IN PRISONER'S GARB Frank H. Hamilton is Convict No. 5,585 in Stillwater Prison.

The gates of Stillwater prison closed behind Frank H. Hamilton yesterday afternoon. His identity is now merged with that of the silent army of criminals expiating their offenses against society in the penitentiary. During his imprisonment he will be known to the prison officials as No. 5,585, the figures being stamped in large black characters across the blouse front of the checked gray uniform of the second grade prisoners. He is 282.

He was at once measured by the Bertillon system, and when his hair was closely cropped by the prison barber, a little later, here but slight resemblance to the young man who had entered an hour before.

The reports of the Hamilton's physician, Dr. Stone, at the prison's state of health, will probably have him fit for hard labor for the present. He knows something of bookkeeping and is an expert operator on a typewriter. Hamilton's duties will be definitely agreed upon today.

PERIOD OF SELF-DENIAL

SALVATION ARMY PLANS FOR ONE

in the Interests of Prairie Homes and Missions in Foreign Lands.

The Salvation Army has decided to begin a "special century self-denial campaign," March 15. The plan is to have a special day before the public are the prairie homes for city poor and the home and heathen missions.

Tucker prairie home plan for removing the married poor of cities to land colonies is now intelligently understood by the American public. The Salvation Army officers believe the effort to develop the scheme worthy of generous and cordial support. In addition to the start off given the colonists themselves, a sanatorium and a large home for orphan children are being erected in the promising colony in Colorado.
