

PURIFY CHICAGO

Mrs. Nation Reaches the Wicked City This Afternoon.

SHE WILL CALL ON THE MAYOR

Downtown Saloons Will Receive Calls, Though She Does Not Intend to Smash.

New York Sun Special Service

Chicago, Feb. 12.—Mrs. Carrie Nation and her band of hatchet armed followers will arrive in Chicago to-day. The visit of Mrs. Nation will start an era of reform in Chicago. The fact that Mrs. Nation is backed by the national prohibition party has not been brought into prominence.

The first event of Mrs. Nation's visit is the lecture at Willard hall this evening. Wednesday morning Mrs. Nation will go to the city hall to tell her opinion of the virtue of Chicago to Mayor Harrison and to speak Chief Kiple. She will lay down the law from the Kansas standpoint. She will visit several prominent downtown taverns, not with the intention of wrecking them, but to sow the seed of temperance reform.

Mrs. Nation's address to women only at Willard hall Wednesday afternoon is expected to start an agitation against saloons which will be permanent.

BARRICADE THEIR STORES

Druggists at Vermillion, S. D., Fought a W. C. T. U. Raid.

Special to The Journal. Vermillion, S. D., Feb. 12.—Encouraged by the success of the women in the neighboring town of Meckling, who compelled Druggist William Tise to box up his stock of liquors and ship them out of the town, the W. C. T. U. of this place were planning a raid on local drug stores. They were to be aided by their Meckling sisters, who were to come over under the leadership of Mrs. George Vogan and Mrs. Mary Chemistry. A traveling man happened to overhear a conversation between a Vermillion and a Meckling woman on the train between the two towns, in which they discussed the details of the proposed raid. On reaching Vermillion he lost no time in forming a druggist friend of what was brewing. The information caused consternation among the druggists, as Vermillion boasts some of the finest stores in the state and a successful wrecking expedition would cause the loss of thousands of dollars.

The officers were appealed to for protection, but would not promise it. The stores were barricaded and men placed on guard to give warning of any hostile movement. The women, hearing that their plans had become known, decided to postpone the raid. They say they have not abandoned it, however, and intend to wreck the stock and fixtures of every druggist in Vermillion who will not ship out his liquors and pledge himself to discontinue the sale in the future.

WAR ON THE SALOONS

Kansas Temperance Union Issues a Proclamation.

Topeka, Kan., Feb. 12.—Secretary Stephens of the State Temperance Union, has issued a manifesto in which he says: The officers and executive committee of the state temperance union hereby recommend and urge immediate, energetic and persistent law enforcement action in every part of the state, following the example of the citizens in Topeka, Holton and other cities.

The hour for action has come. Let it be at once and in the most orderly and determined manner, without riot, bloodshed or destruction of property. If, under existing conditions, the people are to be saved, let us join and simultaneously, every joint and questionable resort can be banished from Kansas.

Let ministerial alliances or local temperance committees take the initiative. Organize. Unitedly demand of the officers the immediate, the absolute, the uncompromising enforcement of the prohibitory law. Prepare for the primaries. Look well to the election of trustworthy officials, both municipal and county. The principal work of the state temperance union is educational.

MOLE HILL IN KANSAS

Senator-Elect Burton Discusses Mrs. Nation's Crusade.

New York, Feb. 12.—Senator-elect Joseph R. Burton of Kansas said in an interview: It is a matter of surprise to the people of Kansas that so much notice is paid to Carrie Nation by the eastern papers. She is a mole-hill in Kansas and a towering peak in New York. We have put the badge of illegality on the saloons in Kansas, and when the people get tired of them they can close them up. When it comes to smashing them, however, Mrs. Nation has no more legal right to attack them with an axe than she has to constitute herself judge and jury and attack anything else.

Ring the Alarm Bill

Holton, Kan., Feb. 12.—Word was circulated through town that Mrs. Hicks, whose joint was raided Saturday, has been selling liquor again. The news was spread and a large crowd immediately assembled at the Methodist church. A committee was sent to the place and found beer, whisky and gin, which was turned over to the city marshal. Mrs. Hicks signed an agreement to close up her place.

FREE CONSULTATION EXAMINATION MEDICINES. IF YOU TAKE TREATMENT THIS DOCTOR WILL CURE YOU TO STAY CURED. ON THE INSTALLMENT PLAN. If unable to pay all down for a cure, then you may pay whatever you can spare, and the balance in weekly or monthly payments, to suit your circumstances. Minneapolis Private Institute, 102 Third St. S., Opposite Postoffice, Minneapolis, Minn. Office Hours, 10 to 8:30, Sundays, 2 to 5.

CAN HE MAKE GOOD?

Ex-Gov. Lee First to Be Summoned Before Investigating Committee.

'Twas HE WHO MADE CHARGES

Fusion Appointees to Be Hauled Over the Coals As Well As Republicans.

Special to The Journal.

Pierre, S. D., Feb. 12.—Of the seven members the populists have two, which is largely in excess of what they would be entitled to according to the numerical strength of that party in the legislature. The disposition of the majority, however, was for an absolutely fair investigation, one that would appeal to the people as being just and eminently proper. The action of the fusionists in the senate in opposing the investigation placed them in an undesirable light before the public, but it must be said to the credit of Mr. Martin that he was not present when his colleagues voted to smother the matter and he states he would have voted the other way.

The committee has begun work by issuing a large number of summonses for personal appearance. The first man summoned was Governor Lee. No formal summons was served upon him on account of his former position, but he was sent a telegram inviting and requesting him to attend as a witness and to assist in the hearing. Should he refuse to come he will be subpoenaed in due form. The committee will prosecute its work with the utmost vigor and it is expected any man expects to be whitewashed by it will be sadly undeceived. The fusionists and Governor Lee will be given every opportunity to establish their charges, and on the other hand the fusion appointees will be made to give an account of their stewardship. Only the charitable and noble institutions and their workers home will be included in the investigation, in accordance with the provisions of the joint resolution.

The bill for the regulation of building and loan associations that was introduced in the senate by Mr. Overstreet of Lincoln is somewhat drastic in its provisions, and is likely to meet the opposition of managers of these institutions. Among other things it takes from the hands of the companies the right to fix fines and penalties for nonpayments and establishes these charges rigidly at 30 cents per share. If a member withdraws after one year and before two years he shall receive back what he has paid in, less his annual dues. If he withdraws after he has been a member for two years and before four years, he shall receive back what he has paid in with 5 per cent interest, and if he withdraws after four years and before maturity of his stock he shall receive his principal and interest in full. If the association is not in condition to meet its obligations a receiver shall be appointed. There is also a provision that the secretary of state shall make an examination each year. The bill in many respects is similar to the one introduced two years ago.

Senator Martin has introduced a bill for the taxation of mines that contemplates a radical departure from the present mode of assessing the tax. The law in force in Montana. It is lengthy, but its main feature is that the mines shall be taxed or rather valued for taxation on their net product. Mr. Martin argues that the product of the mine, once it is separated from the soil, becomes personal property, the same as the products of the farm.

Those who profess alarm that the present legislature will make extravagant appropriations may possess their souls in peace. And republicans who believe the record of the party will be viewed in the light of the appropriations and judged thereby, have more to fear from possible parsimoniousness than from possible extravagance. It is true that all manner of deficiencies and claims are being allowed for the payment of getting them out of the way, some of them having been in existence since the first years of statehood, but beyond this there is more of a disposition to get the appropriations too tight than too loose. Of course, there is talk that the appropriations will be extravagant, just as there was two years ago, but notwithstanding the talk of two years ago the matter of appropriation was not once raised during the recent campaign, or if raised was soon dropped because the people could not be made to believe that it is any part of statesmanship to starve the public institutions or to curtail the public expenses beyond a reasonable point.

On the other hand, the people take pride in their institutions and are much more likely to resent an attempt to cripple them than they are to find fault because the institutions have been liberally provided for. The fusionists of four years ago found this out to their sorrow, and the state has ever since been paying bills that have been contracted for things running. And because the fusionists made ill use of the funds appropriated two years ago for the insane hospital and created deficiencies in every institution that will be paid by his state, it does not necessarily follow that it is wisdom on the part of the republicans to punish the public for the mistakes of their opponents. The state cannot afford to take a backward step.

Senate bill No. 23, which has passed both houses, is a fair example of the special character of a large part of the pending legislation. It provides that holders of five shares of stock may become directors of state banks. There is nothing whatever vicious in the bill, and it may fill a long-felt want. It was called into being to meet the views of a banker who wanted to establish a branch bank in one of the towns of the southern part of the state and who wished to take the ten shares of stock necessary to become a director. The legislature being in session, he caused the bill to be prepared and it passed, thus relieving him of his embarrassment.

The W. C. T. U. is interesting itself in six pending measures and proposes to push them to a successful conclusion if possible. As outlined by a circular issued by the union, these measures are: Statutory prohibition; the resubmission of female suffrage; to raise the age of consent from 15 to 18 years; to compel the appointment of two women on the boards of charities and corrections; ditto the board of regents of education; under the education bill to strengthen the scientific temperance instruction law, to provide for compulsory physical education, and compulsory humane education; to prevent the sale of tobacco to minors under the age of 20, and to make it a misdemeanor for a minor under 20 to be seen smoking. Of these measures

THOUSANDS OF WOMEN HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT.

To Prove what Swamp-Root, the Great Kidney Remedy will do for YOU, Every Reader of The Journal May Have a Sample Bottle Sent Free by Mail.

Among the many famous cures of the cause of your trouble. My sister, Mrs. H. N. Wheeler of 117 High Rock St., Lynn, Mass., writes on Nov. 2, 1900: About 18 months ago I had a very severe attack of sickness. I was extremely sick for three weeks, and when I finally was able to leave my bed I was left with a very lame back, my back. My water at times looked very like coffee. I could pass but little at a time, and then only after suffering great pain. My physical condition was such that I had no strength and was all run down. The doctors said my kidneys were not affected, and while I

Did Not Know I Had Kidney Trouble, I somehow felt certain my kidneys were the cause of my trouble. My sister, Mrs. Littlefield of Lynn, advised me to give Dr. Kilmer's Swamp-Root a trial. I procured a bottle and inside of three days commenced to get relief. I followed up that bottle with another, and at the completion of this one I was completely cured. My strength returned, and to-day I am as well as ever. My business is that of canvasser, I am on my feet a great deal and I have to have to use much energy in getting around. My cure is, therefore, all the more remarkable, and is exceedingly gratifying to me.

MRS. H. N. WHEELER. Swamp-Root will do just as much for any housewife whose back is too weak to perform her necessary work, who is

MRS. H. N. WHEELER.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. So when your kidneys are out of order you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince any one.

Many women suffer untold misery because the nature of their disease is not correctly understood. They are led to believe that womb trouble or female weakness of some sort is the cause of the many ills that beset womanhood. Neuralgia, nervousness, headache, dizziness or dark circles under the eyes, rheumatism, a dragging pain or dull ache in the back, weakness or bearing down sensation, profuse or scanty supply of urine, with strong odor, frequent desire to pass it night or day, with scalding or burning sensation—these are all unmistakable signs of kidney and bladder trouble.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick dust settling or if small particles float about in it, your kidneys are in need of immediate attention.

Other symptoms showing that you need Swamp-Root are sleeplessness, dizziness, irregular heart, breathlessness, salivary, unhealthy complexion, plenty of ambition but no strength.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in it the greatest and most successful remedy that science has ever been able to compound.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one dollar bottles at the drug stores everywhere.

NOTE—Swamp-Root, the great Kidney, Liver and Bladder remedy, is so remarkably safe and effective that management has been made by which all of our readers who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about kidney and bladder troubles and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. Be sure and mention reading this generous offer in The Minneapolis Daily Journal when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

ures that one which provides for statutory prohibition has already been killed.

Senator Johnson of Douglas county, the author of the bill to reduce the maximum rate of interest to 10 per cent, is himself a banker and popularly he is probably have been disappointed if his measure had been taken seriously. It was killed by a large adverse vote and nothing has been heard since of getting the thing done, however, when the unceremonious slaughter of such a bill would have raised a big row in the chamber and when oratory poured out in its defense. The bill was destroyed by fire that started about midnight. The loss will amount to about \$500,000, and it is believed to be covered by insurance known in an area of 300,000 feet was burned over. An overheated furnace is believed to have started the fire. H. C. Frick, president of the National Glass company, was not certain that the company would rebuild.

SHOW OFF PORTO RICO Attractive Display of Its Products at the Pan-American.

Correspondence of The Associated Press. San Juan, Feb. 12.—The Porto Rican exhibit at the Pan-American exposition at Buffalo will include coffee, sugar and tobacco, in the hope of making Porto Rican products known in the United States. It is the intention to construct a typical kiosk, built according to the style of Porto Rican houses, made exclusively of native woods and bark. In this kiosk Porto Rican coffee will be served free. Local musicians with their peculiar musical instruments, will probably give concerts in the kiosk.

GOMEZ WINS Eligible to the Presidency-Relations With the United States.

Havana, Feb. 12.—The followers of General Maximo Gomez triumphed in the Cuban constitutional convention. The clause making him eligible to the presidency of the republic was adopted by a vote of 15 to 14. There was no discussion.

ST. CYR CONVICTED Scion of Prominent Canadian Family May Hang at Dawson.

Seattle, Wash., Feb. 12.—The steamer Dolphin arrived from Alaska last night with news that George St. Cyr, a member of a well-known Canadian family, has been found guilty at Dawson of the murder of H. Davis and has been sentenced to the gallows. An appeal will be taken.

An Innovation. The Louisville & Nashville railroad, together with its connecting lines, has inaugurated the Chicago & Florida Limited, which is a fast, solid train, well equipped, steam heated, gas lighted, with dining car service for all meals en route from Chicago to Thomasville, Ga., Jacksonville and St. Augustine, Fla. The train leaves Chicago over the Chicago & Eastern Illinois tracks at 11:05 a. m., running via Evansville, Nashville, Birmingham and Montgomery. Plant System to be used until a later date, but when it is settled it will be as near right as it is possible to make it. There will be no juggling with figures, but of course the republicans will take advantage of every reasonable opportunity to establish districts that will give their party the advantage, when this can be done without working a hardship upon or defeating the will of the resident voters.

One of the pending claims against the state is that of Fred T. Evans, the Black Hills pioneer. Mr. Evans was a bondsman for the man who took the contract to erect the soldiers' home at Hot Springs. The contractor, after doing a small amount of work, jumped the job and Mr. Evans finished it. Some changes were made in the plans by the officials representing the state, which changes, according to the
