Extract of a Letter From Providence, Ala., May 15, 1866. DR. JOHN BULL: I send you \$20 for CEDRON BITTERS; please send what it will come to after paying freight to Columbus, Miss. I have been troubled for several years, with indigestion, and have had to take pills every day for fifteen years, and in February last was attacked with general paralysis. I was confined to my room the remainder of the year, and, in fact, continued in a very weak and nervous condition until some two months since, when I was put under your operation, and you CEDRON BITTERS for treatment. I commenced improving right away, and am pretty well restored.

We wish to call the especial attention of our readers to the advertisement in another column of the enterprising firm of James Ruddle & Co., of Louisville, Ky. We do not wish or intend to recommend all the patent medicines that come along, but we do wish to call attention to the fact that when, as in this case, they are put out by men of long experience in the practice of the healing art, men of standing in the community in which they live, and when the medicines themselves have stood the test a quarter of a century, (as is the case at least with some of these,) and more especially when they do not claim to do too much, we are inclined to believe that they are recommended, with at least some confidence, as the prescription of a regular physician.

Shall Nature be Sustained. To give debilitating medicines to the weak is about as sensible as it would be to try to help a man to his feet by kicking him when he was down. That sort of practice is going out of fashion. It has filled so many grave-yards that people no longer believe in it. If those who are not strong by nature expect to cure the attacks of disease, they must endeavor to acquire the vigor necessary to resist it. How is this to be done? Common sense suggests by the use of invigorating medicine. The great object is to STRENGTHEN THE SYSTEM WITHOUT EXHAUSTING IT. This object is accomplished by the judicious use of the most potent and genial of all vegetable tonics and alteratives, HOSSETT'S STOMACH BITTER. Many valuable properties are combined in this preparation. It improves the appetite and renders digestion easy and perfect. It gives steadiness to the nerves, induces a healthy, natural flow of bile; prevents constipation without unduly purging the bowels; gently stimulates the circulation, and by promoting a vigorous condition of the physical system, promotes also, that cheerfulness which is the truest indicator of a well-balanced condition of all the animal powers. Summer leaves both the body and the mind more or less exhausted. Now is the time to recruit them, and thus forestall the malarious fevers and other complaints which prostrate so many thousands every fall.

WHAT IS TARRANT'S EFFERVESCENT SELTZER WATER, and what are its effects? These are questions which the great American public has a right to ask and it has also a right to expect a candid and satisfactory reply. The preparation is a mild and gentle saline carminative, alterative and tonic and is most carefully prepared in the form of a snow white powder, containing all the wonderful medicinal properties of the far famed Seltzer Springs of Germany. Of its effects, we would say that those who have tested the preparation are the best judges and they declare that it promptly relieves indigestion, regulates the flow of the bile, cures every species of headache, tranquilizes the nervous system, relieves and invigorates the weak, mitigates the pangs of Rheumatism, neutralizes acid in the stomach, cleanses and invigorates the bowels, and the falling appetite, cures the heart-burn.
