

THE FIGHT ON MARQUETTE

Wisconsin's Statue in the National Capitol.

RESOLUTION TO ACCEPT

It Is Likely to Renew the Long-Standing Controversy.

COMMISSIONS IN THE NEW ARMY

President Says the Appointments Will Not Be Appointed Among the States.

Washington, Feb. 11.—The statue of Father Marquette in the capitol is again becoming the subject of congressional discussion.

The recent discovery of a supposed portrait of the missionary explorer shows him with a smooth face, while the statue represents a man with a full beard.

A further question has been raised as to the propriety of accepting the statue on the ground that Father Marquette was not a citizen of the United States.

Senator Kyle was one of the callers at the White House to-day to find out about army appointments.

The president made the positive statement that the men now serving in the Philippines would be given the first chance for re-appointment regardless of state lines.

After them will come the veterans of the Spanish war, who want to re-enter the army, and then the appointments from civil life.

All applicants will have to pass a rigid mental and physical examination. Senator Kyle has selected several Spanish war veterans for recommendation.

He will revise his list in accordance with the president's determination.

Pardoned by the King. London, Feb. 11.—Mrs. Florence Elizabeth Maybrick, the American woman, will be released from Aylesbury prison.

Admirable Work of Colonel Edmund Rice of Minnesota.

ISLAND OF PANAY PACIFIED

His Unrelenting Labor Transforms Completely a Hot Bed of Insurrection.

THE FEELING IS MUCH TOO BITTER

It is Feared That Kitchener Needs the Reinforcement of 30,000 Men.

New York, Feb. 11.—A special to the Tribune from Washington says: The large island of Panay, of which Iloilo is the chief port, has been one of the most vexatious hotbeds of insurrection in the whole Philippine archipelago.

Most of the officers on duty throughout the fourth district, department of the Visayas, have had little or no sympathy with anything relating to civil government.

At last Colonel Rice's aid, Lieutenant G. R. D. McGregor, Twenty-sixth infantry, whom the district commander had put in charge of civil affairs last April, through acting as counsel before a military commission in defense of some newspaper publishers charged with publishing seditious articles, won the friendship and respect of the most clever and influential clique of the island of Panay.

These were men of wealth, education and travel, and called themselves "neutrals."

The officers of the Twenty-sixth infantry had toiled unrelentingly to bring about peace and prosperity on the island.

But on Nov. 22 last, Apollonia de Desma, one of the clique, decided to take the oath, and on the following day hundreds of Iloilo citizens of all classes surged about post headquarters endeavoring to swear allegiance.

Two days later Molo followed suit, and the oath was quickly run into the thousands.

Colonel Rice telegraphed all over the island, announcing that the ice had been broken, and that Jarro and Molo had fallen into line.

On Monday Dec. 21, the rebels of Iloilo taken in Panay showed a total of 25,884.

This absolute change of front has a deep significance. These people now are coming over to the Americans with a rush, and they are warm, too, in their enthusiasm.

With the island of Panay becoming Americanized at the rate of 1,500 a day, the end is in sight.
