Winston Spencer Churchill, the brillant young English war correspondent and veteran soldier, will appear in Minneapolis Jan. 18, at the Lyceum theater, under the auspices of the Teachers' Club. This lecture is not a part of the regular entertainment course, as the arrangements for that were completed before Mr. Churchill decided upon his American tour. A "Barb" Among the Elect

An amusing complication occurred recently at an informal dancing party given by one of the sororities at the "U." The December 'Mag' contained a story of two university freshmen of the same name. One was popular socially and had been pledeged by a fraternity. A certain sorrority gave a dancing party and invited the pledeged by a fraternity. Yankton, S. D., Jan. 5.—Professor George H. there is no foundation for the statement that there is any well defined feeling in the trades affiliated with the council that the organization is a handicap rather than an assistance to them. On the contrary, they insist that the trades would as soon think of disbanding their individual unions as of making any move toward the disintegration of the combined organizan. The workers generally recognize the nefits derived from standing together and being in a position to take concerted action when occasion requires. They feel that the present strength of organized labor would be greatly impaired if they could not get together and take counsel of each other for their common welfare, and that it is this very consolidation of interests and concentration of effort which enables them to make their demands on capital more forceful. Without a common ground on which to meet, they point out, individual unions, acting often in conflict with each other, would not accom-

The assertion that the Plasterers' union might be the first to break away from the council called forth some vigorous protests from members of that trade. They emphatically deny that there is any disposition. Books upon every phase of South African life, as well as the actual campaigning in the Boer war, have been eagerly sought during the past eighteen months and any personal knowledge of the region or the people has not lacked for an audience. Minneapolis is to have the pleasure of hearing from the lecture platform the first of the prominent participants of the struggle to speak upon his experiences and observations.

Winston Spencer Churchill, the brillant young English war correspondent and veteran soldier, will appear in Min-Plasterers' union or any other affiliated trades, according to a number of delegates seen at the council headquarters this morning, who would for a moment consent to any such suicidal step—a concession which would be little short of fatal to future insistence on the exclusive employment of trades union men. Said one member:

The Rev. H. F. Gilt of the Fifth church has received a very hearty and unanimous call from the church at Two Harbors, Minn., and has taken it under advisement. Rev. Hr. Gilt and his brother-in-law, Rev. C. H. Curtis, came to Minneapolis from Oregon at about the same time. Mr. Curtis has already accepted a call to a church in another city.

Question of Affiliation With A. F. L.

Is Still in Doubt.

About half of the unions of the city have voted on the proposition for the Trades and Labor council to affiliate with the American Federation of Labor. Those that have voted are about evenly divided, and so the result is very much in doubt, but the indications are that it will not pass.

If the proposition carries, it will put some of the Minneapolis unions in a peculiar predicament. The Retail Salesmen's association, for instance, is not connected with the Federation of Labor, and is strongly opposed to joining it. It has at present a northwestern association, which for all practical purposes satisfies it. Its members say that there would be no benefit from joining the federation, while they would be taxed for the support of the national organization.

The St. Paul council is affiliated with the federation and the retail clerks and other unions outside of the federation are allowed to send delegates to the council, but have no vote. The same condition of affairs may come about here.

Carpenters Make a Bid for Those of Their Craft.

Reports for the year will be read and deacons and trustees will be elected to serve three years.

Archdeacon McCready will deliver an address on "The Mountain Whites, or Moon-shiners of Kentucky," at Gethsemane church, Sunday evening.

The Trades and Labor Council met Wednesday evening, with a very good attendance. The organization committee reported that it was meeting with fair success. A communication was read from Typographical union, No. 42, repudiating a certain paper claiming to represent the union, and protesting against the advertisements of certain eigars in such paper. Delegate Harvey reported that a committee of the council had visited the manager of the Western Union, and that he had stated that there would be no opposition to employes joining the union. W. S. Chisholm was indorsed for retention in his position as police officer, and F. G. Dustin for his present place as wire inspector.

Carpentres Install Officers.

Carpenters and Joiners' local union, No. 7, met last night and installed the following officers: President, P. J. O. Carrier; vice president, S. P. Meadows; recording secretary, John Franzen; financial secretary, Patrick Chiasson; treasurer, John Walquist; conductor, Fred Osbora; warden, Sam John-

son; trustee, John Allard, John Erickson, C. O. Johnson; auditors, A. J. Carlson, Gus Johnson, A. Harvey. Business Agent Blakenield was re-elected.

The union took a new departure in the matter of sick benefits. Heretofore they have been in charge of sixteen members of the union, divided among the thirteen wards. The union decided to consolidate this work, and put it in the hands of one man, to work on a salary. Patrick Chiasson was elected to fill the place. This union paid \$1,800 in sick benefits in 1900.

The Press Feeders' union has practically decided not to strike. A vote has never been taken, and probably will not be. The five-year contract with the job printers has still three years to run, and the press feeders did not get any encouragement from the other printing trades.

Is the Worst Kind of Fiction.

Plasterers' union, No. 65, held its annual meeting Monday night and elected officers as follows: President, Wm. Exworthy; vice-president, John Burch, re-elected; recording secretary, John Ar.mstrong; financial secretary, Herman Rudde, re-elected; treasurer, Robert Powell, re-elected; treasurer, Robert Powell, re-elected; sergeant-at-arms, Ed Armstrong; trustees, Peter Swadberg, Gus Ainquist.

Scott will handle the subject of "Trusts." The papers will be followed by general discussion. All workingmen are invited.

Dr. Shutter's Series.

Beginning Sunday morning, Jan. 6, Rev. Marion D. Shutter will give a series of denominational sermons. For some years it has been his custom early in the year to present a series on various phases of denominational thought and life. Last year he spoke upon the different points of the new declaration of principles adopted at the Boston convention. Following is the list of topics and dates for the present season: Jan. 6, "Beginnings of Organized Universalist Church"; Jan. 27, "The Universalist Church"; Jan. 20, "Development of Universalist Thought"; Jan. 27, "The Universalist Faith as a Basis of Character"; Feb. 3, "Some Unsolved Problems of the Universalist Church"; Feb. 10, "A United Liberal Church."

A Special Request.

For the use of pastors wishing to take advantage of this column, The Journal has had printed a new form of private postaticard, which will be supplied free upon application to the city editor. As these cards are of uniform size and arrangement, they vastly promote convenience in classification and composition, and their use is strenuously urged upon all who avail themselves of the courtesies of this column.

YEAR OPENS WELL

Indications of Further Progress-Prices Are Stendy.

Weekly Bank Clearings. Weekly Bank Clearings.

New York, Jan. 5.—R. G. Dun & Co.'s weekly review of trade says:

In spite of the interruptions of the holidays and of the university heavy annual settlements in all lines of business, the new year opens with indications of turther progress. There is no lack of contracts offered at steady prices in the country's leading industry, and in some departments of cotton goods there is a better movement, thougs speculation has depressed the price of the raw material. Otherwise a decline in wheat is the only noteworthy movement in staples. It is explained by a reduction in the flour output at Minneapolis, some mills shutting down, while the foreign demand at Atlantic seaboard cities is not brisk. The ordinary measures of business continue to make gratifying exhibits.

seaboard cities is not brisk. The ordinary measures of business continue to make gratifying exhibits.

No alternation has yet occurred in quotations of iron and steel products, and this industry is on such a firm foundation that most large concerns have maintained wages at the old scale, instead of making the reductions anticipated. Iron ore, prices are also unchanged, and no action is now expected until March, although a lower rate was looked for early in January. Coke is firmly held at Connellsville, and there are fewer idle ovens, while the much-discussed fall in prices appears confined to inferior qualities at outside furnaces. Pig iron sells freely for delivery up to April, and there is no indication of weakness. All finished products are eagerly sought, many large contracts having been placed for structural material, and others are under consideration. An American company is the lowest bidder for the large bridge at Sydney harbor, Australia. The purchase of seven hundred acres near Pittsburg by a leading steel company indicates great enlargement of its plant. Aside from one reduction of wages at blast furnaces, in the Mahoning and Shenago valleys, this week's news is most encouraging in this the greatest of American industries.

The market for textiles has been featureless, as the holidays and stock taking reduced business to limited dimensions. Wool has again declined, making the average of 100 quotations 19:28 cents, according to Coates Brothers' circular. Sales at the three chief eastern markets amounted to only 3,121,000 pounds. Cotton goods have not the same difficulties to contend with, but an abnormally high price for railway material acts as a check upon this industry.

Local jobbing and retail trade is brisk in boots and shoes, and many manufacturers are behind with orders, yet uneven distribution of business has left some shops ready to make concessions. Shipments from Boston for the week were 82;443 cases, against tribution of begin to the support of the weak were selective purchased freely, bu
