

YOU'RE WEAK Instead of Strong!

Make Yourself a New Man!

DR. GREENE'S NERVURA

BLOOD AND NERVE REMEDY.

Will Give You the Strength and Vigor of Perfect Manhood. Restores, Vitalizes and Invigorates Weak Men.

Old before his time! A broken-down, miserable wreck—weak, nervous, discouraged!

The world to him seems a place of mist, peopled with ghostly beings, whose fitting and fro about their daily tasks serves but to irritate him.

He is sick and he does not know it. He drags about, and therefore thinks he is well. He is despondent and peevish, and weak, and he does not know that there are merely signals—some from the stomach crying for aid—others from the nerves beseeching strength.

He, and all others like him, will find immediate relief in Dr. Greene's Nervura blood and nerve remedy.

Dr. Greene's Nervura is New Life, Hope and Strength for Weak Men.

Mr. J. D. Smith, electrician for the Thompson-Houston Electric Co., of Lynn, Mass., says: "When a man has been sick about it, that they, too, may get well. Three years ago I had been working almost night and day, could not sleep, and was so prostrated, I could not sleep when I tried, and my food would not stay on my stomach. I was in a terrible condition, and was much alarmed. I went to doctors, but they did me no good. I then bought a bottle of Dr. Greene's Nervura blood and nerve remedy, determined to try it. I cured me completely. All my complaints, I eat heartily and sleep well. I thank you for this splendid medicine. I believe it to be the best remedy in existence."

Dr. Greene's Nervura is the One Great Restorative Which Cures.

Dr. GREENE, 35 West 14th St., New York City, is the most successful specialist in curing nervous and chronic diseases. He has remedies for all forms of disease, and offers to give free consultation and advice, personally or by letter.

COIN FOR THE EAST WEALTH FROM MINES

Cabinet Recommends the Coinage of a New Silver Dollar.

ITS VALUE WILL BE 50 CENTS

It is Decided That the Philippines Are Accustomed to the Silver Currency.

New York Sun Special Service

Washington, Jan. 5.—Secretary Gage has devised a currency scheme for the Philippine islands which has received the approval of the cabinet and will be recommended to congress. Trade has now become much embarrassed because of the scarcity of Mexican silver dollars, which for many years have been the standard of value and circulating medium in all the East Indies.

It is thought best to provide a special coin for the Philippines of silver, because they have always been accustomed to use that metal exclusively, and the disadvantages and difficulties that would attend an attempt to introduce the United States system of currency over there are so great that the plan has been abandoned.

It is proposed, therefore, by Mr. Gage to ask congress for authority to coin an unlimited number of Filipino dollars bearing the emblem of the Philippine eagle and evidence that they were coined by the United States. Each dollar, or whatever the coin may be called, will contain 45 cents worth of silver bullion, and its value will be furnished in unlimited quantities to those willing to pay 50 cents in gold for them.

These coins will be disbursed by the government in the payment of its regular expenses at the army posts in the Philippines at their face value, which is 50 cents in American coin.

FOSS A VISITOR

Minneapolis Man on the Naval Academy Board.

Washington, Jan. 5.—It was announced at the navy department that the president has appointed the following board of visitors to the naval academy at Annapolis: Rear Admiral S. B. Bagley (retired), Newport; General E. S. Bragg, Wisconsin; Henry A. Marsh, Worcester, Mass.; Mark Benjamin, New York; J. F. R. Fosberg, Minneapolis; and Commodore J. D. Meade, U. S. N.

HOAR'S PHILIPPINE POLICY

Washington, Jan. 5.—Senator Hoar has offered an amendment to the army bill in the shape of a general proviso, as follows: "Provided, that no military force shall be used in the Philippine islands except such as may be necessary to keep order in places there now actually under the peaceful control of the United States and to protect persons or property to whom, in the judgment of the United States, the president shall have first proclaimed amnesty for all infractions of the laws of the United States in the Philippines, and, if in his power, shall have agreed upon an armistice with the rebels."

RIVERS AND HARBORS

Washington, Jan. 5.—Chairman Burton, of the river and harbor bill, reported the number of projects provided for is 408, of which 100 are to be carried out by the act of the bill repeals former conditional appropriations on the following projects and expenses: Penasuke harbor, Wisconsin; Chippewa river, Wisconsin; Yellowstone river, Montana and North Dakota; boat railway, in the Columbia river.

Mineral and Metal Production of the United States.

MORE THAN A BILLION LAST YEAR

United States Coal Output Leads the World—Total Dividends.

New York, Jan. 5.—The Engineering and Mining Journal today gives a summary of the mineral and metal production of the United States for 1900. The total value of the metals produced was \$1,049,230,594. The most important items were: Gold, \$78,558,755; silver, \$27,985,248; 61,756,802 pounds of copper, valued at \$100,154,346; 251,781 tons of lead, valued at \$22,006,659; 122,320 tons of zinc, valued at \$10,736,250; and 13,914,506 tons of pig iron, valued at \$238,078,737.

Of the non-metallic products by far the most important was coal, of which the United States produced no less than 274,847,779 tons—the greatest quantity ever produced in one year by this or any other country.

The total gold production of the world in 1900 amounted to \$256,462,438, compared with \$313,641,634 in 1899. The decrease is due to the stoppage of gold production in the Transvaal of the Klondike has put Canada in the third place, with a total output of \$26,000,000, and Russia was fourth, with \$23,000,862.

These four countries produced over 80 per cent of the gold of the world.

The total amount of dividends paid by 210 companies allied with mineral industries of the United States in 1900 was \$120,641,000. This is a large disbursement places mining among the most profitable of the country's industries.

The metal mines paid \$51,582,000, or 39.3 per cent of the total amount. The largest companies were the copper mines with \$25,435,000 for their credit, the gold and silver mines with \$18,146,000, and the petroleum companies with \$48,816,000.
