WONDERFUL CURE OF PSORIASIS.

As a sufferer for thirty years from the worst form of Psoriasis, finally cured by Cuticura Soap and Cuticura Ointment, I wish to tell you my experience, that others may benefit by it. I was so grievously afflicted that the matter that exuded from my pores after the scales had peeled off, would cause my underclothing to actually gum to my body. After remaining in one position, sitting or lying down, for an hour or two, the flesh on my elbows and knees would split, so thick and hard would the crusty scales become. The humiliation I experienced, to say nothing of physical agony, was something frightful. The detached scales would fall rain from my coat sleeves. I have read none of your testimonials that appear to represent a case so bad as mine. But as to the cure, I commenced bathing in hot Cuticura Soap suds night and morning, applied the Cuticura Ointment, and then wrapped myself in a sheet. In two weeks my skin was almost blood red in color, but smooth and without scales. Patches of natural colored skin began to appear, and in less than a month I was cured. I am now passed forty years of age and have skin as soft and smooth as a baby's. Hoping that others may benefit by my experience, and regretting that sensitiveness forbids me from disclosing my name, I am yours gratefully,
J. H. M., Boston, Mass., Sept. 30, 1900.

RETIRE THE GREENBACKS

Secretary Gage Discusses the Lending Currency Bill. Washington, Feb. 1.—Secretary Gage had an executive hearing before the house committee on banking and currency on amending the banking laws with a view to establishing an elastic currency based on bank assets. The bill introduced by Mr. Lovering of Massachusetts provides for a plan of guaranteeing bank notes, a bank guarantee fund, annual tax on notes in circulation and provisions to insure redemption.

Mr. Gage expressed his opinion that the present government note, the greenback, should be retired. He said this would strengthen the government in maintaining the parity of the metals. He was afraid the enactment of this bill would postpone the retirement of the greenbacks, which banks would become reconciled to the system.

Mr. Gage said the advantage in retiring the greenbacks would be in relieving the government of gold payments on \$348,000,000 of greenbacks and in letting some one else be responsible for the redemption.

HANNA HAS A FIGHT

He Looks After the Interests of the National Committee. Washington, Feb. 1.—Senator Hanna and the local national committee are clashing over the senator's right to erect a stand to review the inaugural parade on the Lafayette Square side of Pennsylvania avenue from the capitol. The committee wanted this site because it was the most desirable and promised to yield the largest revenue. Senator Hanna has secured it for the members of the committee and his friends, and he declined to surrender his franchise. The committee is disposed to fight, but the senator rather invites a fight.

A KNOWING HORSE

He Drove His Drunken Master to Bellevue Hospital. HE KNEW HIS OLD HOME Dashed Through Gate and Neglected Repeatedly Till the Attendants Came.

New York, Feb. 1.—What an ambulance entered the grounds of Bellevue hospital the other morning before light, carrying a patient, the gate was left open. Two minutes later a horse attached to a cab—apparently a runaway, for there was no driver on the box—dashed through the gate. The animal ran to the stable where the ambulance horses are kept and stopped in front of the door. There the horse looked around inquiringly, as if wondering why no one appeared from the stable. It neighed repeatedly. Several attendants who had seen the driverless horse enter the gate ran to the stable. The horse stopped its neighing as they laid hands upon its harness and lowered its head the way horses do when their collars are removed.

AT REVOLVER POINT

Lucius H. Grover, of Kenosha, Served With Divorce Summons. OLD FAMILIES IN A SCANDAL

Brothers of an Injured Wife Force a Dramatic Climax in Long-Standing Trouble. New York Sun Special Service Kenosha, Wis., Feb. 1.—Social circles in Kenosha were given a great shock to-day when it was announced that Mrs. Eva Grover had instituted proceedings for an absolute divorce from her husband, Lucius H. Grover, one of the best-known young men of the city. The complaint of Mrs. Grover is of the most sensational nature, and the serving of the summons which was effected at the point of a revolver at midnight, caused a most dramatic scene. For some time it has been hinted that there was trouble in the Grover family, but no one thought that a suit would bring two of the oldest and best-known families of the city into a social scandal. The Grover family is one of the best known in the city, and the Grover home had been a happy one until a short time ago when it was claimed Grover formed an attachment with Mrs. May Butterson of Chicago, who was visiting with friends in this city. It was noticed about that Grover had been indiscreet with the woman, and some two months ago the relatives of Mrs. Grover hired a detective to watch him. After several months, they secured evidence against the couple, and the summons for the divorce suit was started. Meantime Mrs. Butterson moved to Kenosha, but she was rarely seen in the company of Grover. Last night, two brothers of Mrs. Grover, George and Charles Bechel of this city, planned a coup to catch the husband. Grover left home early in the evening, telling his wife he was going to attend a lodge meeting. One of the Bechel boys followed him, and in a short time he was met by Mrs. Butterson, and the two went to the Meyers block, where a cozy suit of rooms had been fitted up. The brothers waited until a friend of Mrs. Butterson arrived from Chicago at which time, armed with revolvers, they started for the room occupied by the couple. The doors were broken down, but the men found that the room occupied by the couple was guarded by two watchmen. The men were asleep when the boys entered the room, and before they could make an outcry the door leading to the inner chamber was battered down, and, with revolvers in their hands, they demanded that Grover arise from the bed and acknowledge the service of the summons. Grover, struck dumb by his shame, fell back on the bed in a fainting condition and the woman attempted to drive the men from the room, but they remained and secured the desired summons.

BIG LOSS FOR SMALL TOWN

FORT ABERCROMBIE, N. D., BURNED

The Losses Will Aggregate \$90,000 With Insurance of About One-Half.

Fargo, N. D., Feb. 1.—The business portion of Fort Abercrombie, thirty miles south of Fargo, was destroyed by fire which is reported to have been started by an overturned lamp in a machinery house. The fire was controlled after eleven business houses had been destroyed. These include the bank, postoffice, Milwaukee station, elevator and two implement warehouses, three general stores, drug store and telephone exchange. All the business places on the south side of the main street were burned. The loss is placed at from \$80,000 to \$90,000 with less than \$40,000 insurance. The fire started in the early part of the evening and burned for five hours. There was a steady northwest wind which fanned the flames. There was no fire department and zero weather prevented much work being done by the bucket brigade. Many things were saved from the flames.

Fort Abercrombie is the earliest settled point in this part of the Red River valley and was formerly a Hudson Bay company trading station, being the midway stopping place from St. Paul to Winnipeg. More recently it was a government post during the exciting period of the Indian wars.
