MEAD AND SWENSON IN LUCK

Speculation as to Plankinton and Redfield—New Places for Republicans.

Special to The Journal. Yankton, S. D., April 6.—The supreme court decision of the South Dakota legislature and the appointment of Water-ton legally appointed commissioners of charities and corrections is expected to result in the transfer of the South Dakota institutions to the republicans within a short time.

The result of the fight will prove a great victory for the former superintendent, and will take with it an additional power and responsibility if the policy of the new board giving the superintendent supreme authority in the appointment and removal of all the other officers of the asylum is carried out.

O. S. Swenson will be appointed warden of the state penitentiary. He has had his slate for under officers made up ever since the meeting of the legislature. His appointment will cause a revival of feeling in republican circles, but as he has been long under discussion for the place the edge has somewhat worn off from the situation.

Who is likely to secure the places at Redfield, which are a duplicate of those at Yankton in salary and power, is difficult to tell. Dr. Alfred of Huron who was a dark horse candidate for superintendent of the insane hospital, may be appointed to the Redfield job.

SELL AT OLD PRICES

Lumber Movements Still Heavy in the Aggregate.

SHIPMENTS TO BEGIN EARLY

Mill Men Ready to Start Up—Large Deals in Stumpage Brewing.

Special to The Journal. Duluth, Minn., April 6.—There have been sales of lumber this week at old prices. These have been in most cases small, but they have footed up several million feet. Swallow & Hopkins sold several million feet of Norway, to be cut this year, at a strong price, and Alger Smith & Co. sold 2,000,000 feet of No. 3 and better white pine.

The freight rate has been the talk of late, and there are rumors in force at \$2.50 to Ohio ports and Buffalo. This is expected to be the going rate, and with this and the longshoremen's wages settled, there is little to bother the shipper.

Mill owners are figuring on the date of starting up. Most of them have overhauled their mills as much as they will, and are ready. Most of the mills have stocks of logs at hand, either left over or brought in by rail during the winter, and can start as soon as conditions are right.

There are still some logs in the woods, especially in the northern part of the county where the woods are deeper than here, and last longer. It is reported that snow in the northern end of the county is four feet deep.

Swallow Hopkins, at Fall Lake, have not completed their logging, but will stay at work till they have their expected 25,000,000 feet, which will be shortly. They have a large share of the lumber, all the white pine and part of the Norway, and will run the mill day and night all summer.

Log hauling on the iron roads from points over which one must traverse, will be shut off in about three weeks on account of the heavy snow.

The Merrill Ring interests here have invested in some Pacific timber and will proceed to work it up at an early date. They are associated with Michigan men in the enterprise.

The Alger Sullivan company is proceeding rapidly with its northern Florida timber and mill projects, and will be operating very heavily in the summer, big Plomaton mill, on the Escanaba river, will be up at the earliest possible date.

They are building a 30-mile road into the timber and are erecting the mill frames, which will be 60x300 feet in size. Two double cutting telescope band mills will give a tremendous sawing capacity, when fitted with the best quality of machinery, all of which will be of the best and most rapid type.

Mrs. Camp witnessed the affair. Camp received an ugly gash in the forehead.

MURDER OF HUSBAND

State Makes a Strong Case Against Mrs. Hossack.

Des Moines, Iowa, April 7.—The state has rested its case in the Hossack murder trial at Indianola, with reservation of the right to introduce important evidence later. The defense began the examination of witnesses to-day. The trial will consume nearly all the coming week. There is strong circumstantial evidence against Mrs. Hossack, and it has been shown she and her husband lived unhappily. The undershirt worn by Mrs. Hossack was bloodstained. Expert testimony introduced by the state was damaging to the defense.

Yellow King Cigar

Your best cigar. The king of its class. "77" OHIN IN

To keep the chin in, means to keep it well drawn back horizontally. That causes what physical culturists call, "a lifted chest." A lifted chest insures deep and full breathing, and hence, pure blood and perfect circulation.

COLDS

Most Colds are caused by checked circulation, known by a chill or shiver. Dr. Humphrey's "77" starts the blood coursing through the veins until it reaches the extremities, when the feet warm up and the Cold or Grip is broken, while its tonicity sustains the flagging energies.
