

LASKER DENOUNCES DRY BOAT RULING AS DEATH BLOW TO U. S. SHIPPING

Attorney General Daugherty Listens as Head of American Merchant Marine Flays Him as Greatest Lawmaker of All Time; Calls on Public to Wipe Out Ruling Against Yankee Craft.

Chicago, Oct. 21.—Across a banquet board Friday night, A. D. Lasker, chairman of the United States shipping board, told Attorney General Daugherty and other banqueters that the attorney general's recent ruling that all ships entering American waters must be "dry" was the greatest blow that could have happened to the American merchant marine.

"I can prove," said Mr. Lasker, who spoke before the Audit Bureau of Circulation and its guests, "that Mr. Daugherty is the greatest law maker of all time." Moses only made the Red sea dry.

Mr. Lasker said that while he personally was anti-liquor, he spoke neither as a wet nor as a dry but from the standpoint of the shipping board.

"I have seen in the press," said Mr. Lasker, "statements that he made his decision to conform to political expediency to aid the merchant marine bill. I never knew what the decision was until the president announced it."

"As to the attorney, who is such a good politician, if he felt he was helping American ships, he did it without advising with me. I want foreign ships to come in, as is their right, wet. Forty per cent of the passengers are foreigners and will not subscribe to our views."

"When we are in international business we cannot drive ourselves to think that America rules the world," he continued.

The principal profits of ships coming to American shores is the immigrant traffic, he said. The immigrant regards whisky and beer as food as they do bread and water, he asserted. Liquor bearing ships can obtain this traffic and continue to hold it. American waters can throw overboard such liquor as may be left, and said they could figure to a barrel just how much liquor would be required by their passengers.

He called attention to one result of the Daugherty ruling. The American ship Resolute was made a Mediterranean cruise and 500 reservations had been made. Within 72 hours after the decision 54 cancellations were received, including one from the head of a great New York bank who was to pay \$28,000 for his accommodations.

"We cannot compete," he said, "with foreign ships that can leave 100 Passengers Get Shaking as Train Hits Open Switch"

Columbus, Ohio, Oct. 21.—About 100 passengers aboard Baltimore & Ohio passenger train No. 38, were shaken up and a few were slightly injured Friday night when the train struck an open switch and plowed into a string of freight cars, just inside the city limits.

The engine overturned, but all passenger cars remained on the tracks. Engineer John Little, Chillicothe, was slightly injured about the head and back and Fireman E. E. Cleary, Newark, was cut by flying glass. A fire which started in the wreckage was extinguished by the fire department before serious damage resulted.

The train due here at 6:15 p. m. from Cincinnati, was running behind schedule.

U. S. ARRESTS 13 IN INVESTIGATION OF \$500,000 THEFT

Bond Deal Involves Bankers in Twin Cities; Some Recovered.

Minneapolis, Minn., Oct. 21.—Arrests in the bond theft case reached 13 Saturday, when Clarence Redcliffe, of Minneapolis, was taken in custody by deputy United States marshals. It is expected that he will be arraigned soon. James Connolly, a former Minneapolis newspaper man, and his wife, and Abe S. Ginsberg, an attorney, also surrendered. Connolly and Ginsberg were released on \$10,000 bond each and Mrs. Connolly was given her liberty under bond of \$5,000.

Postal inspectors whose investigations of the two sensational mail robberies in New York and Chicago which led to the indictment of 26 persons on charges of dealing in stolen bonds, have unearthed \$750,000 worth of the stolen securities in Minneapolis and St. Paul. LaFayette French, Jr., United States district attorney, said.

It was estimated that \$1,000,000 worth of the securities had been brought to the Twin Cities, so the inspectors are credited with locating 75 per cent of the bonds disposed of here.

Mr. French said that the bonds referred to in the indictments were circulated principally in New York, Chicago and the Twin Cities.

"Chicago," he said, "seems to have been the clearing house. Fully \$1,000,000 were circulated in Minneapolis and St. Paul. These are believed to have been brought from Chicago by four men who were aided by local accomplices."

"Some of the buyers undoubtedly had a guilty knowledge that the bonds were stolen. Other persons, however, were no doubt innocent purchasers, believing they were obtaining legitimate securities."
