HAVANA IS CROWDED

Average Is 9.4 Inhabitants to Each House in the City.

RESULTS OF AMERICAN RULE

First Year for a Long Time That the Births Exceed the Deaths.

New York San Saccial Service.

Havana, April 24.—Chief Surgeon Major Havard, in a report on the sanitary condition of Havana since 1898, says that the overcrowding of the city is illustrated by the fact that there are only 26,000 houses, while the population is 250,000, or 9.4 inhabitants to each house. A large proportion of the houses are only one story. Not only is there overcrowding in the houses, but the houses themselves overcrowd the city, which occupies a smaller area than any city in the United States with the same population.

The report adds that tuberculosis is the most widely spread disease. Between 1890 and 1899 there were 6,820 deaths from this disease, which was 16.5 per cent of the total mortality, or 7.5 per 1,000 population. During the same period yellow fever furnished only 4.71 per cent of the total mortality.

TIME WAS UP.

It Was Quit Coffee or Die.

When a woman is brought to the edge of the grave by poisoning from the drinking of ordinary coffee day by day, and is then made a well woman by leaving it off, her experience is worth something to others that are poisoned in various ways from the same habit.

Mrs. Jeannette B. Brown, 100 Minor St., New Haven, Conn., says: "Four years ago my life hung on a very slender thread with liver, kidney and heart trouble, and a very severe form of rheumatism. I was confined to bed with hands, wrists, feet and ankles so badly swollen that they bore no resemblance to parts of the human body. I had frequent sinking spells from heart weakness when I was thought to be dying and sometimes thought to be dead. My doctor, one of the directors of the State Hospital, a very successful man in his profession, told me to stop drinking coffee and use Postum Food Coffee, as he said coffee was the primary cause of my trouble."

I took his advice at once and discontinued medicines. Slowly the swelling disappeared, and the rheumatism left me, the sinking spells, healthy woman, sleek and I got out of bed and around the house. I was completely cured but it required some time.

For the past three years I have been a perfectly strong, healthy woman, sleek and well, with good appetite, good color, active and energetic.

It is a great pleasure to testify to Postum that has made me a well woman again. I have many friends here and in other parts of the state who are using Postum Food Coffee regularly, and I know to their very great benefit.

LEAN SANITATION.

This was the first year for a long period when the births exceeded the deaths.

MICHIGAN RAILROAD TAX

Ad Valorem Bill Passes the Senate After a Discussion.

New York Sun Special Service Lansing, Mich., April 24.—After a discussion lasting some seven hours the senate passed an ad valorem tax bill which applies to railroads alone; telegraph, express and telephone companies having been stricken from the bill. Other important changes made by the senate substitute a new board of assessors for the state tax commission and provide a new method of determining the average rate of taxation in the state to be applied to railroad properties.

The probability is that a compromise bill will be agreed upon after a struggle.
