

THE TRUTH ABOUT NOTHING BUT TRUTH. Hundreds of Clergymen Praise Paine's Celery Compound.

When, several years ago, New York's great Presbyterian minister made the public statement that it was due to the use of Paine's celery compound that, after a winter of exhausting work, he was able to carry on his duties through the enervating springtime with unusual ease and comfort...

The People's Tabernacle Congregational Church of Denver, Col., whose portrait appears above, says: "Gentlemen: I have used but one bottle of Paine's celery compound and am much pleased with its effect. My extreme nervousness has been diminished, my appetite increased, sweet sleep to a great extent restored. I shall continue its use."

ACT ON THE TREATIES

Reciprocity Conventions Are Urged as Very Important. ADMINISTRATION HARD AT WORK. President Regards the Tariff Situation as Critical—Conditions in Germany.

Washington, Jan. 23.—Administration forces are busy at work in the senate to hasten ratification of pending reciprocity treaties with France, Germany, Great Britain, Italy, British West Indies, Argentina and Portugal before they lapse by expiration of the limit. Waiting reports are received almost daily from United States diplomatic and consular agents in Europe, making movements among industrial, manufacturing and agricultural and exporting interests aimed at the protective tariff system of this government and the competition which United States exporters are waging in European markets.

President McKinley regards the tariff situation as critical and he will employ every influence to obtain the treaties negotiated by Special Commissioner Kasson of the state department, now waiting action before the senate. In a message to the administration regarding these reciprocity treaties as of greater importance than the ship subsidy bill, Germany is giving special cause for alarm. The latest advice state that Emperor William Imperial Chamberlain Count von Buelow and large industrial organizations have yielded to demands of the agrarians in the reboast, who favor protecting the protective tariff system of this country with a similar policy at grain, cotton, copper, breadstuffs, meats and petroleum, for which products and raw material Germany depends largely upon American exporters.

Miles May Lose His Place. Washington, Jan. 23.—The new army bill creates the rank of lieutenant general, which the president may fill by appointment. It is said that Miles has been warned that if he fails to accept the amendments to the bill, he will be removed from his command and ordered to some distant post.

Unique Curling Contest. Special to The Journal. Baraboo, Wis., Jan. 23.—There was an unusual curling contest here between the rinks of Edwin Seltek and E. P. McFarlane. When the game began playing the last lead the score was even. Mr. Seltek succeeded in getting one block in the ring and while his men were trying to place a guard over it, his opponents were doing their best to knock it out. In all the playing the one block without the ring was the only one that was in the ring.

BRYAN FEEDS THE PRESS

Bryan's The Commoner Makes Its Appearance. Lincoln, Neb., Jan. 23.—The first number of The Commoner was issued last night under the personal direction of its editor and owner. Some four or five hundred friends were present. At 8 o'clock Mr. Bryan fed his count and hat mounded the feeder's stand by the press. With the assistance of the foreman he got the first sheet down to the press, and the signal was given. The motive power was furnished by "Uncle" Jake Wolfe, a veteran democratic editor. Mr. Bryan fed a dozen or more papers into the grippers on one press and took the half-printed sheets to another, where the operation was repeated. Then he tried the folder, but gave it up. Each one present got a souvenir copy with Mr. Bryan's signature and compliments at the top of the first page.

KISSES THE GIRLS

Charge Against the President of a Female College. Jackson, Miss., Jan. 23.—There was great excitement in the town of Clinton, ten miles west of here, when it became known that Dr. George Wharton, president of Hillman female college, had departed. It has been noticed around several days that something was the matter with him, but no one could get at the facts of the case until the board of trustees met to investigate. It was known that several of the prettiest girls in the school had left for home when the trustees were talking of going. The young ladies told their parents that President Wharton had tried to kiss them. The president was summoned to appear before the trustees, but instead he took the first train to some point in North Carolina, his old home, taking his wife and children with him. The trustees had the girls summoned, and they testified that the president had on one or more occasions grabbed them as they passed along the halls, embraced them and tried to kiss them.

Omega Oil

So long as Fashion makes women wear corsets, they will continue to squeeze their bodies into shapes never intended by Nature, and they will also continue to suffer. The pain and discomfort won't be so bad, however, if they will rub themselves every night with a little Omega Oil. This relaxes the squeezed-up flesh and muscles, takes out the soreness and has a wonderfully soothing effect. The woman who wants to get up in the morning feeling fine, ought to get some Omega Oil right away and use it." Image of a woman in a corset.
