FIGHT THE PARK BOARD

Teamsters Are Thinking of Abolishing It.

Among the measures that the Hennepin county delegation in the legislature will be called upon to promote, will be a bill having in view the revision of the rules governing the park board, and the measure may be of such a sweeping character as to ask for the abolishment of this branch of the municipal government.

The proposed bill will be formulated by attorneys employed by the transfer companies and teamsters of the city, who insist that the action of the park board in excluding their wagons from the boulevards is arbitrary, and that under the constitution, they have the right to use the streets as common carriers. In case the bill fails to go through, the right of the park board to prevent teams from driving on certain streets will be tested in the courts.

In this connection it is proposed to form an organization, and a uniform rate for hauling and packing will be established.

The proposed bill will contain a clause providing that when it becomes necessary to kill a diseased horse or other animal, the owner will be partially reimbursed by the state, thus making it an incentive for persons to report all cases and reducing the danger of infection to a minimum.

There's Nothing Like Facts.

Solid facts are the best advertising. Here's one: We sell more pianos than any other two houses in Minneapolis. Why is this? It is because we make big claims and big hullabaloo? Is it because our pianos are better than any other pianos on earth? Certainly not. We make no extravagant claims in our advertisements. The reason we do this very large business is that we prove to the piano purchasers that we can and do save money for them. That's the whole secret.

We buy pianos in large quantities, of course. We pay spot cash for them; this gives us low rates and the top discounts. We don't have to make our profit from the purchasers. If other houses bought our way they could sell our way. But they don't. New McPhail, Crown, Sterling and Huntington Pianos, cash or \$10 monthly.

A GAME OF CHANCE

TOWN TALK

Charles Gluck has been elected vice president of the German-American bank to succeed the late Otto Henrich.

J. C. Gibbons will deliver an address on "Motions in Parliament," before Division No. 7, A. O. U. W., at the Grand Central Hotel, to-morrow evening.

The Northwestern Railway Club will meet at the West Hotel to-night. It was erroneously stated yesterday that the meeting would be last night.

Dr. Charles Bayard Mitchell will lecture to-night in St. Paul on "The Prize-Taker," at 7:30 p. m. in the North Church, Camden Place, on "My Ideal Boy."

THE OPPOSITION IS GROWING

A Few Glaring Examples of the Inequalities of the Assessments.

The opposition to the taxes imposed under the Lake Minnetonka improvement tax is growing. The law was passed to provide funds with which to pay damages awarded to farmers living along Minnehaha creek for injuries to their property by the construction of the Gray's lake dam. A few days ago a movement was started, as outlined in *The Journal*, to fight the law. Then there were but two reasons advanced for fighting it. That number has since been increased, and probably a meeting being held at Markville to-day to organize the forces against the law will discover several other reasons.

ORLANDO ALMOST WORSTED

Commercial Wardle was entertaining a few friends gathered around him at the Commercial Club the other day, with stories of personal experiences on the road. During the conversation the production of Shakespeare's plays came up for discussion, and some one asked Wardle where he got his wrestlers to match with Orlando in "As You Like It." Wardle replied that they were picked up from town to town as the company journeyed along, some one in the company being chosen to speak the lines.

"But," he said, with a smile, "when I was playing Orlando we were carrying a wrestler with us as a member of the company. One evening as the wrestler wrestled with our cue he came on the stage aggressively full, and in the set-to Orlando was grabbed with a vigorous half Nelson. The pair struggled to and fro for the supremacy. At the time when the wrestler was accustomed to 'play' he was thrown, he refused to let go.

"Now, lie down," said I in a stage whisper.

"I won't do it," replied the wrestler solemnly, "I am going to throw you into the orchestra."

"The situation was complicated by the fact that the wrestler was perfectly able to do it, but after being coaxed and urged in a becoming undertone, he compromised by sitting down."

LOYAL LEGION BANQUET

Distinguished Guests Present—Captain Henry Castle Speaks.

The banquet of the Minnesota commandery of the Loyal Legion, held last evening was attended by 100 members of the order and their wives and friends. Governor Van Sant, Mayor Ames and Council General Goodnow were among the guests. Excelsior Hall was one of the speakers. Captain Henry Castle delivered the principal address of the evening, his subject being "The Typical American." He paid an eloquent tribute to the martyred president.

The hall was decorated in national colors and the orchestra program was composed principally of martial numbers. Major Henry G. Hicks presided as toastmaster.

TO BE DEPORTED

Dependent Immigrants on Their Way Back to Europe.

Special Agent Gates of the department of correction, left last evening for the east, taking with him six former inmates of Minnesota institutions. Two of them were foreigners who recently arrived, and became insane after their arrival. The other four were recently mentioned in *The Journal*. One was a Norwegian who was sent to St. Peter from Minneapolis. They will be returned to their native countries. Each of them is one of them at the expense of the steamship company, the other at government expense. The other patients are being delivered to their cities, where they are properly charged.

A BENEFIT TO THE N. W.

Conscrip Law of Sweden Causing Increased Emigration.

Mayor Johnson, of Fargo, writes from Gottenburg, Sweden, that the new conscript law forcing all able bodied men between the ages of 21 and 25 to do military service, will result in many of the young men leaving the country in quest of a better life in America. A great many of them will settle in the northwest, being attracted here by the fact that many of their countrymen are now residing in the northwest and doing well.

HOUSEKEEPERS' MAGAZINE.

Housekeepers will find the February number of Good Housekeeping full of sensible suggestions. Mrs. Julia Ward Howe gives her ideas of what constitutes good housekeeping for people of moderate means, and she tells us how to get the most out of our domestic school about what is being done to solve the help problem. Isabel Gordon Curtis writes of George W. Cable and the Smith college girls in their remarkable achievements for home and school. Herbert Myrick presents an article on "Natural Methods in Education." Receipts and menus are numerous and there are some pretty fashion illustrations.

DOUGLASS REFUSED.

"Bishop" Ginner of St. Paul yesterday refused the attorney general to have the order for a receiver of the defunct Order of Minnehaha vacated, the books returned to him, and the concern set on its feet so that he might again resume business. Attorney General Douglas refused the request of "Bishop," referring him to the courts if he wished any relief.

OPPOSITION TO ANCKER.

A vigorous fight is being made in St. Paul against the retention of Dr. Ancker as head of the city hospital. His term expires in a few weeks. He has held the position for eighteen years. The objections against him are said to be based largely on his professional rather than his financial management of the institution. It is claimed that he has not the backing of the medical fraternity of St. Paul.

REMEMBER THE CHARITIES

HAVE MANY APPLICANTS FOR WORK

Between House Cleaning Seasons There Is Less Work—Help of Many Kinds Available.

At this time of year it is difficult for the Associated Charities to supply all applicants for work with something to do. This is especially true concerning the help of many kinds available for work from men who really want something to do and who will not apply to the city for aid until every other means of obtaining subsistence is exhausted. The society feels that many people do not think of telephoning to its office in the Window block when they wish help. Almost anything in the way of labor such as delivery clerks and men to run elevators, carpenter jobs, and furnace tenders can be supplied at any time. There is no more scarcity of employment than last year, but between house cleaning seasons there is much less to do.

The Associated Charities has issued a little card containing the following rules for applicants to obtain employment.

Spent eight hours each day looking for work. If you had a position you would expect to work that many hours at least.

Be clean, a neat dresser, finger nails clean and smoothly shaved.

Remove your hat as you approach to make your request.

Fumes of tobacco or liquor in your breath will usually be fatal to your request.

Expect to find work at every place you apply.

Never get discouraged, or if you do, be careful not to show it in your face.

Never plead poverty or necessity. Stand on your merits.

Never advance your plea as an argument for being hired.

Carry a spelling face.

HOW TO RETAIN EMPLOYMENT.

Be prompt in your attendance to business hours.

Try to see how much you can do, and how well you can do it, regardless of your wages. Be courteous to every one at all times.

WHAT PROPERTY OWNERS SAY.

Some of the Minnetonka property owners seen within a day or two had not received their lists of dues had not acquired property recently they were unable to determine whether there was anything unjust in the tax as far as their property was concerned. Among these:

PRIZES FOR EGGS

More Poultry Show Awards—Exhibition Closes To-night.

The large attendance at the poultry show justified the extension of the time to include to-day. The exhibition closes to-night. Schroeder of St. Paul was awarded first prize for the best dozen white eggs laid by single combed, white leghorns. Mr. W. W. Wilder of St. Paul was awarded first prize for the best dozen eggs in the Wyandotte class and Harry Schlatter of Paribault, Minn., was awarded first prize for the best dozen brown eggs laid by black langshans.

DEADLOCK IN NEBRASKA IS NOT YET BROKEN.

Lincoln, Neb., Feb. 13.—The peace efforts of the republican majority in the Nebraska legislature, split into factions and in a deadlock for over four weeks over the election of two senators, failed dismally last night in the first endeavor to hold a caucus. Opposition to the caucus sprang from the announcement of a caucus of a dozen republicans, who refused to caucus as long as D. E. Thompson, of Lincoln, the leading candidate for the short term, remained in the field.

After one ballot, which showed practically the same results as the senatorial voting in open legislative session, the anti-Thompson faction bolted the caucus, signed by ten members, that they would disregard all caucus calls until Thompson withdraws from the race. The republicans have only a small majority on joint ballot and without the recalcitrants there can be no election.

DISORDERS MAY GROW

Fear That the Trouble in Madrid May Become Serious.

Madrid, Feb. 13.—There were turbulent demonstrations here throughout the day notwithstanding the governor's edict bidding assemblages and ordering gatherings of the people to be dispersed. Gardarmes charged and scattered some of the gatherings. Mounted police guarded the principal squares, and the streets are patrolled.

Reports from the provinces indicate a spread of the excitement, the chief cause of less disorder elsewhere than in the capital.

Whispered rumors, which are not supported by tangible facts, say that Madrid is on the verge of a civil war.

WANT HIM GUNSHOT.

"It seems to me that the attempt of the temperance people should be called to the notice of Teddy Roosevelt."

"How so?"

"Why, haven't you noticed the vigorous way in which he has been rushing the government?"

"EDDIE, THIS LAST SHINE PLATE YOU PAINTED IS AWFUL."

"Now, never mind about that, Eddie; I'll give a wash party one of these days."

E. H. R. Green, son of Hetty Green, and railroad man and politician of Texas, said in St. Louis the other day: "I have retired from politics at the request of my mother. She has no use for politics or politicians. I think she is right."

WHEELER DEFENDS NOYES

Judge's Private Secretary Makes a Few Remarks.

A. K. Wheeler, Judge Noyes' secretary, who is at present in Minneapolis, laughs at the report from San Francisco that the decision of the United States court there in the McKensie contempt case means trouble for Noyes or that the federal authorities must now "take up Noyes' case." He says there is no connection between the vague charges against the judge and the charges against McKensie. Mr. Wheeler thinks that the San Francisco court went out of its way to attack Judge Noyes. As for intimations that the judge sold decisions, Mr. Wheeler doesn't see how such a thing is possible in jury trials. Mr. Wheeler thinks there is a chance for Mr. McKensie to appeal.

England Concedes Russia's Right to Exercise Supervision Over the Group.

Velvet, Gold Lace and Ermine

King Edward's Costume to-morrow at the Formal Opening of the Parliament.

New York Sun Special Service

Moscow, Feb. 13.—The dispute between the British admiral, Seymour, and Admiral Alexiev of Russia's navy as to the suzerainty of the Blonde islands, has been amicably settled and there is no fear of any further complications. It has been agreed that Russia has a right to exercise supervision over the islands and that Admiral Seymour's contention that he had gone thither to capture pirates was unfounded, as no pirates exist in the group.

To Receive the Powers.

Shanghai, Feb. 13.—According to the North China Daily News, the Chinese say the acceptance of the conditions of the powers by the Chinese plenipotentiaries was merely a blind and that a large force of Chinese is proceeding to Tai Yuen-fu to oppose an expected allied expedition.

Chinese Charge Robbery.

Tientsin, Feb. 13.—One month after the occupation of Tientsin the French and Russian consuls raised their flags over salt heaps belonging to the private merchants of the salt guild, and offered to sell the property back at three-quarters its market value, \$5,000,000. The merchants have sent protests to Paris and St. Petersburg.
