The dizziness and faintness from which women suffer may be due to one of several causes. But the most common cause is disease of the delicate womanly organism. The story of Mrs. Brown, told in her letter below, gives a fair example of the conditions under which so many women work: "I had a sick headache nearly all the time, was so weak around my waist could hardly bear any

"A few years ago I suffered severely with female weakness and had at times dreadful pains," writes Mrs. Mary V. Brown, of Creswell, Harford Co., Maryland. "I went to my doctor, and he gave me medicine which did me good for a while, but I would get worse again. I had a sick keadache nearly all the time; was so weak around my waist could hardly bear anything to touch me. My feet would keep cold and I could hardly do my work. I would work a while and then lie down a while; was completely run down. Suffered from disagreeable discharge and also severe pains at times. After using five bottles of Dr. Plerce's Pavorite Prescription, three of his "Golden Medical Discovery' and one vial of Dr. Pierce's Pleasant Pellets, and following the advice you gave regarding the 'Lotion Tablets,' I can truly say that I am cured. The doctor said it was uterine disease I had."

Much Gowning and Eating.

New York, Feb. 26.-In an address before the woman's conference of the So-ciety of Ethical Culture, Dr. Felix Adler

What looms up as of most conspicuous importance in the average home are the luxuries of life and the delicacies of fare, Luxury in the home is poison to the child in that home. Mothers who have young children, and mothers should have young children the greater part of their lives, should not spend all their time garmandizing and gowning and in going to matinees. They should be taught that education is one of the greatest of the grand things of life.
