

ADDRESS FROM THE CHAIRMAN OF THE DEMOCRATIC STATE EXECUTIVE COMMITTEE.

JACKSON, Miss., April 27th, 1868. To the Democratic Associations of the State of Mississippi—

GEN. TERRY—Some time since, the Executive Committee of the Democratic Party, organized a Constitution and By-Laws recom...

"Constitutional Liberty." The utter disregard of the Constitution of the United States, and the total overthrow...

The political platform of the Republican party of this State, as the reverse of our own, should be stated in two words also, to-wit: "CONSTITUTIONAL DESPOTISM."

The Military Convention now in session, profess to conclude their reasonable labors for the disfranchisement of all our most prominent and useful citizens. They have carried their proscription far beyond the limitation of the Radical Congress...

The system of amalgamation, miscegenation and taxation, imposed by other provisions of this Constitution, not only corrupts the motives of justice, but attempts to a total confiscation of all the property in the State. As the Radical party are to become the sole recipients of the public treasure, to be held in this tyrannical system—to hold all the offices, to receive the emoluments—disperse all the revenue, and wear purple and fine linen every day, at the expense of the taxable people of the State...

These different measures with the utmost care and anxiety prepared to carry their designs into execution, by procuring a ratification of this Constitution at the ballot box. Their secret associations, for the purpose of now encompassing the State, and they are playing for the dazzling prize with the desperation of gamblers who have cast their all upon a die.

People of MISSISSIPPI! These are no idle words we address to you. Every utterance is pregnant with advice; every syllable replete with warning. The enemy count the negro vote by thousands, and are not content with the non-paying voters. If these two elements are permitted to combine, your Constitutional Liberty is forever at an end—Constitutional Liberty is forever at an end. This point reached, the natural consequence is famine and death.

There is time yet to avoid this approaching torrent of evil, political and pecuniary ruin. The people still have a right to assemble and concert the necessary measures of defense. The Executive Committee have organized the means of accomplishing this result. The By-Laws of the Democratic Associations direct what is to be done—if these are promptly and successfully executed, all will be well—if neglected, all will be lost.

The reaction against the Radicals at the North is progressing with great power, and portends the success of the Democratic candidate for the next Presidential election. If we defeat the Radical Constitution now, and succeed in the Presidential contest, we will preserve our present Constitution and laws.

Local and sub-committees to be appointed in the Police Districts of every county have important duties to perform. The chief labor of the canvass devolves on them, and their work should be speedily and thoroughly done. The necessary expenses should be sufficient in numbers to enable them to see in person all the people in their neighborhoods within a few days at most and procure their signatures to the Constitution and By-Laws, together with a personal pledge to be active among the people and to be present at the polls and do all in their power to secure a unanimous vote for the principles and candidates of the party.

It would be well to have one or more members of these committees on every farm or plantation, where they should unite with the freedmen in the preservation of order and domestic tranquility, and in the suppression of all secret political associations designed to sever the interests of the planter and the laborer. The latter are to be employed to tax the people for the support of political mendicants and vagrants from other States who have no claims on society, and whose avowed purpose it is to impoverish our people and reduce them to a state of pauperism. For more than two years our labor system has been paralyzed by these nefarious combinations, and the result has been found in universal bankruptcy and distress alike, together with the planter and the laborer, and indeed among all classes of society.

These sad lessons teach us that the interests of the planter and the laborer are not only identical, but in fact indissoluble, for when dissolved, mutual ruin stares them in the face and mocks them with fearful omens.

It has been a labor of love with the public sphere to produce these direful results. For three years past he has been on the wing for his prey, "and if for a moment he has paused in his infernal flight, it has been upon some distant shore, where he is uttering for a keener rapine and replume his wing for a more sanguinary desolation."

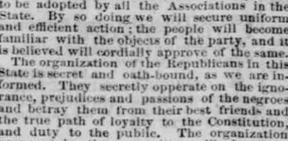

The people will not fail to perceive that the mode of organization proposed, may be necessary for political, agricultural and social purposes. The membership embraces all good citizens who are in favor of Constitutional government—the District Committees will include the influential men of all portions of the counties. Their duties will keep them in constant communion and good fellowship, and their meetings at the country will enable them to know the exact condition of the country in all its political, agricultural and social aspects. It is an organization, not for the present alone, but for all time to come. It is based on the principle of "Eternal vigilance is the price of Liberty"—that the public servant is accountable to the people—that personal ambition and private interest must succumb to the public welfare—that public officers must be no more than trustees of the people, and that the Constitution must be maintained at every hazard, and that "justice must be done though it should heaven fall."

The object of the meeting is to arouse yourselves to action. The vital issues which are at stake on the result, do not admit of apathy or delay. Not a moment is to be lost. You are again reminded that the State Convention will assemble on the 12th of May, and earnestly urged to send up full delegations.
