During the trial the wife, Hale's mother-in-law, testified that she had waited for the court to assess his fine. When the straight sentence was announced he was surprised. He secured a stay of sentence of five days in \$100 bonds.

New Plumbing—All the plumbing fixtures in the Federal building are to be replaced with modern fixtures. The present plumbing was put in fourteen years ago and has been in use for eleven years. It is about twenty years behind the times. An inspector has authorized the changes, as the work will be paid for out of the general appropriation for the maintenance of public buildings. Sealed proposals will be received at the office of the custodian of the public buildings, at 15, at 2 p. m., and then opened for bids at the plumbing according to the specifications on file.

There's Money in It—The postmaster has been ordered to send to Mrs. Benton in Chicago which she has reached. It was sent to the dead letter office, opened and returned to Minneapolis for delivery. As only one letter was addressed to her, the postmaster is unable to ascertain who the sender is. The letter is referred to parents, Marie's picture is referred to "Gene, Anson and Louis having typoid." The motive was the change in the name which will aid the possible officials in finding the owner of the valuable emblems enclosed. They think that this item will reach the eye of "George."

THE LAMPERT LUMBER CO.

FROM MANKATO TO MINNEAPOLIS Probable That Several Other Lumber Companies Will Follow Its Example.

The Lampert Lumber company will move its general offices from Mankato to the Lumber Exchange in this city on Friday of this week. This company owns twenty-three lumber yards in Minnesota and Wisconsin and comes to Minneapolis for the reason that it is a more convenient point for purchasing and furnishing improved facilities for handling business. The fact that the lumber companies as well as many other wholesale and manufacturing concerns require the best facilities possible in meeting competition attracts them from the rural northwest to the city of Minneapolis. In the next few years it is probable that several of the lumber companies of Wisconsin and eastern Minnesota will follow the example of Lampert in this city. The tendency toward centralization is having its effect and Minneapolis is benefiting by it, as the large concerns naturally gravitate to the metropolis.

A SPANIEL'S LONG FIGHT.

He Had Been Deprived of Food for Twelve Days. Hartford Times.

The endurance of a cocker spaniel, the property of Fred Warren of West Newton, Mass., which finished a long fast in good condition, having been accidentally deprived of food for twelve days, is remarkable. The dog was a favorite of Mrs. Warren, who died several weeks ago. It was shortly after Mrs. Warren's death that it was discovered that she had left her clothing to the home of her own family, the Wadsworths, of Hillside avenue. The spaniel, who had grieved much since the death of his mistress, followed it. It was after a plain had been found for the late Mrs. Warren's effects that the spaniel sought his way, unnoticed, to the room. Within a day or so the Wadsworth family locked their house and left for California. Twelve days later some members of the family had occasion to go to the Wadsworth house. Upon entering the room where Mrs. Warren's effects had been left they were surprised, but much pleased, at finding the dog. His imprisonment and hunger had seriously affected him, but a successful effort had been made to revive him. He received every attention, and promises to pull through. His adventure has won for him a warm spot in the hearts of all who have heard the story. The family say he will never go rattlesnake again.

RATTLESNAKE POISON AND LEPROSY

Dr. Adolphe Mercedès de Moura, of Sao Paulo (Brazil), contributes a paper on the application of rattlesnake poison to the cure of leprosy to "The German Medical Weekly Journal." This poison has been used for a long period by the natives for the treatment of skin diseases and even leprosy. Many wonderful cures of leprosy through rattlesnake bites having been reported to him, Dr. de Moura set himself to make investigations. He experimented with the poison in fifteen lepers, and he has come to the conclusion that the lepra tubercula, if not complicated with other disease, is curable by its means. The publication of Dr. de Moura's paper has created much interest in the matter in medical circles. Professor LeWitt, of Berlin, discusses the subject in the same number of "The Weekly Journal," and he contends from a "priori" consideration that the rattlesnake poison is not a true antidote, nevertheless he admits that it may have a temporary effect on the disease, and considers the matter worthy of investigation.

OMAHA'S STEEL BUYS

Concludes a \$114,000 Real Estate Purchase.

HENRY H. SMITH SELLS IT

Forty-two Lots Change Hands—The "Omaha" is Preparing for the Future.

Deeds will be filed to-day or to-morrow conveying a large amount of property in North Minneapolis from Henry H. Smith to the Omaha, St. Paul, Minneapolis and Omaha railway. This property includes all the land lying between Seventeenth avenue N. and Twentieth avenue N. and between First street and the river, in all the blocks six lots, or about four blocks of ground. Mr. Smith has also sold to the same railroad company adjoining property lying between Sixteenth and Seventeenth avenues N. and between First street and the river, six large lots in all, which were not figured on in the original purchase. The money paid for all of this property was \$114,000, a figure which represents one of the largest real estate transactions in recent years. Other property in the vicinity of that described has either been purchased or is under option to the railroad company, and this, with the purchase from Mr. Smith, will give the Omaha about seven blocks of ground for additional trackage.

A large addition will be built to the present freight house and some new tracks will be laid, but these improvements are all that are contemplated this season. The big block of steel was bought with an eye to the future, and it will not be improved until traffic conditions in Minneapolis demand it. The Smith lands by no means represent all the Omaha's purchases of North Minneapolis realty. Nearly as much more ground is included and the expenditure of money in North Minneapolis this season by the Omaha will approach \$500,000.

BASSETT'S CREEK RISES

TWO GORGES ARE FORMED

Unless Heavy Rains Follow No Serious Damage Will Result, However.

Bassett's creek is beginning to feel its first stream which usually means that the water is coming down from Keegan's lake to the Mississippi, has assumed a fierce aspect which bodes ill for anything that stands in its way. The stream is coming down from the north and the severer creek can never tell whether it is about to rip things up generally or whether it will subside quietly after the spring freshets. The depth of water at Sixth avenue N. is about three feet and there is now about a foot of ice at the bottom. The creek runs along on top of the big sewer which extends from the northwest to the river. Under the tannery and knitting works it comes within four feet of the keystone of the arches. Yesterday the water came up and gorged under Dupont avenue, which is planked over. It was necessary to tear up some of the boards and remove the obstruction. Workmen are now replacing the planks in the northwest Fifth and Sixth avenues, which have been cut off. The street has been shut off from traffic for several years. A gorge has formed on the upper part of the creek, and the overflow from the creek has backed up on the low places along its course, forming little lakes. Unless heavy rains come it is probable that the creek will carry off the water without disturbing the underpinning of buildings which are built over the stream all the way from Dupont avenue to the Mississippi.

APARTMENT HOUSE NAMES

Their Unfitness Makes Some of Them Very Ridiculous.

New York Commercial-Advertiser. "It's really embarrassing to tell any one where one lives in these days of absurdly named apartment houses and hotels," said the little woman with the silver purse and the pearl-gray card case, saying so to an acquaintance. "Do come to my apartment house, or if I'm staying at the Castle of Capri or the Castle of Chillon." Why one of my friends lives in a house called the Seaside, and another in the Castle of Capri, I can think of that name when I am writing to her. I usually call it the Waterloo or the Crimea or the Moscow. The January production of the class of 1901, North High school, will present the three-act comedy, "A Pair of Spectacles," by Sydney Grundy, Friday evening in the assembly hall of the school. Predictions That the City Will Cave in From Overtop Weight.

There was nothing about him to indicate the crank.
