Will Soon Be Told
When Time Is Up

Clark Grady, clerk of the court of
Judith Basin county, arrived in Great
Falls Saturday from Helena, where he
consulted the office of the attorney
general relative to the length of his
term of office. The clerk's term of
office is for four years, but a ques-

in Judith Basin this year because of
the special election at which Grady
was elected in 1920. An opinion cover-
ing Grady's case will be issued by the
attorney general within a few days, he
was advised.

Coal Production Gains
as Railroads Improve
Car Service to Mines

Washington, Aug. 5.—Coal production for the week will be about
317,000 tons greater than the previous week and will total about 4,250,000
tons, the geological survey estimated Saturday.

The increase was due to improved railroad conditions in the non-union
fields, the survey said, rather than to reopening of mines. The total
weekly output is still about 1,100,000 tons short of levels reached by the
non-union output before the shopmen's strike.

There has been practically no increase in output in any of the strongly
organized districts, the survey said, and the increase in shipments from
Pennsylvania and from the Fairmount and Kanawha districts of West
Virginia has not been large.

The output of anthracite coal will be barely 30,000 tons for the cur-
rent week, the survey added. Taking anthracite and bituminous coal to-
gether, the output during the week of 1922 amounted to a total of
5,070,000 tons, the survey said, while in 1920, the total of anthra-
cite and bituminous for the corresponding week was 11,283,000 tons. The
present rate of output, the survey concluded, "is, therefore, from 5,000,000
to 6,000,000 tons below normal."

SALISBURY RATES
HIGH IN GOOD PAN

Screen Artist Appears in Cos-
tume of Far North
Regions.

Good looks alone did not make Mon-
roe Salisbury popular motion pic-
ture star, for he has historic ability
that easily makes him a dramatic
stage star of the first magnitude, and
the audience at the Grand Saturday
night rated him thoroughly deserving
of the feature position on an un-
usually good Pantages bill. He ap-
pears in a far northern costume,
familiar to all who have seen him on
the screen in Alaskan pictures.

Salisbury makes no reference to his
career in the "movies." He starts his
act off with "The House Beside the
Road" which he recites with excep-
tional ability, his deep voice, strong
face, long artistic hands and athletic
figure each playing its part in inter-
pretation. Other readings follow, two
of them by Robert W. Service, each
serving the purpose of a vehicle for
his versatility. He impressed his
Great Falls audience as the cleanest
and most capable screen star to visit
this city this season.

There are no weak numbers on the
bill this week. The show opens with
Wilfrid DuBois, a juggler, but one so
different from the usual run that if
he has an old turn in his repertoire
he gets it over as new. Marion Claire
demonstrates the range of her strong;
well toned voice in "A Study in Song"
and does it pleasingly.

Harry Downing is a female imper-
sonator of the highest order. From
the usual impersonation skits. He
first enters in male attire to assure
you that he is a regular he-man,
which in his way appeals to later ap-
pearance in an evening gown. He has
four others with him, three of whom
appear in ensemble and solo dance
numbers that are creditably clever.

The Four Bonnets, who close the
show, have an acrobatic act that
thrills the audience with its many
daring and difficult feats. This pro-
gram will be given for the last times
at the Grand theater tonight.

News of State Oil Fields

American Will Sink
Wells Near Laurel

Billings, Aug. 5.—Resumption of oil
drilling activities near Laurel is being
planned by the American Petroleum
corporation recently formed by C. W.
Sutton of Chicago, Henry Alexander of
Butler, Pa., and R. H. Link of Macha-
ber from the field.

The new company, which will
maintain offices in Billings, has leased
14,000 acres near Laurel, in sections
6 and 7, 2 south, 23 east, on the Schauer
ranch.

The land acquired by the American
company includes some that was drilled
on several years ago, but which has
since been tied up in court litigation.
It was purchased by the new operators
at a cost of approximately \$153,000
from the old company. There are now
two uncompleted wells on the land, one
on each section, which have been show-
ing oil in small quantities for the past
four years.

It is the plan of the new owners to
drill a new well on section 6 and clean
out the old hole on section 7. Rigs
already are on the ground for this
work, which is to start at once.

The company is being financed by
eastern capitalists. The Billings of-
fice will be in charge of A. J. Rowland
of Miles City, member of the Rowland
Auditing company.

coaches, while the fast train consisted
of 12.

Scalding steam from the engine
which was ditched, escaped into the
wooden coaches which were splintered
and cooking victims in the wrecked
cars. Axes and picks from the emer-
gency kits aboard the flyer and from
equipment of the boy scouts were put
to heroic use.

The railroad station is being used as
a temporary morgue. Private automo-
biles are serving as ambulances, and
private homes have been opened to
the injured.

Numerous ex-servicemen assisted in
first aid work.

Hundreds of tourists and annual
visitors at the springs left their even-
ing diversions to aid.

The heavy boy scout belts and knap-
sack straps were converted into touris-
t's quarters on a few injured, while the
knapsack coats and pup tents were used
as shelters pending the arrival of am-
bulances and relief trains.

The Associated Press correspondent
found a confused and horror-stricken
village looking on in dumb amazement
as the cries came from the debris of
the coaches, scattered along the track
and piled up in the ravine, about fifty
feet below the tracks.

Doctors in shirt sleeves, railroad
men in their blue overalls, aided by
citizens from the small villages, made
every effort in extricating the victims
of the disaster from the wrecked coaches
to give first aid to those whom it
would benefit.

Pimples Keep
Young Men
Down!
They Make Women, Too, a Puzzle
How S. S. Stops Skin
Eruptions Positively.

Pimples and skin eruptions have a
price—you pay for every pustule,
head-bead, and pimple on your face.
Pimples produce prejudice and prevent
prosperity. Your heart may be gold,
but who wants to kiss eruptions?
Pimples don't look like the owners
of anything. Pimples women, too, are
puzzled. Young men and women, here's
the positive way out. Physics and
purgatives will fail. What you need
is a scientific blood-cleanser. S. S. S.
is one of the most powerful destroyers
of blood impurities. You can prove this
in short time. S. S. S. has been
passed on by a jury of millions of peo-
ple just like yourself. It is considered
one of the most powerful vegetable
blood-purifiers and flesh-builders in
existence. That's why you hear of so
many underweight people putting on
lost flesh in a hurry, why you hear of so
many rheumatics being freed from their
suffering, why S. S. S. is sold at all drug
stores, in two sizes. The larger size
is the more economical.
