

CHANGE HORSES.

BE AS KIND TO YOURSELF AS YOU ARE TO YOUR HORSE.

NEW BLOOD AND STRONG NERVES THE BEST TEAM TO CARRY YOU OVER THE DEBILITATING EFFECTS OF SPRING, AND PULL YOU THROUGH THE EXHAUSTING HEAT OF SUMMER.

In the days of the stage coach it was customary to change horses every few miles, the tired, jaded team was replaced with well rested, spirited animals. Quicker schedules, well-pleased passengers and longer-lived animals was the result. This was found to be the best policy, viewed from a humanitarian or business stand-point.

Spring is the half-way house, the relay station between the extreme cold of Winter and the scorching heat of Summer. Build up your system now and fortify against the diseases that are sure to come with the approach of hot weather. During

the Winter months we are apt to give free rein to our appetites and eat more and richer food and take less exercise. The excretory organs are overworked, and much of the non-usable part of what we eat remains in the system to poison the blood. The impure air we breathe, and the gasses we inhale while living indoors, are carried through the lungs into the blood. The seeds of disease that are sown

during the Winter time produce a harvest of aches and pains in the Spring. The old, sluggish blood makes an extra effort to get rid of the accumulated poisons, but its vitality has been lost; it has grown weak and watery through the absorption of poisons,

SPRING TERRORS:

- ECZEMA, TETTER,
- BOILS, PIMPLES,
- ACNE, PSORIASIS,
- CARBUNCLES,
- SALT RHEUM,
- RHEUMATISM,
- BLOOD POISON.

and cannot unaided force out the impurities; it needs help—something to invigorate and build it up.

For this purpose no medicine is so reliable and safe as S. S. S. It purifies and enriches the diseased blood and restores the properties that make strong nerves and muscles—good digestion and appetite. Many look forward with dread to the coming of Spring, as it means boils and pimples, a burning, itching, irritated skin, loss of strength and energy, tired body and increasing pains. The poisons seem to lie dormant during the Winter, but are gathering new forces and burst out with renewed virulence in the Spring. This is true of Blood Poison, Scrofula, Eczema, Rheumatism, Catarrh, Tetters, Psoriasis, Salt Rheum, Acne, and all diseases that are dependent upon some virus, germ or humor in the blood. As

every organ, tissue and nerve in the human body is nourished by the blood, it is absolutely essential that this vital fluid be kept pure. When you feel listless, lifeless, nervous and tired, you need a tonic, 'tis true, but you need a blood purifier more.

In S. S. S. you have not only the best tonic, but a blood purifier without an equal. It invigorates and cleanses the blood, which in turn carries health and strength to the weak, tired nerves. S. S. S., if taken in time, will prevent the return of your Eczema, Tetters, or whatever skin disease you may be troubled with. It removes from the blood the morbid, noxious properties that produce boils and carbuncles and all eruptive, irritating diseases. A rough, oily, pimply skin is most annoying and humiliating to both men and women. A poor condition of the blood is the cause, and only a blood

SSS

purifier such as S. S. S. can bring the relief so much desired. It destroys all poisons, humors or germs in the blood, and gives the rich, new blood that you must have to overcome disease and keep you in vigorous health. It puts your system in the best possible condition to begin the Summer campaign. S. S. S. is strictly a vegetable remedy, composed of roots and herbs of wonderful purifying and tonic properties. If you have any blood or skin affection, write our physicians, and you can have the best medical advice without any cost to you whatever. Book on Blood and Skin Diseases sent free on application. PROPOSALS FOR INDIAN SUPPLIES—Department of the Interior, Office of Indian Affairs, Washington, D. C., March 7, 1901.—Sealed proposals indorsed "Proposals for blankets, woolen and cotton goods, clothing etc.," as the case may be, and directed to the Commissioner of Indian Affairs, Nos. 77 and 79 Wooster street, New York city, will be received until 1 o'clock p. m. of Tuesday, May 7, 1901, for furnishing for the Indian service, blankets, woolen and cotton goods, clothing, notions, hats and caps. Bids must be made out on government blanks. Schedules giving all necessary information for bidders will be furnished on application to the Indian office, Washington, D. C.; Nos. 77 and 79 Wooster street, New York city; No. 1208 Howard street, Omaha, Neb.; No. 235 Johnson street, Chicago, Ill.; or the commissary of subsistence, U. S. A., St. Louis, Mo. Bids will be opened at the hour and day above stated, and bidders are invited to be present at the opening. The department reserves the right to determine the point of delivery and to reject any and all bids or any part of any bid. W. A. Jones, Commissioner.

RICH NEW DOMAIN

Twenty-four Townships of S. D. Lands to Come Into Market.

OPENING FAR DISTANT, HOWEVER

Theories of Railroad Building for This Strip—Opportunity for the North-Western.

Special to The Journal.

Chamberlain, S. D., April 17.—Much interest is manifested by intending settlers in the prospective opening of the Rosebud Indian reservation, provision for which was made in a bill passed by the last congress. The bill does not provide for the opening to settlement of the entire reservation, but only that portion now embraced within the boundaries of Gregory county. There are about twenty-four townships embodied in the tract to be opened for settlement. Some of these along the Missouri river are fractional townships, but they contain some of the finest agricultural lands in the state. The secretary of the interior was authorized by the law to appoint a commissioner to treat with the Indians for the surrender of their lands. This he will do at once, Congressmen Martin and Burke and Senator Gamble, anticipating the urgent demands of their constituents, are trying to impress the secretary with the importance of immediate action, and they expect that the commissioner will begin work soon. After a settlement has been made with the Indians congress must ratify the treaty, which cannot take place before the next session of congress in December, and following this the Indians must make their selections of lands before white settlers can take advantage of the homestead laws. The opening, probably, cannot take place within a year. The law under which settlement may be made will be the same as the laws governing other homestead entries in the northwest, no change having been made as was the case with the opening of the reservations in Oklahoma.

The lands in this strip are generally of a good character. The bottom lands, which will probably be selected by the Indians, are as good as may be found anywhere in the Missouri valley, while the uplands are well watered and adapted to grazing purposes. The people of Gregory county have long wanted this strip opened to settlement so that they may be able to people it with a tax-paying population. The opening of the strip seems likely to be their only chance for a railroad with a reasonable length of time. Representatives of the Grand Island road have been through the territory this spring and have declared the country ripe for a line of road. If this land can be opened it will obviate the necessity of getting a special railroad right of way through the reservation, and is the only place that a road can get through the reservation without great difficulty.

There are several theories concerning railroad building in this strip. One is that the Chicago & North-Western road intends to build from Bloomfield, Neb., through Gregory county and northwest from there to a point on the Big Cheyenne river at the southwestern corner of the Cheyenne reservation. Such a road would take all the cattle shipments which are now being divided between the North-Western and Milwaukee roads at Chamberlain, Pierre and Everts. The route to Omaha and Sioux City would be shorter than any other, and would have a virtual monopoly of the reservation cattle shipments, leaving the Black Hills trade to the Eklahoma road. The Milwaukee road has been a red-hot competitor of the North-Western for this trade for the past four years. No stone has been left unturned by the Milwaukee folks to divert cattle shipments to their line and they have succeeded,

BUFFALO FARMING IN WIS.

HUBER BROS. HERD A SUCCESS Nucleus for the Farm Secured of Indians Years Ago at Thief River Falls.

Special to The Journal.

Winona, Minn., April 17.—One of the most unique lines of business, and one which is followed by but few persons in the United States, is that of buffalo farming, and near the little station of Cochran, Wis., is located one of the most extensive farms of this sort in the country. The ranch is operated by Huber Brothers, and they have a large herd of this species of animal. Twelve years ago C. Huber went to Thief River Falls, where he secured two buffaloes that were owned by Indians. These, with a few others, were taken to his Wisconsin farm, and formed the nucleus of a herd that now numbers forty-two full-blood animals.

Huber Brothers have sold specimens to various parks in this state, and one animal was sent to the London Zoo. Recently Burgess & Hanson of Luana, Iowa, purchased a herd of six from Huber Brothers, and are making a specialty of this ranch. Included in this lot were Old Tom and Lincoln, the kings of the herd. Tom has lived in captivity for years and was captured without much trouble, but when an attempt was made to corral one of the cows, a partly tame animal, she ran against a fence and sustained injuries of such a nature that it was found necessary to kill her. Huber Brothers also sold two animals to a Mr. Knapp of Rockford, Ill. At present the Huber herd numbers twenty-six full-blood and a large number of cross-bred animals. The experiment of Huber Brothers in crossing the buffalo with domestic cattle has proved very successful, and yields a quality of meat and hide considered by many to be superior to that from pure-bred animals. The fur is much esteemed while on the thoroughbred it is long and coarse on the neck and forequarters and scant elsewhere. The animals bring high prices, owing to their scarcity, averaging about \$1,000 each.

A Wonderful Invention.

It is safe to say that had it not been for pneumatic tires the bicycle would never have come into general use. This was the invention that made it popular almost from the start. About four years ago another invention was brought out that has proven the second greatest invention ever added to this popular device. It was not like the pneumatic tires, however, in one respect, in that the trade wanted it at sight, but it required months and years of patient, persistent work to convince the public that it was what the manufacturers and inventors claimed for it. The device is known now as the Morrow Coaster and Brake.

Last year the company had to spend a small fortune for machinery and tools with which to make this device, but manufactured the large number of 135,000 of the parts, which were sold in nearly every corner of the world. At present the factory, (a very large one), is being operated day and night, and has been for the past year. It has now a capacity of more than 1,000 brakes per day, which are going to cyclists in all parts of the civilized world. The advantage of this well-known device is that a cyclist always has his or her mount under control, when going down a slight incline or hill, the feet can rest perfectly still on the pedals, and in case the speed is too much accelerated, a slight backward pressure of either pedal will set the brake automatically. The well-known Morrow Coaster Brake of the Eclipse Manufacturing company is a device which it is being predicted by manufacturers will soon be on every bicycle in the known world.

Lidgerwood Banks Consolidate.

Special to The Journal. Lidgerwood, N. D., April 17.—The Movius State Bank has been merged into the First National Bank, with a capital of \$50,000. A special election will be held May 4 to vote on the question of changing the village form of government to a city.

LICENSE CARRIES PRESTON.

Special to The Journal. Preston, Minn., April 17.—At the village election held here yesterday license carried by 48 majority. The following officers were elected: Mayor, A. W. Thompson; aldermen, Dr. J. H. Phillips, M. M. Blunt, G. W. Hard, J. W. Hopp and A. L. Long; treasurer, Gus Gartner; recorder, Charles J. Kruppenbacher; marshal, J. B. Groby; street commissioner, W. H. Foster; justices, Elias Lint and J. G. Viell.

Cascarine at All Drugists.

Cures biliousness, constipation and dyspepsia or money refunded, 50c. Sample and book on diet and cure sent free for 10c to pay postage. Rea Bros. & Co., Minneapolis.

Yellow King Clear

For "Goodness sake" smoke it. Carey Roofing better than metal, pitch and gravel. W. S. Nott Co. Telephone 378.

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE Positively cured by these Little Pills.

They also relieve distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable. Small Pill. Small Dose. Small Price.

CENTRAL DAK. PRESBYTERY

Annual Meeting of Allied Church Organizations at Huron.

Special to The Journal. Huron, S. D., April 17.—The annual meeting of the Central Dakota Presbytery opened here last evening with a good attendance. The Woman's Presbyterian Society is holding its sixteenth annual meeting here to-day. Interesting programs have been arranged for both gatherings.

J. E. Rawson, who came here from Cedar Rapids, Iowa, last fall and purchased a large tract of land in Burr Oak township, has sold out to W. H. Dinehart of Brookings county, and purchased another ranch of about 30 acres a few miles northwest of Westington.

The Central Dakota Telephone company has purchased a lot on Dakota avenue and is arranging to erect a substantial brick building for permanent offices of the company.—The new city council, or rather the re-elected council, has taken charge of municipal affairs. John Wood is retained as city attorney, and will be assisted in certain litigation by Coe I. Crawford; M. S. Hurd is chief of police, and George Nelson is night watchman; Carl Peterson is retained as street and water commissioner.

SINGS ONLY FOR CHARITY

Patti Will Appear at Concerts for Wounded Soldiers.

Special to The Journal. Paris, April 17.—Adelina Patti (Baroness Cedarstrom) who will appear at the Gaire theater Thursday at a charitable performance said:

"I intend to devote the remainder of my career to charitable concerts. I return with my husband to London Saturday, where I have promised to assist at several concerts organized in behalf of the soldiers wounded in the Transvaal war."

BARNUM'S WIDOW PROTESTS

Executors Have Been Distributing the Surplus Annuity.

Special to The Journal. Bridgeport, Conn., April 17.—Baroness Alexandrine Oregiana, formerly Mrs. Phineas T. Barnum, and Mrs. Callias Bey, has filed notice in the probate court here of her intention to contest the distribution among the heirs of the surplus annuity fund of the estate of Mr. Barnum. This is the first conflict of the Barnum heirs.

Nye's Joke.

When James Whitcomb Riley and Bill Nye traveled together giving a joint entertainment, the humorist had great fun with the poet. Once in introducing Riley and himself to an audience, Nye said: "I will appear first and speak until I get tired, then Mr. Riley will succeed me and read from his own works until you get tired." Speaking of getting tired suggests the best remedy for that tired feeling—"Golden Grain Belt" beer. It is brewed from the purest barley malt and hops, is refreshing and invigorating. Besides it is exceedingly delicious and a delicacy for the table. We will be glad to have you see how it is made, if you will come over to "The Brewery" and let us show you through.

OLD SOLDIER REWARDED

He Gets a Fortune for Saving a Woman's Life.

Special to The Journal. Dayton, O., April 17.—Henry W. Hawthorn, an inmate of the soldier's home, has been notified that he has been left a fortune of from \$200,000 to \$500,000 by Mrs. Josephine Fairfax, whose life he saved many years ago, and who died recently in France. While at Kent bathing in the sea he saw a woman and her son in a boat, which capsized. He rescued the woman but the son was drowned. A few years ago he met Mrs. Fairfax in England and refused a reward which she urged him to take.

Duke of Parma Cigar

Smoke one and you will smoke another. Before appearing in reception-room of street, just a touch of Satin-Skin Powder wonderfully refines the complexion. 25c.

Omega Oil

OLD PEOPLE—After a man or woman has lived 50 or more years the machinery of the body is pretty well worn out. Stop a minute and think how many miles you have walked in all those years—how many thousands of pounds you have lifted—how many hours you have stood on your feet—how many times your joints have moved back and forth—how many times you have overdone things in work and pleasure. Do you wonder that you have pains and aches? Isn't it about time you did something for your poor body? Get a bottle of Omega Oil at once and rub it into every spot on your neck, shoulders, arms, back, hips, legs, knees and feet where there is an ache. Rub it in good and hard, and the first thing you know you'll feel at least ten years younger. Omega Oil is good for everything a liniment ought to be good for.

Your druggist sells Omega Oil, or can get it for you of any wholesale druggist. The Omega Chemical Co., 257 Broadway, New York, will mail a bottle, prepaid, for 50c. in cash, money order or stamps.
