A BANKER OPTIMIST

James B. Forgan Discusses Financial Topics of the Day.

COMBINATIONS AN ULTIMATE GOOD Because it Can Afford to Pay For It.

New York is Getting Western Money Because it Can Afford to Pay For It.

James B. Forgan, president of the First National Bank of Chicago, is at the West. Mr. Forgan was cashier of the Northwest National bank of this city before aligning himself with the Chicago institution.

Speaking for Chicago there is no question that western money is going New York. Money, like any other commodity, seeks the best paying market.

Western Banks Are Lenders. In consequence of the large deposits and the scarcity of commercial loans the banks of the west are not as large borrowers as formerly.

Particular conservatism is needed in the placing of investments in New York at the present time. Considering the prices at which stocks are selling there is a possibility of a reaction against which investors must guard.

Generally speaking, combinations will be an ultimate good to the country. Some of them which have not been properly put together will drop by the wayside.

Mr. Forgan expressed himself as heartily in favor of the bill before the house which provides for the issuing of a guaranteed currency.
