REGAN'S BREAD

Children delight in going after "Regan's Bread," because they can get a nice picture with every loaf sold on THURSDAYS.

Don't Accept a Substitute

for Regan's Bread: every dealer in Minneapolis can supply you with Regan's Bread if he wants to; many do not want to because they buy cheaper bread and force it onto you, thereby making a LARGER profit than they make on Regan's Bread.

This is the plain truth: dealers naturally push the most profitable goods, but if you pay for GOOD butter, you can insist on getting it, and if you pay the price (5c) for good bread you should insist on getting good bread and if you want good bread, the best bread, get Regan's.

Regan's Bread is good bread because it has to be good bread to suit the thousands of critical housekeepers who buy it daily.

RAY AND M'GINNIS

Minneapolis Men to Be Tried at Princeton for Safe Cracking.

Special to The Journal. Princeton, Minn., April 3.—District court is in session, Judge Searle presiding. The most important criminal cases on the calendar are against W. L. Greenough and Joseph Sawyer, indicted for criminal assault; Edward Veal and George Stanley, indicted for assault in the second degree, and Harry Ray and George McManis, two Minneapolis men indicted for grand larceny in the second degree for cracking a safe at Foreston, this county. The following outside attorneys are present: Sylvester Kipp of St. Paul, Turner and McMillan of Minneapolis, and Reynolds, Stewart, Taylor and Gorman of St. Cloud.

GREGORY SUCCEEDS CUSICK
Special to The Journal. Lewis, S. D., April 2.—The new state inspector of mines, Thomas Gregory, commenced his duties to-day. James Cusick, who has been holding the position for the past two years, will devote his time hereafter to mining. There has been a remarkable freedom from death and accident in the mines of the Black Hills.

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishes and fosters in a sluggish, nervous, and impure blood, the source of all ailments, and imparts new strength and vitality to the old inane blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence.

The Blood is the Source of All Strength

sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antiseptics and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old inane blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

The moon was on the clover,
And the bloom was on the rye;
When I heard a mermaid calling
With a shrill and bitter cry.
I stopped to listen to her,
And the burden of her lay
Was "Buy your hat at BARNABY'S
In time for Easter Day."

MINNETONKA

Owing to the deprivations of the small boys with their air guns, reinforced by unprincipled sportsmen, many of the native song birds are becoming nearly extinct, and only by careful work can a number of the species be preserved. The Improvement League, at its meeting last night, ordered printed and posted in conspicuous places, 100 copies of the state law relating to the destruction of song birds. A vigorous watch will also be kept by the authorities and any violations of the law will be promptly punished.

BURIAL OF A BONIFACE
E. V. Cole of the Earling, Spencer, Iowa, April 3.—The funeral of E. V. Cole, proprietor of the Earling hotel, was held at the Methodist church yesterday afternoon. The sermon was by Rev. Mr. Smiley, presiding elder. The business men attended in a body and all places of business were closed. Mr. Cole was widely known and highly respected. He leaves a widow, three sons and one daughter.
Spencer has had one case of what was termed smallpox. The patient was the 11-year-old daughter of Mr. and Mrs. F. W. Sprague, and she has recovered without the aid of medical assistance. There are four other small children in the family, none of whom has been affected. Clay county has, by a vote of the people, adopted a system of county uniformity in school books. The board of supervisors, superintendent and auditor, constitute the county board of education and are charged with the duty of selecting the books. Publishers are making the acquaintance of the board with a determination that suggests a snug contest.

INFANTS ELOPE
South Dakota Boy of 16 and a Girl of 14.
Special to The Journal. Bryant, S. D., April 3.—An elopement case is reported from north of town. Frank Leisure, 16 years old, and Gertie Clark, 14 years old, went out riding Sunday and failed to return. The parents, becoming suspicious, started an investigation, with the result that the runaway couple was located at Elkton, S. D. The sheriff took the boy and girl in charge, and they will return to papa and mama. The Hall murder case, which was continued from the March term, will be heard April 9, when a change of venue will be asked for. Judge Gaffey of Pierre will preside at the hearing.

RESERVOIR FILINGS
Chamberlain's Office Rejects Them and Pierre's Accepts.
Special to The Journal. Chamberlain, S. D., April 3.—The officials of the United States land office in this city continue to refuse to accept filings for land on the Sioux reservation under the reservoir act. Many such applications are being made but are rejected on the ground that the reservoir act does not apply to the lands west of the river. The act provides that entries under it can be made on any of the public domain not otherwise appropriated. The officials here base their decision on that part of the act opening the great Sioux reservation, which specifies that it shall be subject to homestead entry only.
An appeal for a test case was made from this decision about two years ago to the interior department, but so far no opinion from Washington has been rendered.
The officials for the Pierre district have given an entirely different decision as to the reservoir act, holding that it does apply to the Sioux reservation, and they have accepted all filings offered.
The opinion of the secretary of the interior is anxiously awaited.
Attorneys assert that the act is ambiguous in terms in other respects also. For instance, no provision is made for obtaining final title to reservoir lands, and it is claimed by some that the person so taking land can have the use of it only until such time as homestead entry shall be made. The land cannot be fenced or exclusively appropriated by the person making the filing, and free access to the waters held by the dam must be allowed to all stock on the range. If this interpretation of the law is correct, about all the act allows is the privilege of going on public land and building a dam and erecting ranch buildings, the water held by the dam and the land itself being common property.
