SHIRT WAISTS AT A DANCE

Fifteen Men Attend in Dancing Party Wearing "Ragians" Instead of Hammer Tails.

A club of thirty couples has been holding very pleasant fortnightly dancing parties since last fall at Mrs. Nobles' dancing hall, but last night was without a name. A shirt waist party was proposed, as a novelty, and this costume was prescribed for the men as well as the women. The men entered fully into the spirit of the affair and sent to Chicago for the requisite shirt waists. The result fully justified the expectations and the trouble of getting the waists, for the men never appeared to better advantage than in these cool waists. In attractive colors, with which were worn white turned-down collars and bow ties. Likewise, they never seemed such a comely group as before, while dancing, and as a result of the experiment, an official costume, of which a shirt waist is an essential part, has been adopted and also the name of the Shirt Waist club.

It will be of interest to the men considering shirt waists to know that those worn were all of the Raglan pattern. Music for the party was furnished by Miss Dayton and a buffet supper was served.

NOVES MAY REPLY

There Will Be No Investigation of the Cape Nome Judge.

CHARGES WILL BE SENT HIM

McKenzie Case Will Be Taken at Once to the Federal Supreme Court.

Special to The Journal.

Washington, Feb. 21.—On the highest authority I am able to make a definite announcement of the program which will be followed by the government in Judge Noyes' case. To begin with, President McKinley will not undertake to pass on the merits of the case, or even to review it. Everything in connection will be referred to Attorney General Griggs. The attorney general will steadily resist to the end the demands of the anti-Noyes men in Washington that Judge Noyes be dismissed from the bench without a hearing. Later he will draw up the charges that have been made against Judge Noyes and they will be taken to Cape Nome by the first boat in June. Judge Noyes will be asked to make a written reply to the department of justice and not until this reply has been received will the president and the attorney general take any steps in any direction of determining whether the charges are true. Mr. Griggs will not be in the cabinet after March 4, but his policy will be followed by his successor.

It is also charged that the paving contractors would be sure to take advantage of the opportunity to give the paving-by-day-labor system a black eye by putting in bids calculated to exaggerate the actual difference between the paving-by-contract and by the present system.

The first and third assistants are left as now. This is to take effect April 1. The press of the state without regard to faction expresses the hope that some way can be found that will out of the man's stay in prison short.
