

LEFT TO CONGRESS

Solution of the Money Question in the Philippines.

TWO PLANS ARE PROPOSED

Containing a New Dollar and Adopting the United States Currency System.

New York Sun Special Service

Washington, Jan. 2.—The secretary of war has prepared another letter to congress urging immediate action to relieve the monetary situation in the Philippines by authorizing the adoption of the present currency system of the United States or the coinage of a silver dollar to be substituted for the Mexican dollar, which is now the circulating medium.

On the other hand, the Mexican dollar is still the standard of value in all of the countries around about in eastern Asia and the East Indies. Many think that an American dollar of the same weight and fineness would afford a market for a large portion of the present silver mines and that it would be much better for the Philippines than our own currency.

HIS PAPER NOT PERFECT

HARMSWORTH AS HIS OWN CRITIC

But He May Repeat His Ideal Newspaper Experiment Elsewhere.

New York Sun Special Service

New York, Jan. 2.—Alfred Harmsworth, the English newspaper owner and editor, is pleased with his attempt to reduce an American daily to his ideal. He thinks the first twentieth century edition of the New York World, issued under his direction, proved the success of his idea as applied to American newspapers, because it was almost impossible for him to get a few copies to send to England, so great, he says, was the demand for the paper.

He was hardly out of bed before he got offers to apply his system to papers in other cities, and he says if he accepted all these invitations he would have to spend the greater part of his remaining days in America cutting down papers.

Oh, you're coming to my size paper, sure. You will see a daily paper here in New York just half the size of the present papers within a very few weeks.

I believe they have allowed me credit for some of the imperfections in the World. Of course, a man could hardly be expected to come into a new country Friday and get out strong, entirely new, and at the same time absolutely correct in the newspaper way Tuesday.

In the first place, there was too much advertising in the World. I told them there was too much. I would not have so much white margin, and I would have the sheets wedged together. I do not believe in the pasting method. That is old.

Neither would I have a whole page of editorials. I think three editorials enough, and they short ones. My rule was to have no story run over a column, but if it was not enough short news in this initial paper, I would have the first page practically paragraphed with short stuff.

Then it is absurd to let the advertiser use big black type and bury all the reading matter. I did not like the appearance of the World in that particular. You see, putting the large advertising type into my small pages was just like putting real furniture into a doll's house.

Another custom I object to in American papers is running the same picture of a person on a house, or something else, over and over again. I believe in pictures, but I would never print the same picture twice any more than I would print the same story twice without change or something to make it worth printing.

While Mr. Harmsworth would not say what papers he will apply his system to next, yet it is evident he is stimulated by his experiment with the World, and will take charge of some other daily before leaving the country. He goes south from New York, and then possibly west.

Astoria, Oregon.—It is heard that the British ship Andraha has been lost.

IRELAND'S PLAN OPPOSED

POLANDERS CANNOT STAND FOR IT

Cling to Their Native Tongue in All Church and School Exercises.

Special to The Journal.

Chicago, Jan. 2.—Unequivocal opposition to the plan of Archbishop Ireland and other American prelates to substitute the English language for the foreign tongue in the churches and schools of the different foreign-speaking people of this country was declared yesterday in a mass meeting of parliamentarians of the Holy Trinity Polish Roman Catholic church.

Strong addresses against the plan were made and resolutions indicating the opposition and feeling against the movement were adopted.

The resolutions were addressed to the papal delegate at Washington and to the church authorities in Rome, and were made in the name of the entire parish.

MONROE DOCTRINE BULWARK

British View of the Purchase of the Danish West Indies.

New York Sun Special Service

London, Jan. 2.—There is no confirmation in diplomatic circles in London of the rumors from German and American sources that the state department is negotiating for the purchase of the Danish West Indies.

It was an open secret a year ago that the Danish court was sounded on the general subject by a confidential diplomatic agent, and that the state department was in a position to obtain the islands if wished to. The negotiations have not been pressed at Copenhagen nor have conferences been abandoned. It is a sluggish little capital, where the king and his ministers require time for working out any departure in policy.

The German government has disclaimed any idea of purchasing the islands, but will be pleased without doubt, if negotiations between the United States and Denmark for the cession of the group do not come to anything.

The diplomatic view here is that if the Washington government should obtain the islands before committing itself to any definite canal policy it would be the cheapest and surest safeguard against a future challenge of the Monroe doctrine by a European power.

THOUSAND MINERS OUT

Colorado Company Says Wages Will Not Be Increased.

Denver, Jan. 2.—President Cannon of the Northern Coal company has told Lafayette, Col., to confer with the 1,000 miners who are on strike for an increase of ten cents a ton in the price paid for mining coal, and an increase of \$1 a day in the wages of machine men. President Cannon declared emphatically that the increases would not be granted.

The Northern coal field is the main source of supply of lignite coal, the favorite for steam heating and family use in Denver. The output is between 3,000 and 4,000 tons a day. Officials of the other coal companies promise to use every effort to meet the demand.

WOOLLEY HER ADVOCATE

He May Defend Her, Nation, the W. C. T. U. Crusader.

New York Sun Special Service

Wichita, Kan., Jan. 2.—Mrs. Nation has received requests from Kansas City, St. Louis and other eastern cities to lecture on temperance. But she says she will not go after she gets out of jail here, because there is plenty of work for her here in Kansas.

In her last mail was one letter from John G. Woolley, prohibition candidate for president. Mr. Woolley was appealed to by the W. C. T. U. to defend Mrs. Nation in her trial for wrecking the Carey hotel saloon fixtures. He said he would try to arrange his affairs so as to be here.

SAILORS HAVE THE GRIP

Epidemic Spreads at the Brooklyn Navy Yard.

New York Sun Special Service

New York, Jan. 2.—Grip epidemic is raging in the Brooklyn navy yard. It appeared about a week ago aboard the battleship Alabama and over fifty of the crew are now laid up. From the Alabama it extended to the receiving ship, and within the last two days the number of sailors, marines and government employes stricken has reached 150.

MARRIED IN FLOCKS

Kentucky Couples Are Wedded in Indiana Fifteen a Day.

Louisville, Ky., Jan. 2.—Magistrates in New Albany and Jeffersonville, just across the river in Indiana, the Gretna Green of Kentucky lovers, have done a rushing matrimonial business since the beginning of the holidays. Christmas Day forty couples were married there and since then there has been an average of fifteen weddings a day. Monday and New Year's there were fifty more. This number would have been increased had not some couples failed to catch the boat.

Neighboring Clubs.

Last week, when Mrs. Jessie L. Gaynor was in St. Paul attending the Minnesota Educational Association, she sang for a group of women interested in music, and parts of her operetta, "The House That Jack Built," and they were delighted with its music. Mrs. Gaynor spoke in a highly com-

NEW COOKING CLASSES

A Chafing Dish Class for Men Organized by Y. W. C. A.

With the beginning of the new year new classes will be organized in the cooking department of the Y. W. C. A. Much interest has been aroused in the announcement that classes in chafing dish cookery will be formed. The men found such profit and pleasure in their lessons last winter that there has been a strong desire that a class should be organized for the benefit of the men.

The Y. W. C. A. calendar is proving very popular and is very pretty and complete. It is sold for the benefit of the extension work at the North branch.

SOUTH AFRICAN PROTESTS

Women Pass Strong Resolutions at Cape Town.

In the Pearl, Cape Colony, there is a division of the woman's international congress, which, by its work along lines humanitarian, educational and social, is attracting the attention of the progressive women of all nations. The latest news from Cape Colony comes in a set of resolutions which were recently passed at a meeting of South African women desiring to enter their solemn protest against the imprisonment and deportation of unprotected women and children without investigation in defiance of all the laws and usages of modern warfare. The resolutions are as follows:

First Resolution—This meeting of South African women desires to enter its solemn protest against the imprisonment and deportation of unprotected women and children without investigation in defiance of all the laws and usages of modern warfare. The resolutions are as follows:

Second Resolution—This meeting earnestly protests against the burning, plunder and destruction of private property of women and children as rendered destitute, and claims that this is in contravention of the resolutions of the peace conference at The Hague, resolutions which England supported and to which she subscribed.

Third Resolution—This congress continues to demand that an end should be put to this unjust war, and that the two republics should be allowed to retain their independence unimpaird, through which alone a lasting peace in South Africa can be attained.

Fourth Resolution—This meeting requests its secretary to publish and circulate these resolutions as widely as possible throughout all the civilized world.

Fifth Resolution—This meeting cordially thanks (first) all sympathizers in Europe and America; (second) the editors of the Land and the South African News, and (third) the various rings who have shown their sympathy for the unfortunate women and children.

NORTHWESTERN WEDDINGS

Specials to The Journal.

Paris, N. D., Jan. 2.—Miss Olive McDorman was recently married to Frank H. Daniels, the manager of the company with which she was touring the south as the leading lady. The bride is the daughter of Dr. and Mrs. C. W. McMorris of Fargo, and has been on the stage for two years. Her husband was at first reported to be the operatic comedian—a result of the similarity of his name with that of the funny man who plays "Mammett."

Mayville, N. D., Jan. 2.—John A. Honey of Park River and Miss Birdella Moshier of this city were married yesterday afternoon at the home of the bride's mother. Rev. J. A. Strachan of Park River performed the ceremony. Mr. and Mrs. Honey left last evening for Minneapolis. They will make their home in Park River.

Fulton, S. D., Jan. 2.—The marriage of Arnie B. Crossman and Miss Mable V. Pich at the home of the bride's mother at Wesley was a social event of no small magnitude to people in the western part of the state. The groom is a popular young school teacher of Wesleying, and the bride is a teacher in the city schools at Wesley.

Sioux Falls, S. D., Jan. 2.—Miss Binja Thorne, daughter of ex-Clerk of the Courts Albin Thorne and wife, and residents of the presence of a number of relatives and friends, was married at high noon Tuesday to Rev. Lauriston Reynolds of Redfield. The ceremony was performed by Dr. D. B. Scott, pastor of the Congregational church in a fortress. General Andre, the minister of war, had imposed a similar punishment on this officer for other violations of army regulations and he is now confined at Fort Valen-
