

IN THE REALM OF MUSIC

The third and last concert of the Philharmonic Club, which was postponed from April 10, will take place Friday evening at the Wesley church. The chorus numbers 125 voices, and has been in active preparation for this concert for two months. The fact that Mr. Ober-Hofer, through the musical director, and the management are endeavoring to give Minneapolis the opportunity of hearing the best musical works in the best manner, is proved by the fact that the club will sing two cantatas, Mendelssohn's "Elijah," "Praise" and Goring Thomas' "Swan and Skylark." Both of these works will be given with a large orchestra and are exacting upon the chorus. The principal parts, of soprano and tenor, will be sung by Madame Lucille Tewksbury of Chicago and George Hamlin, who have both enjoyed national reputation in their interpretations of the solo work in "Swan and Skylark." The contralto part is in the hands of the well known local contralto, Miss Nye Soddard, and Chaucery E. Fisher will sing the tenor part. Everything has been done to make this the concert of the season. While the associate membership is over 1,000, the club will have a few desirable seats which may be secured at the Metropolitan Music company's box office on and after Monday.

Very few artists have ever received greater praise from the metropolitan critics than given Maud Powell at her appearance in February in Carnegie hall. Miss Powell is no stranger in Minneapolis and much interest has been roused by the announcement that she would appear with the Apollo Club Tuesday evening, April 23. The club is fortunate in having this brilliant artist for its closing concert. Extra sittings may be secured at the Metropolitan Music company's store.

Hamlin H. Hunt will give his eighth free organ recital in the Wesley church Wednesday evening, April 24, at 8 o'clock. His numbers will be selected from the programs he will give this summer at the Pan-American exposition. He will play "The Grand Chorale"; "The Swan"; "Saint-Saens"; "Fugue in A minor"; "Flat Lux"; "Let There Be Light"; "Duo"; "Allegro in F major"; "Opus 81"; "Gullmatt"; "Berceuse"; "Nevin"; "Scherzo"; "Roussseau"; "Toccata"; "Fifth symphony"; "Widor"; "Gothique suite"; "Boellmann"; "Overture to 'Euryanthe'"; "Weber"; "Scott Woodworth" will sing "Lend Me Your Aid"; "From Gounod's 'Queen of Sheba'"; "King David's Prayer"; "Ave Maria"; "Liza Lehmann"; and "Pilgrim's Song" by Tschakovsky.

The Ladies' Thursday Musicals will give its last chamber concert in the Unitarian church Friday evening, April 25. The Riedelberger quintet will give an American program, which promises to be the most elaborate of the series. The musical public knows comparatively little of the splendid work the American composer has been doing in the higher branches of music. The Chadwick piano quintet promised for that night is easily the equal of any modern chamber composition, and the Foote quartet in G major is perhaps one of the most beautiful quartets ever written. The soloist at the concert will be Miss Maud Ulmer Jones, who will contribute some songs by representative American composers. Tickets at nominal price may be purchased at the Metropolitan Music company's or at the door.

The next regular meeting of the Ladies' Thursday Musicals will be held in the Unitarian church Tuesday morning at 10 o'clock. The following program has been prepared under the title of "Spring Time Music":

- Piano and Organ, "Les Preludes".....Liszt
Mrs. Edgar W. Runyan and Mrs. H. N. Kendall.
Musical Notes.
Mrs. Frank D. Larrabee.
Songs:
(a) "Spring".....Lassen
(b) "In April".....Lassen
Mrs. A. H. Johnson.
Piano, Impromptu, in A Flat.....Chopin
Miss Grace Noble.
Duet, "The Bird Song".....Goetz
Mrs. C. N. Chaboudon and Mrs. L. M. Park.
Songs:
(a) "Au Printemps".....Gounod
(b) "Er Ist's".....Schumann
(c) "Fallit".....Franke van der Stucken.
Mrs. H. C. Truesdale.
Organ:
(a) Andantino.....Lemare
(b) Fugue, Op. 25, No. 3.....Gullmatt
George H. Normington.
Song, "Summer".....Chaminade
Mrs. Charles N. Chaboudon.
Piano, Andro, "The Flower Song".....Faine
Mrs. Margaret Drew and Mrs. Floyd S. Muckey.

MARION CRAIG WALSTON.

Walston's program will consist of a Bach sonata, a Kreutzer concerto, B major, No. 12; Sitt's "Second Polonaise"; "A Romance," by Svendsen, and the "Ballade et Polonaise," by Liszt.
It is a program which will be of special interest to students as it is arranged to show the scope of the instrument and the extent of the performer's study.
Mr. Walston has studied exclusively with Miss Verna Golden, beginning with her before she went abroad and taking up work more seriously after her return. This year Mr. Walston has devoted his whole time to musical study that he might decide fully upon his future plans after a careful test of his powers. He will resume his literary studies at the university next year, along with his music, and at the completion of his college course will go abroad to carry his music to the highest possible development.
Mrs. W. N. Porteous will assist Mr. Walston in his program. The program "Le Cosolator" by Delibes, "Oh, Let Night Speak," by Chadwick, and "Spring Is Here," Maud Valeria White.

At the People's church in St. Paul the Choral club will give a concert Monday evening. Its "Elijah" will not be forgotten and now it presents a program of no less interest. George H. Normington, the director of the chorus, has been training these 125 voices to a nicety and finish which can only be understood by hearing that grand sacred cantata by Louis Spohr, "God, Thou Art Great." This is contrasted with "The May Queen," a cantata bright and musically winsome. Joseph S. Baerstein, America's greatest opera singer, will appear in the program. These will give opportunity to hear his marvelous dramatic rendering in a voice of which the critics are unanimous in their praise.
The assisting soloists are Miss Florence Marion Pace, the soprano; Miss Pearl Benham, contralto, and Harry George, tenor.

Miss Helen Hall gave the program of songs which she will sing in Cedar Rapids, Iowa, Tuesday evening, before a small group of Musical students. Her program was "The Art Great." This is contrasted with "The May Queen," a cantata bright and musically winsome. Joseph S. Baerstein, America's greatest opera singer, will appear in the program. These will give opportunity to hear his marvelous dramatic rendering in a voice of which the critics are unanimous in their praise.

Miss Signa Olson gave her graduation recital in Johnson hall last evening. She is a pupil of Gustavus Johnson, of the Johnson School of Music, and plays with intelligence and power. She has a beautiful touch and her program was "The Art Great." This is contrasted with "The May Queen," a cantata bright and musically winsome. Joseph S. Baerstein, America's greatest opera singer, will appear in the program. These will give opportunity to hear his marvelous dramatic rendering in a voice of which the critics are unanimous in their praise.

A delightful concert was given in the Keeley institute last evening under the direction of Miss Grace Ulmer. It was the last concert of the season and was attended by a large audience. Miss Ulmer gave two piano solos; Miss Ednah Hall and J. H. Kerr sang; and Mrs. Werner and Little Mildred Real recited.

Sunday Train to Lake Minnetonka. Commencing Sunday, April 14th, the Great Northern Railway will run trains, Monday, Tuesday, and Wednesday, to and from Spring Park, leaving St. Paul 9:35 a. m., Minneapolis 10 a. m., returning, leave Spring Park 1:30 p. m.

Duke of Parma Cigar. Try one to-day.

WAS A SURPRISE

Option Given on Its Fine Properties by Cleveland Cliffs.

WIDE CORNER IN LAKE REGIONS

Combination About to Take in the Mineral Interests of Corrigan-McKinney.

Special to The Journal. Duluth, Minn., April 13.—Additional sales are being made of the lake ranges of ore properties to both the United States Steel and to outsiders. An important deal has been closed this week on the Mesaba belt, which is a vast tract of land on what is called the McCabell tract for \$500,000 to the Shenango Iron Mining company. The latter is a local concern and the most of its incorporators give no hint at its affiliations but it is supposed the company is connected with some of the independent interests of the valleys. It will be an important source of ore supply. The tract contains about 12,000,000 tons, it is stated, and much of it is Bessemer.

On the same range the Hale, Kanawha and Roberts are under option for sale at good prices and will probably be taken. Other options are also out and some interesting negotiations are under way. The option given by the Cleveland Cliffs company to the United States Steel Corporation has provoked the widest comment in the lake region. The policy of the Cleveland Cliffs has been such that no change was considered likely, and none would be possible for a tempting offer. The company's interests are so widely spread and withal so interdependent, that it is a splendid property, ably and conservatively managed and maintained at the highest price. This magnificent property passed into the hands of Morgan and his associates they would have an opportunity for the exercise of a larger and more liberal policy than what they were in a position to attempt at other of their industrial enterprises, and a failure to do so would subject them to far more criticism than similar failure elsewhere.

Corrigan, McKinney & Company are having abstracts made of their three Mesaba range properties in anticipation of the probable transfer of those and their other Lake superior mineral properties to the combination. The value of these mines will go much above that named when negotiations were first started.

The Mesaba Central Exploration company has given a lease at 15 cents a ton on a part of the northwest quarter of section 14, 58-16 at \$15,000 for 100,000 tons of ore and at 30 cents a ton for all in excess of the 100,000 tons. The mine is to be moved in three years and the shaft sinking is under way at the Rolling Mill mine, near Neagunee, the lease of which is held by Mr. Sellwood, and on which there is only one other party, the lean Bessemer ore and there is supposed to be a large body of it.

PROMISING PROPERTY

Golden Horn Company Will Begin Active Development.

Special to The Journal. Portage, Ont., April 13.—At the organization meeting of the Golden Horn Mining company the following were elected directors: C. H. Houghton, president; A. O. Amin, William Robertson, St. John, N. B.; C. W. Clark, M. D.; Winnipeg; H. Rideout and Frederic Hemmings, Rat Portage. The directors appointed C. H. Houghton, president; C. W. Clark, vice president; Walter O. Amin, secretary and treasurer. It was decided to commence the development work on the property at the opening of navigation. The company starts under good auspices and on a splendid property.

The Michigan Master mine in the Manitowish district is a cross-section of the rich iron ore in the 100-foot level, where the ore shows equally as rich as that on the surface. Sinking has been resumed in the shaft. The Michigan Mining company of Detroit, has secured the Nish-she-shin mine on Sturgeon lake, near the Gold Planner mine, and has decided to commence work in May. The name of the mine is Indian for "good." A contract has been let for 300 feet of sinking on the Gold Bullion property, four miles northeast. Two carloads of machinery are in transit to the property.

CLARK IN THE COEUR D'ALENES

Montana Senator Takes a Bond on the Terrible-Edith Group.

Special to The Journal. Wallace, Idaho, April 13.—Senator W. A. Clark of Montana has secured a bond on the Terrible-Edith group, near Murray, in his high grade silver-lead ore was found in the development of the Terrible-Edith group as soon as the snow is off the ground. The claims are situated only a mile from Murray, but they are on the mountain side 2,000 feet higher than the town, and can be worked by tunnels for an individual. The agreement among lead producers to restrict their output has been broken, so far as the Coeur d'Alenes are concerned. In the Finch & Campbell properties the reduction was made by closing down the Heald and other mines being retained to development work. In that way one-third of the output has been cut off. The Standard is still continued with a full force. Other mines have adopted different methods, some cutting their force from one-quarter to one-third, while others have stopped Sunday work and thus a large amount of the output necessary, there being but a small amount in the number of men employed. This method is giving good satisfaction to mine owners, miners and the general public, and will probably be adopted by all the larger mines.

LAKE SUPERIOR COPPER

Future of the Mass Seems Assured—The Old Hancock.

Special to The Journal. Houghton, Mich., April 13.—The management of the Mass mine is taking hold of its work with great vigor, and there is an excellent prospect of the mine for many years. The Mass has been known for many years, to miners, as the richest mine in the Lake district, where it is rich, and the only question about the future of the property has been whether a sufficient amount of the high grade ground could be opened to permit the working of the mine on a large scale. This seems answered in the affirmative, judging from recent developments. Captain R. R. Trezona, the retiring mining captain, estimates the mine capable of producing 700 tons of selected stamp rock daily. This will feed one stamp, which will soon be set to work. The intentions of the management of the Champion mine are pretty effectively shown by the letting of contracts for the building of fifty-two new dwellings for the open market. High of the capital stock is owned by the Copper Range company and half by St. Mary's Canal Mining Land company, and neither will sell a single share, as the loss of that share would insure control to the other corporation.

Disappointment is felt over the March production of the Franklin, which was vorable to the Hancock, and there is some feeling that the latter would shut down their properties in the event of the Rosland mines settle an example, arguing that universal action in this direction would prevent the Rosland miners from securing a better price for their copper. The Rosland mine owners are expecting trouble and that the Rosland delegates to the managers' convention made a strong fight for a guaranty from the Slocan mine owners. The latter would shut down their properties in the event of the Rosland mines settle an example, arguing that universal action in this direction would prevent the Rosland miners from securing a better price for their copper. The Rosland mine owners are expecting trouble and that the Rosland delegates to the managers' convention made a strong fight for a guaranty from the Slocan mine owners. The latter would shut down their properties in the event of the Rosland mines settle an example, arguing that universal action in this direction would prevent the Rosland miners from securing a better price for their copper.

ROSSLAND FEARS TROUBLE

Miners and Owners Hold Conventions—Slocan Appealed To.

Special to The Journal. Spokane, Wash., April 13.—The friction between the mine owners and miners of British Columbia, caused by the wage question, developed menacing proportions the past week, when those interested held conventions for special consideration of the situation. It is an open secret that D. Evans, both of Spokane, will be sold to an eastern syndicate for \$2,000,000. The sales of mining stock on the local market the past week were the lightest in many months.

RICH COPPER FIND

Old Theory of Mining Men in the Hills Receives a Jar.

Deadwood, S. D., April 13.—A very fine ledge of copper and gold ore has just been discovered in the west drift of the Black Hills Copper company at a depth of 400 feet from the surface. The mine is located in the copper district west of Rochford, in Pennington county. The discovery of this vein of ore does away with the theory held by some mining men that there are no veins

Johann Hoff's Malt Extract. The genuine Johann Hoff's Malt Extract takes hold of thin-blooded people and builds them up. It does not do this by any mysterious means or strong drugs. It does it through the food they eat. Nearly all the difference between the strong man and the weak man is that one gets the full benefit of his food and the other doesn't. Johann Hoff's Malt Extract helps the stomach digest food and send the nutriment through the blood. This is the honest way to get health and strength, the kind that lasts and develops and breeds the energy which accomplishes much. It starts the fires of ambition and gives the courage for great undertakings, for such ambition and such courage are the attributes of health. Don't be Satisfied to travel along the by-ways of life! Be strong and vigorous, happy and healthful. Johann Hoff's Malt Extract makes these things possible for everyone. It widens out life's horizon and brings the vim of sustained effort to replace listless complaisance. Take Johann Hoff's Malt Extract with your meals and your food will do the rest. Try it and be convinced. JOHANN HOFF, Paris Vienna Berlin New York. SOLE AGENTS: EISNER AND MENDELSON COMPANY NEW YORK.

alone, about thirty acres of its original 180 having been built over, the company retaining all mineral rights underneath the lots so sold. The Atlantic has contracted for a new fifty-drill air compressor, which is to be delivered by July 1. The Mohawk mine has now in sight between the surface and the second level about \$400,000 worth of mohawkite ore, and taking into consideration the widening of the fissure noted on the third level, there must be a nearly equal value between the second and third levels. A strike of rich quartz has been made near Kitlax canyon in the Skeen river. Quartz, Ontonagon river, is widening and growing richer with depth. The pumps in the Michigan mine are unworking for the past two months at an average rate of 150 feet per month, or five feet per day. The new hoist at "D" shaft of the Atlantic is to go into commission next month. It will raise six-ton skips and will permit a material increase in the production of the mine. The Isle Royale may start one stamp and thus a large amount of the output necessary, there being but a small amount in the number of men employed. This method is giving good satisfaction to mine owners, miners and the general public, and will probably be adopted by all the larger mines.

Smith & Wyman, Wholesale Doors, Sash, Blinds, etc. Specialties: Stair Work, Office Fixtures and Interior Hardware. Cor. 2d Av. S. and 8th St., East Side, Minneapolis, Minn. STOLEN WHEN A BOY. Sioux City Barber Finds a Relative After Twenty-three Years. Special to The Journal. Sioux City, Iowa, April 13.—Stolen in boyhood from his English home, brought across the ocean to Canada and afterwards left alone to shift for himself, Joseph Duffy, a Sioux City barber, has just received from an elder brother the first word he has had from a relative for twenty-three years. He was such a fellow when he was taken from his home that he has but faint recollection of his associations at that time. He knows his mother well, and his father, William Duffy, but an effort to find her there in after years was unavailing. He advertised in London papers for his parents, and Duffy had given up hope of hearing from them. Sunday Train to Lake Minnetonka. Commencing Sunday, April 14th, the Great Northern Railway will run trains, Sunday only, until further notice, to and from Spring Park, Lake Minnetonka, leaving St. Paul 9:35 a. m., Minneapolis 10 a. m., returning, leave Spring Park 4:30 p. m.
