### Wife as an Asset.

Special to the Journal.

Fargo, N. D., Jan. 18.—The value of a wife as an asset is demonstrated by the recent experiences of some of the county treasurers in the difficulty they have had in securing surety bonds as provided by law. In one or two cases the treasurers were single men and the surety companies were afraid to take the risks. In addition to the lack of matrimonial assets, some of the officials were not men of property, which operated against them.

### Another Club Posters.

The Middlesex, Mass., Woman's Club has passed a series of resolutions covering very fully the color question in the general federation. It pronounced the refusal of the board of the federation to accept the executive committee in admitting the Women's Era Club a "tacit adoption of a color line which is unauthorized by the organic law of the general federation and contrary to its professedly non-discriminatory and non-sectarian character." It requested the board to acknowledge the rights of the club by admitting it to membership at its next meeting, and members hold short terms, that expire this winter, and two of them have resigned. J. D. Moulder of Fargo resigned last summer and R. J. Turner, the other member, has appealed to the commissioner of agriculture. Successors will have to be named to both. The board will probably be named with the view of the question involved was whether the secretary of the constitution makers engraved their location as a part of that instrument and there are many obstacles that can be thrown in the way of any proposed changes.

The suggestions that the two normal schools at Valley City and Mayville be consolidated are not made intelligently, unless it is intended that the appropriation shall be granted by the legislature for one and not for the other. The schools are located by the constitution, as are all the state normal schools. It is impossible to change the location of any of them or to consolidate them, in fact, without a constitutional amendment. The institutions of the state are normally located when the constitution makers engraved their location as a part of that instrument and there are many obstacles that can be thrown in the way of any proposed changes.

Government White has one entirely new institution board to appoint—that of the penitentiary at Bemidji. The board of the penitentiary hold short terms, that expire this winter, and two of them have resigned. J. D. Moulder of Fargo resigned last summer and R. J. Turner, the other member, has appealed to the commissioner of agriculture. Successors will have to be named to both. The board will probably be named with the view of the question involved was whether the secretary of the constitution makers engraved their location as a part of that instrument and there are many obstacles that can be thrown in the way of any proposed changes.

### LAUDER SUSTAINED

North Dakota Jurist Upheld by the United States Supreme Court.

Forman, N. D., Jan. 18.—The supreme court of the United States has just handed down a decision in the case of Hewitt vs. Shutta, tried at Forman three years ago by Judge W. S. Lauder. The question involved was whether the secretary of the interior had power under the law to withdraw land within the Northern Pacific indemnity grant from settlement under the homestead law.

Judge Lauder decided that the secretary had no such power, and that the homesteader was entitled to the land as against the railroad or those claiming under it. The case was appealed to the supreme court of this state, where the decision of the district court was reversed.

Now the supreme court of the United States has upheld the decision of the supreme court of this state and sustained Judge Lauder. The decision is of great importance, as it will settle many disputed titles in this state.

### GOLD IN A COPPER MINE

Special to the Journal.

West Superior, Wis., Jan. 18.—Gold from \$6 to \$31 in value to every ton of rock in the Chippewa copper mine in this county is what several eastern assayers have found in the assays made from this property. In most of the assays the gold was more valuable than the copper, and in the last one, received here a few days ago, the gold was valued at \$31 to the ton and the copper \$23.

The assays vary largely, the rock having been taken from different depths of veins. One vein showed 3.3 per cent copper, valued at \$10.56 per ton. In one there was \$12.08 worth of silver to the ton, the copper that day showing \$2.25. A chemical analysis made from a consignment of 500 pounds of the rock sent to the Darling Smelting and Refining company at Providence showed 16.52 per cent copper, valued at \$5.26 per ton.

R. F. Landis, formerly with the Northwestern Telephone company at Minneapolis, has come here to succeed Manager A. W. Stow. Mr. Stow resigned on account of private business which will demand his time.

### DIED IN GEORGIA

John Jung, Once an Influential Citizen of Otter Tail County.

Special to the Journal.

Fergus Falls, Minn., Jan. 18.—Peter Jung, deputy county auditor, received a telegram to-day announcing the death of his father, John Jung, at Macon, Ga. The dead man was a resident of this county from 1851 to 1899, when he left for Georgia to make his home there. He was one of the most popular and widely known citizens of the county during his residence here. He leaves a wife and seven children, three of his sons still residing in Fergus.

Miss Ada Wilson died at her parents' home in the town of Maine to-day. She was matron of Macalister college up to about a year ago when falling health compelled her to return home. She was as sister of Mrs. J. A. McConkey of this city.

Louis Anderson, a farmer of Wilkin county, died a broken-down bankrupt, placing his assets at \$205 and his liabilities at \$2,776.11. Commodore O. Perry, also a farmer of Fairhaven, Stearns county, died to-day, placing his assets at \$436.50 and his liabilities at \$1,436.50.

### OPERATED AT HURON

Evidence Accumulates Against Leonard, Arrested at Aberdeen.

Special to the Journal.

Huron, S. D., Jan. 18.—Sheriff Thompson of Aberdeen, was here Wednesday, interviewing merchants victimized by a check forger recently. There seems to be no doubt but Leonard, arrested at Aberdeen, is the fellow who forged the checks on J. W. Kelley & Son, and passed

### EDUCATIONAL TEST

Ballot Reform Which Flickertail Legislators Must Provide.

### SENATOR LEWIS' BILL ALREADY IN

Many Foreign Born Residents May Be Barred From the Franchise.

Special to the Journal.

Bismarck, N. D., Jan. 18.—The voters have adopted a constitutional amendment providing that an educational qualification may be prescribed for electors. A bill introduced in the senate by Senator Lewis amends the present law and prescribes such qualification by providing that voters shall satisfy boards of registration in the state and read intelligently the constitution of the state in the English language. This is the first time the state has attempted an educational qualification, and such a bill, if passed and strictly lived up to, will make it difficult for a number of foreign-born residents to vote. There is much discussion of the wisdom of an educational qualification in sweeping in its provisions, and if the legislative assembly passes one it will probably not be so rigid as to shut out any great share of the foreign-born element. As a general rule the foreigners in the state are intelligent and able to cope with the questions of government, but in view of the heavy arrival of colored immigrants in the past few years, it is deemed wise by many to put some such check on the matter of voting as that suggested by this bill.

When the first published lists of legislators-elect were sent out before the convening of the legislature, the name of James Mahood appeared as representative from the district of North Dakota. The legislature was elected. When the railroad companies issued passes to the members, Mahood got the passes and Lenke was left out. He justly complained at home with the transportation and Lenke, the member-elect, had to pay fare to the capital.

R. N. Stevens, one of the leaders of the house two years ago, is now at Cape Nome, where he went with Alexander McKenzie and was appointed United States commissioner at Cape Nome. A report from Cape Nome says that notwithstanding the fact there was a good deal of feeling among the miners against McKenzie and Stevens, Stevens stands well with all of them and occupies a position of influence. Stevens' place as chairman of the judiciary committee is held in the present house by Young of Valley City. Young was mentioned early in the season as a candidate for speaker, but he soon came into the Pollock camp. He is a lawyer who stands well at home and is altogether a self-made man.

The suggestions that the two normal schools at Valley City and Mayville be consolidated are not made intelligently, unless it is intended that the appropriation shall be granted by the legislature for one and not for the other. The schools are located by the constitution, as are all the state normal schools. It is impossible to change the location of any of them or to consolidate them, in fact, without a constitutional amendment. The institutions of the state are normally located when the constitution makers engraved their location as a part of that instrument and there are many obstacles that can be thrown in the way of any proposed changes.

Government White has one entirely new institution board to appoint—that of the penitentiary at Bemidji. The board of the penitentiary hold short terms, that expire this winter, and two of them have resigned. J. D. Moulder of Fargo resigned last summer and R. J. The board will probably be named with the view of the question involved was whether the secretary of the constitution makers engraved their location as a part of that instrument and there are many obstacles that can be thrown in the way of any proposed changes.
