

**I DO NOT TREAT ALL DISEASES BUT CURE ALL I TREAT. SPECIALIST CURED.**

**THE DISEASE**—An enlargement of the veins of the scrotum, causing a knotted or swollen appearance of the scrotum most frequently.

**ITS CAUSE**—Often a result of colds, sometimes blows, falls, strains, excessive horseback or bicycle riding or excessive dissipation.

**ITS EFFECT**—A dull, heavy, dragging pain in small of back, extending down through loins, low spirits, weakness of body and brain, nervous debility, partial or complete loss of view, and often failure of general health.

**ITS CURE**—If you are a victim of varicocele, come to our office and let me explain to you my process of curing it. You will not wonder that I have cured so many cases of varicocele during the past twelve months. Under my treatment the patient improves from the very beginning. All pain instantly ceases. Swelling quickly subsides. The pools of stagnant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of the disease and weakness vanish completely and forever, and in their stead comes the pride, the power and the pleasures of perfect health and restored manhood.

Surprising Pulwood Cut in Northern Districts—Shippers and Vessel Men Talk Rates.

Special to The Journal.

Duluth, Minn., March 9.—Cold weather succeeded the thaw of late last week, and the hauling is not hindered as it was at one time feared. The roads are in magnificent shape, too, and the loads are immense and frequent. Logs are being rushed in at the fastest pace known yet.

Woodsmen are said to be somewhat dissatisfied and some of them are demanding more money now that they are reaping the benefits of the season. They are pretty well in hand, and will not be greatly bothered. Two weeks more of this weather and the bulk of the operators will be out of the woods and waiting for spring work. The operators will be fairly amount of snow, and the streams will be reasonably high if the breakup is sudden, but all except railroad loggers want more snow.

The Diamond Match company will commence logging in this section before long, and is now making a trade for about 20,000,000 feet of north shore pine. If the deal is closed the loggers will go in this year. The company proposes to have a lot of timber in this region before long. The Duluth Match company, too, is looking for timber and will make some purchases shortly. Several cruises are out for this concern. Logging operations for the company will begin soon, as its factory will be in operation this summer.

**Indiana Girl's Charge Against Her Sister—She is Finally Rescued.**

**New York Sun Special Service.**

Indianapolis, March 9.—Several days ago Grace Robbins, a highly respected young woman living a few miles from Scottsburg, went to Alexandria, where her sister, Mrs. Emma Ford, resides, to have her assist in selecting and making her wedding gown, arrangements having been made for her marriage to Emos Pleasant. She alleges that instead of receiving a sister's care and attention her ticket and her money were taken from her and she was compelled to marry a man whom she had never met before, Dee Harlin.

She also alleges that she was kept a prisoner and she was forced by threats to accept him for a husband, and she thinks that she was drugged until she was semiconscious. She alleges that after the marriage she was detained as a prisoner, but she finally succeeded in secretly mailing a letter to James Shearer, her guardian.

Mr. Shearer and Sheriff Everett went to Alexandria and protected her while she prepared for her trip to her home. Harlin followed them, but the girl was guarded by police officers and finally he went away without her.

**ALLIS COMPANY TO BE INCLUDED**

**Plant's Value Approximately at \$50,000,000. Are Expected to Be in the Combine.**

**New York Sun Special Service.**

Chicago, March 9.—Manufacturers of mining machinery and of stationary engines are discussing the formation of a combination embracing companies whose plants are valued at approximately \$50,000,000. This combination is to control the output of American mining machinery and will be able to fix prices.

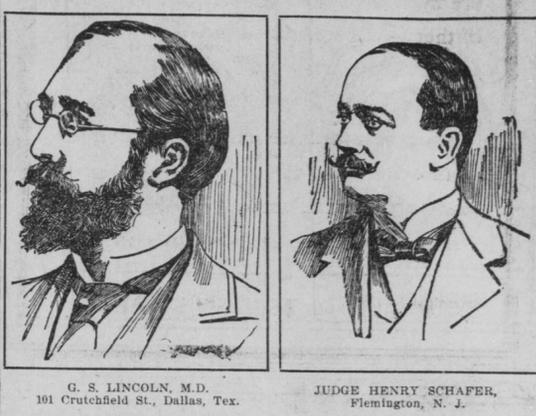

It will consist of nearly all the companies manufacturing mining machinery and stationary engines in the country, with the exception of those in the International Steam Pump company. The Edward P. Allis company of Milwaukee, Fraser & Chalmers and the Sullivan Mining Machinery company of Chicago are among the largest companies expected to enter the combination. Charles Allis, the secretary of the Edward P. Allis company, it is said, will be the president of the new concern.

J. B. Allen, manager of the Edward P. Allis company's office in this city, while admitting that the organization of a machinery trust had been discussed, declared some time ago that the formation of a combination of machinery trusts had been discussed, declared some time ago that the formation of a combination of machinery trusts had been discussed.

**STRANGE MENTAL POWERS.**

**How People Are Influenced.**

**Startling Words From the Committee Appointed To Investigate Hypnotism for the Benefit of the Public.**

Hypnotism is no longer a myth, a fanciful creation of the mind, but a reality, a most potent power, capable of producing infinite good. For the purpose of ascertaining the exact value of this much-talked-of power a committee composed of a physician, a well-known minister and leading railroad man was appointed to investigate Hypnotism.

The committee carried on a series of investigations in regard to the power of hypnotism to influence the actions and deeds of people in the everyday walks of life. The first step taken by the members of the committee was to master the science in every detail, so that they might state from personal experience the good or evil of Rochester, N. Y., the greatest school of Hypnotism and Occult Sciences in the world, and received full and complete instructions in regard to how hypnotism may be used to influence people in business, how to use it in treating diseases, etc., etc. In a few days they mastered these instructions and were fully-fledged hypnotists.

It was clearly demonstrated that hypnotism may be employed so that the person operated upon is entirely unconscious of the fact that he is being influenced; and all things considered, the committee regards it as the most valuable discovery of modern times. A knowledge of it is essential to one's success in life and well-being in society.

Dr. Lincoln says, after a thorough investigation, that he considers it the most marvelous therapeutic or curative agent of modern times.

Judge Schaffer, although a legal light, turned his attention to healing the sick, and in a few treatments he completely cured John E. Myers, of Flemington, N. J., of a strange malady that had kept him bedfast for nine years, and which the doctors said must surely kill him. Judge Schaffer's fame spread for miles around, and hundreds of people applied to him for treatment.

Mr. Stouffer performed the astonishing feat of hypnotizing Mr. Cunningham, of Pueblo, Col., at a distance of several blocks. He also hypnotized an aged gentleman, and had him run through the streets shouting "Red-hot peanuts for sale."

Rev. Paul Weller says that every minister and every mother should understand hypnotism for the benefit they can be to those with whom they are brought in daily contact.

In speaking of this marvelous power, President Eliot, of Harvard College, said to the graduates: "Young gentlemen, there is a subtle power lying latent in each of you which few of you have developed, but which, when developed, might make a man irresistible. It is called Personal Magnetism or Hypnotism. I advise you to master it."

The New York Institute of Science has just issued 10,000 copies of a book which fully explains all the secrets of this marvelous power and gives explicit directions for becoming a practical hypnotist, so that you can employ the force without the knowledge of any one. Anybody can learn. Success guaranteed.

The book also contains a full report of the members of the committee. It will be sent absolutely free to any one who is interested. A postal card will bring it. Write to-day.

**WOULDN'T BELIEVE IT**

Gibson Was Incredulous When News of His Election Reached Him.

Special to The Journal.

Helena, Mont., March 9.—Never a candidate for United States senator, Paris Gibson of Cascade county, was the most surprised man in Helena when apprised of his selection. He was sleeping soundly in his room at the Helena hotel while riot prevailed in the legislative halls of the assembly. Other candidates were there with their friends in force. Gibson had no special interest in the result for he had no idea lightning would strike him.

When a committee called and awoke him after the adjournment Gibson was incredulous. He thought it a joke and the bolsterous legislators who wrang his hands felt no returning degree of warmth.

Gibson is the founder of the Gibson Paper & Printing Co., which has large smelters. It is believed he will be favorable to the Amalgamated company because it is the main support of the late Senator Gibson opposed W. A. Clark and caused the senatorial deadlock. Two years ago he was for Clark. This time he apparently had little interest in the contest.

**GET STONE ANYWHERE**

**New York Quarry Law is Declared Unconstitutional.**

New York, March 9.—The court of appeals declared unconstitutional the law passed at the instance of labor organizations requiring stone for public works to be quarried in this state. The opinion says:

It is a regulation of commerce between the several states, which the legislature has no power to make. The manufacturers of other states have the right to resort to the markets of this state for the sale of their products, whether they be stone or any other article which is the subject of commerce. The citizens of this state have the right to enter the markets of every other state to sell their products or to buy whatever they need, and all interference with interstate commerce is void.

**Varicocele**

Varicocele is an accumulation of sluggish blood in the veins of the scrotum, due solely to imperfect circulation, and has its origin in a diseased and torpid prostate gland. Operations in this disease are only temporary, and no mechanical device yet discovered has cured a single case. Grand-Solvent dissolves the prostate and restores healthy circulation. Varicocele disappears and the sluggish accumulation is replaced by pure, healthy red blood. Thousands of men stricken with weakness and despondent were cured and restored by the St. James method last year. A vast army of men in whom the light of life has penetrated through the frightful nightmare of stricture and seminal decay.

Revolution in Colombia is Interfering With Trade.

New York, March 9.—General Raphael Uribe-Uribe, a leader of the Colombian revolutionists now in this city, says in a statement:

We have received reliable news of at least four serious engagements in which the insurgents have had the advantage. The revolutionists are employing tactics similar to the Boers. The army which was sent to the front and tortures women, children and old men. Trade has come to a complete standstill. The price of a pair of shoes is \$70, a chicken \$7, a pound of meat \$4, and so on.

**New York Sun Special Service.**

Wilkesbarre, Pa., March 9.—The prospects of a strike of the anthracite miners now is more remote than at any time since the inception of a joint conference of the operators and miners was issued. A way will be found for avoiding both a strike and a joint conference.

It is understood that the president John Mitchell of the United Mine Workers has solved the problem, and that he is acting on an understanding with the men in control of the railroads and the mines. The zinc company was incorporated in West Virginia about two years ago and capitalized at \$1,000,000. Most of the stock was sold to persons who paid almost a dollar a share for it. It is barely possible that they could now get 5 cents a share.

The company is said to own two mines in Joplin, Mo. One piece of the property, consisting of 110 acres, is situated in the Blue Wing mine. Three gentlemen from Joplin, Mo., bought the company. A year ago, March 9.—Chicago investors. It is said that heavy losses by the failure of the International Zinc company, which has just gone into the hands of a receiver.

**Rich Uncle Forgives His Niece's Marriage Against His Wishes.**

New York, March 9.—Mrs. Rebecca Wagner, 71 years old, who lives in modest apartments at 2554 Eighth avenue, learned to-day that \$90,000 in the Bank of England was hers if she could prove that she was the wife of a certain German, who died in London many years ago.

To punish his niece, who had married against his wishes, Braun let it be understood that she was to receive \$100,000. Instead, however, he made a forty-year trust of more than \$300,000, which was to be invested for her. The money was to go to Mrs. Wagner at the end of forty years.

Mrs. Wagner came to America in 1870. She was a poor woman, and her richer relatives in Germany lost all trace of her in some weeks ago.

**STATE SCHOOLS SUPPLIED**

**Majority of Contracts Awarded to Fairbault Dealers.**

Special to The Journal.

Fairbault, Minn., March 9.—The state board for defectives met yesterday to award the contracts to the various bidders for the supplies for three months for the three state schools—the school for the deaf and the school for the blind.

The agreement with the bidders that usual and one of the most remarkable phases of the whole matter is the large number of items carried off by the local dealers, which tend to prove what has been asserted before, that under the system of purchasing for all the institutions at once the local dealer has the best chance, even though he is not given the preference, as under the board of control system.

Lyman Tuttle, Fairbault, secured the meat contract in competition with Swift, Armour and Cudahy, being on the whole number of items \$52 lower than all the others. The Fairbault Roller mill obtained the contract for flour at \$3.30 per barrel, against the Washburn-Crosby Milling company of Minneapolis and the Hastings Milling company of Hastings. E. F. Kelly of Fairbault carried off thirty-one items in groceries. The Theopold Mercantile company of Fairbault got ten, Griggs & Co. of St. Paul sixteen; Griggs, Cooper & Co., St. Paul eleven; A. J. Grant, Fairbault, six; Lindenberg & Roell, Fairbault, three; Steele & Wedeles, Chicago, three; Minnesota Soap company, St. Paul, three.

**CRANSON'S CASE**

**Goodhue County and Jackson, Mich. Authorities Cannot Agree.**

Special to The Journal.

Red Wing, Minn., March 9.—The authorities of Goodhue county and of Jackson, Mich., are scheduled to have trouble this city by R. Backwell, superintendent of poor of Jackson, who claims that beside caring for the man, Goodhue county must also pay traveling expenses. The local authorities are willing to give Cranston aid, but object to paying the railroad fares and incidentals and it is on these that the difficulty hinges.

The board of managers of the training school has elected the following as officers: Vice president, W. S. Krise; superintendent, J. W. Brown; assistant superintendent, B. A. Davis; secretary, George H. Albee; treasurer, First National bank, Red Wing.

Miss Minnie Gull, 18 years old, daughter of Mr. and Mrs. A. C. Gull of Goodhue, died yesterday morning.

Andrew Haskin, died Thursday morning of heart trouble. He was 39 years old. His wife, one son and his parents survive him.

**LONG USED BY THE NATIVES OF Southern California, Cascarine.**

Made from the bark of a plant that grows in Southern California and on the South Pacific Coast. The bark was held in such high esteem by the natives that they named and described it as "Sacred Bark," and was used by them in the cure of chronic constipation, liver, stomach and bowel troubles. Investigated by the German botanist, Frederick Pursh, introduced as a medicine in 1877 by Dr. Bundy of California, and was made the object of special investigation by Doctors Pearce and Hanson in the United States; in France by Doctors Landowski and Durand; in Belgium by the Cochin Hospital; in England by J. J. Thomson, O. P. McElmeel and H. B. Gislason, and denied for Iowa by H. B. Nolan, K. W. Morse and H. E. Spangler.

**HELPLESS.**

The man trussed up so that he can neither move hand nor foot is in his helplessness a fair type of many a man affected by rheumatism. Often the disease is only partially disabled, and with crutch and cane the sufferer hobbles painfully about.

Rheumatism can be cured by the use of Dr. Pierce's Golden Medical Discovery. This great blood purifying medicine eliminates the poisons which cause the disease. It increases the activity of the blood-making glands, and so increases the purity and abundance of the blood supply, thus giving vigor and vitality to all organs of the body which depend for their health on plenty of pure blood. It builds up the body with firm flesh instead of flabby fat. The "Discovery" contains neither alcohol nor narcotics.

"I had been troubled with rheumatism for twelve years, so bad at times I could not leave my bed," writes Mr. J. J. McKnight, of Colesburg, Williamsburg Co., S. C. "I was badly crippled many times, and two of them gave me up to die. None of them did me much good. The pains in my back, hips and legs (and at times in my head), would nearly kill me. My appetite was very bad. Everything I saw me said I must die. I took five bottles of the 'Golden Medical Discovery' and four vials of the 'Pelle's,' and to-day my rheumatism is good after suffering twenty years with rheumatism."

Doctor Pierce's Pleasant Pellets assist the action of the "Discovery."

**IOWA WINS ANOTHER**

**Minnesota Debaters Lose by Two to One at Iowa City.**

Iowa City, Iowa, March 9.—The decision of the judges in the eighth annual Iowa-Minnesota debate, was 2 to 1 in favor of Iowa. The turning point was the definition of the term personal property tax. Iowa has won six of the eight debates won held.

The presiding officer was Judge C. E. Deemer of the supreme court of Iowa. The judges were Sidney A. Foster of Des Moines, President C. E. Shelton of Simpson college, Indianola, Iowa, and Professor Stockey of Coe college, Cedar Rapids.

The question discussed was that it is unwise for the states to attempt to tax income and property, which was affirmed for Minnesota by J. J. Thomson, O. P. McElmeel and H. B. Gislason, and denied for Iowa by H. B. Nolan, K. W. Morse and H. E. Spangler.

**London Merchants Anticipate the Expected Tax.**

**New York Sun Special Service.**

London, March 9.—Merchants are eagerly buying up sugar in the expectation that the budget will impose a duty of a half penny a pound on that commodity. Such a tax would realize £5,000,000.

The duty is expected to be in regard to the sugar in the hands of the Manchester and Northern road and the Minnesota Iron company and stayed in them at Houghton, the hotels being overcrowded.

**A DAY'S DEVELOPMENTS**

**Two Candidates for Governor and One for Lieutenant Governor.**

Special to The Journal.

Des Moines, Iowa, March 9.—Yesterday was marked by rapid developments in the political situation. John Herriott of Stuart, ex-treasurer of the state, announced himself as a candidate for governor, also Senator James H. Trewin of the Rockwell mines; Captain H. Roberts of the Kimberley mines; George C. Howe, Edwin Ball, G. C. Brown, W. H. Keyes, A. H. Abbe, managers, and Messrs. Clark and Unger of the Minnesota Iron company's mines. D. E. Woodbridge of the Iron Age; J. A. Redfern, manager of the Penobscot; and H. J. Wensinger of the American Mining company. They went to the cars of the Duluth, Missabe & Northern road and the Minnesota Iron company and stayed in them at Houghton, the hotels being overcrowded.

**BURIED TREASURE**

**Two Southerners Come North on a Wild Goose Chase.**

Winona, Minn., March 9.—A story comes from the village of Homer, six miles east of this city, to the effect that two strangers from Kentucky are at the present time engaged in a search for buried treasures.

It is said these men tell the old story of an old man who had relatives who, when he was about to die, told the Kentuckians that at one time he and two others had robbed a train on the Milwaukee road. They were closely pursued and hid their treasure, amounting to some \$5,000, in a cave.

**French Actress Has Another Adventure in Louisiana.**

**New Orleans Sun Special Service.**

New Orleans, La., March 9.—Eight miles from the city and within half a mile of Lake Pontchartrain, Madame Bernhardt participated in her first alligator hunt. She returned with a six-foot "gator" as her prize.

Chen is alleged to be the manager of the Coquelin, Maurice Bernhardt, son of the death of Ed. Edward J. Rodriguez of this city; several members of the Bernhardt-Coquelin company and four guides.

**WILSON'S MEN**

**Militiamen May Refuse to Swear Allegiance to King Edward.**

Montreal, March 9.—The Federated Trades and Labor Council has adopted a resolution protesting against the action of the city council in voting \$10,000 to entertain the duke of Cornwall at "beating the drum" the money might be better spent in establishing a free library or home for incurables.

This is deemed to be an intimation that the masses of the people are not likely to be so complaisant in their submission to King Edward VII. as they were to Queen Victoria. It is expected that when the spring drills are begun many of the members of the militia will refuse to re-enlist and swear allegiance to the king.
