. Link, Gardiner; R. O. Brawner, Yellowstone valley; Mark Conrow, Hunters' Hot Springs; C. S. Hefferlin and Mrs. Mary Short, Livingston, directors.

Park Taxpayers Pick Officers of League

Livingston, Nov. 27.—O. T. Armstrong, of Livingston, was named president of the Taxpayers' league of Park county at a meeting here Saturday.

Other officers named were: Edward Phinney, Livingston, secretary; E. M. Sybert, Livingston, vice president; D. J. Fitzgerald, Livingston, treasurer; W. O. Hutchinson, Wilsall; W. F. Lee, Clyde Park; M. H. Link, Gardiner; R. O. Brawner, Yellowstone valley; Mark Conrow, Hunters' Hot Springs; C. S. Hefferlin and Mrs. Mary Short, Livingston, directors.

Man is the only creature that can twiddle his thumbs.

FOREIGNERS TAKING CONTROL OF GERMAN SUPPLY OF WINES

Low Value of Mark Enables Outsiders to Buy Output at Low Prices.

Marye, Germany, Nov. 27.—Hundreds of foreigners, chiefly Frenchmen, Belgians and Hollanders, taking advantage of the present low rate of the German mark, have almost bought up the entire German wine output of 1921.

The ruthless raids by foreign buyers, whom no fancy prices seem to deter, are a source of bitter lamentation on the part of domestic consumers, who foresee that but little of the precious liquor will be left for their own enjoyment.

German officials have been seeking means to prevent Germans from being deprived of this year's excellent wine and from having to purchase inferior vintages of other years at higher prices. As a last effort to retain the remains of the 1921 crop, an agitation has been started to force foreigners to pay a higher price for the wine than the Germans.

The Prussian minister of commerce is taking steps to enforce the law prohibiting exports, which covers necessities of life as well as wine sold in small lots.

Washington Parley Has Obtained Results Already, Says Beatty

Ottawa, Ont., Nov. 27.—Admiral Earl Beatty told the Ottawa Canadian club that if "the Washington conference were to close its doors now it would have accomplished something toward releasing the world from the great burden of armament and the taxation that it involves."

He said that his presence in Ottawa indicated that all goes well at the conference.

The limits imposed upon various countries by the Huges proposals, he said, "are not derogatory to the dignity of the great empire to which we belong," and added he was sure "that the empire on the sea will be as safe in the future as it has been in the past."

"There are many questions still to be worked out. The great achievements aimed at cannot be achieved in a day. But that they will be achieved, the spirit and harmony which ruled at Washington are a very signal proof."

Southard Will Ask for Divorce From Convicted Poisoner

Twin Falls, Idaho, Nov. 27.—Paul Vincent Southard will ask for divorce from his wife, Lydia M. Southard, who was convicted in district court here of second degree murder of her fourth husband, Edward F. Meyer, and who is now serving a term of 10 years to life imprisonment in the state prison.

Information to this effect came to Frank L. Stephan, county attorney, who directed the prosecution of Mrs. Southard, in a letter from Southard asking for a statement from the official to be incorporated in a petition for divorce.

Southard is a petty officer in the United States navy and is stationed now at the submarine base at San Pedro, Calif.

PROGRESS ON CATLETT

Special to The Tribune.

Winnett, Nov. 27.—Satisfactory initial progress is reported from the recently opened in No. 4 Catlett well of the Midnorthern company. Location is in the SW-SW of section 12-15-20.

PROVIDES FUND FOR EDUCATING YOUNG MOTHERS

Ignorance and Poverty Share Responsibility for High Death Rate.

States Will Aid Work Started by Congress; Open Health Stations.

By MAXINE DAVIS.
Special Correspondent of Great Falls Tribune
Copyright, 1921, The Great Falls Tribune
Washington, Nov. 27.—Women's first major demand of congress since her enfranchisement has been won. The vote of 279 to 39 for the Sheppard-Towner maternity and infancy bill, shows how overwhelming was the rush on capital hill to grant her wish.

Name Williston Men to Attend Meeting of Roosevelt Hiway

Special to The Tribune.

Williston, N. D., Nov. 27.—Ernest Bylin of Byga and Henry P. Dooley respectively, of the North Dakota division of the Theodore Roosevelt Hiway association, were at the recent meeting of the state directors chosen to represent the association at the meeting of the Theodore Roosevelt International Hiway association, which is to be held in Duluth, December 5.

Death Rate High

The United States has the highest maternal death rate of any of the principal countries. We lose one child in every ten. To better these conditions the fight for a maternity bill was launched. As passed this week the bill provides appropriations for a center of instruction in the hygiene of maternity and infancy through public health nurses and other "suitable methods." The organization and administration will be entirely through the states with plans approved and supervised by the head of the children's bureau at present Miss Grace Abbott, aided by a board consisting of surgeon general of the United States

health service and the United States commissioner of education.

Ignorance One Cause

Ignorance and poverty share responsibility for the tremendous death rate. Consequently the remedy is mainly educational and almost entirely preventive work, consisting in the employment of trained nurses, the establishment of baby health stations or child welfare centers and the employment of physicians for consultation work. The women will come early to these centers and be taught how best to care for themselves. The plans are not to attend actual sick cases at all but to teach adjustment to environment that so often causes ill health.

In the foreign population of big cities and in the more remote districts, many women have little knowledge of hygiene for themselves or their babies and no facilities for learning. One of the arguments for the Sheppard-Towner bill has been that the funds are insufficient to be truly useful. But where the population is thin a little help will go a long way toward the preservation of motherhood, and the end provision of the appropriation remedies the defect to a distinct degree.

The sum of \$1,240,000 annually is appropriated for five years, for this is an experimental measure. Of this sum \$5,000 is given outright to the states. Another \$5,000 is also given which must be matched by a like fund raised by the state. The remainder is distributed according to population, and whatever sum is thus available must also be matched by the local legislators thus creating a considerable amount.

BANDITS SHOOT MAN

Ogden, Utah, Nov. 27.—Stephen A. Browning, 62, a business man of Idaho Falls, Idaho, was shot to death by bandits, according to a message received Saturday night by relatives in Ogden. No details were given.
