DAMS CARRIED OUT

Flat River at Lowell, Mich., Is the Highest Ever Known.

ELECTRIC LIGHT DAM GOES OUT

Floods at Other Places in Michigan—Colorado Has Another Storm.

Lowell, Mich., March 27.—The dam, which furnished power for the municipal electric light plant, eight miles above here, on the Grand river, gave way this morning. It is feared the dam just above the village will also go out. Citizens here are preparing for great damage when the water sweeps by the village.

The Flat River flows into the Grand at this point, is the highest ever known, and business firms and families are moving off the low lands, which are flooded.

The Grand river is within seven inches of its highest watermark.

St. Joseph, Mich., March 27.—For the second time this spring the factory district between this city and Benton Harbor is flooded. The river, which is higher than for many years, continues to rise and apprehension is felt regarding the bridges.

Tonia, Mich., March 27.—The high water here is reaching an alarming point and is steadily on the rise. It is nearly up to the railroad bridges.

The three dams along Maple river have gone out. The dam at Carson City went first. This carried the Hubbardston dam, and the water did \$2,000 damage in that village. The Matherson dam was the third to go. The water is over the highway and both sides of the upper bridge.

ANARCHY WILL PREVAIL

CUBANS WILL REVEL IN LOOT

Representative Warner Predicts an American Intervention After Ninety Days.

New York, March 27.—Representative Vespasian Warner of Illinois, who has just returned from an extended tour through Cuba, believes the constitutional convention will accept the Platt amendment, says a Washington special to the World. Mr. Warner said:

We must, of course, turn the island over to the Cubans, but it is a crime against humanity to withdraw at this time. When our troops leave the island you will witness a reign of lawlessness which will startle the world and compel us in the name of justice to take matters into our own hands. The Cubans will sign anything or do anything to get us away from their property, and when they have the reins in their own hands you can expect the worst.

From what I can learn they will assess everybody with any money, and have a division of the spoils. They will drive all Spaniards and American sympathizers from the island, and for a brief period will revel in loot. Law and order will become a mockery and a state of anarchy will reign.

It is foolishness to talk of the Cubans governing themselves at this time or for years. The island must become ours eventually, and it seems a shame to undo all of the progress made in two years. We will have to intervene within ninety days and set up a protectorate again to begin the work of reconstruction anew.

S. D. EDUCATIONAL BILL

SEN. WILLIAMSON DISCUSSES IT

Discrimination Fought by a Pierre Correspondent Will Not Hold, He Says.

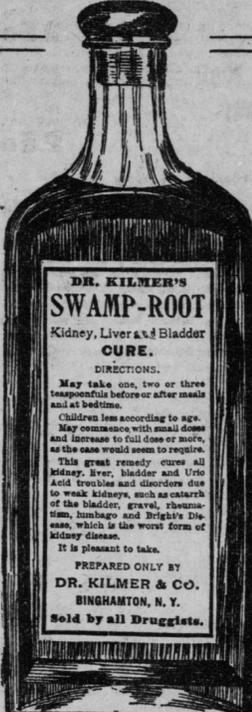

Special to The Journal. Sioux Falls, S. D., March 27.—While in the city yesterday, J. H. Williamson, of Madison, state senator from Lake county, was asked in regard to the statement recently sent out from Pierre to the effect that the new educational bill, through an error of the engraving force, or otherwise, provides that graduates of sectarian colleges of the state shall be allowed state teachers' certificates, while those of the state institutions receive only first grade certificates. Senator Williamson was instrumental in shaping the bill, and an attempt has been made to hold him responsible for the error in the bill. He said:

I think there is nothing in the charge. I made the amendment to place both state and private colleges on an equality, and presume that that amendment appears in the law as written. However, I can't be sure of that until I see the new session laws.

But even if the Pierre correspondent is right and through a clerical error an apparent advantage is given by the new bill to the private institutions, such a discrimination is not the law and it will not hold. The repealing clause of the act as passed reads as follows:

RAZED BY HIGH WINDS. Special to The Journal. De Soto, Iowa, March 27.—The drying sheds of the McKinley & Kyle brick yards were blown down by high winds and damaged to the extent of \$1,000. Part of the structure had not been completed. It will be rebuilt at once.

MORE TRAINMEN JAILED

HUNDRED IN MEXICAN PRISONS

Americans Will Demand That the Mexican Law Be Amended.

Special to The Journal. El Paso, Texas, March 27.—A second crew of Mexican Central trainmen were thrown into jail at Juarez, Mexico, charged with murder, because a Mexican was accidentally killed.

Five days ago Engineer Kelly and two American brakemen of a Mexican Central freight train were arrested under similar conditions, and they may be held for an indefinite period. While their train was pulling out of a small station a Mexican tramp tried to board it and fell under the wheels. They knew nothing of the accident until they reached Chihuahua, and they were not arrested until their return to Juarez.

Members of the Order of Railway Conductors will demand through the state department that the Mexican law be modified by treaty. Nearly 100 American trainmen are now in jail throughout Mexico for indefinite periods.

GOLD SEAL Champagne

Attention was called to the matter a few years ago by one of the Vanderbilts, who attempted to sell some of the property, to which he claimed to have a clear title. He compromised for \$600,000, but the heirs are now seeking to set aside the compromise. There are 925 heirs.
