OUR DAILY BREAD

Valuable Suggestions for the Kitchen and Dining Room.

A BREAKFAST PARTY

By KATHERINE KURTZ. One of the most delightful forms of entertainment for those living in suburban towns, or for people who leave the city for their country homes in May or early June, is the small breakfast party. This is a less formal and much less expensive way of entertaining friends than the dinner party. A luncheon is recognized as almost exclusively a woman's affair, but the breakfast, unless an elaborate and grand affair, is given at an hour more convenient and agreeable to gentlemen. True, the hours, from 9 to 12, debar most business men, but there are literary men, artists and the "gentlemen of leisure" who are available and who are desirable additions to these informal gatherings when one wishes to extend hospitality to a stranger in their midst.

The Invitation.

For a simple breakfast the invitations are written and sent out, if possible, five days in advance, though much less time is permissible if the entertainment is for a guest making a brief stay in the neighborhood. The informal note is preferred, although a lady's visiting card is frequently used, writing the address in the lower right-hand corner. If the breakfast is not given on the reception day, draw a line through that date and write under the name, breakfast, day, hour and date.

The Serving.

The bill of fare should never be elaborate, but must be daintily served and show taste and refinement. The viands must be of the freshest with fruits which in evidence. Serve but a few courses and nothing heavy or such nature as to give the idea of fulsome-ness. This first meal of the day, though served at a later hour than usual, finds the appetite more or less capricious. Serve the

It is odorless, does not taint the atmosphere of adjoining rooms. It is superior to choice (melted) Butter and Lard because it is richer, gives further and costs less. It remains sweet and clean until the last drop does its appetizing work.

CUBAN TEACHERS' VISIT STARTS HEALTH REVIVAL

Paine's Celery Compound Doing Wonderful Work Among Sick.

The visit of hundreds of bright Cuban teachers to the United States last summer has caused a tremendous health-revival in Havana and Santiago. The American idea, "A sound mind in a sound body," is one of the first lessons Cuba and Porto Rico are learning. But they are learning fast. Whatever distrust Cubans may have of American politicians, they have confidence in America's greatest remedy, Paine's celery compound.

It has opened the eyes of the people of Havana and Santiago to the possibilities of good health in a way their crude remedies had never let them imagine.

Paine's celery compound is doing a tremendous missionary work this spring among the sick, not only throughout the United States, but wherever the American influence is felt.

The best families in Santiago are taking Paine's celery compound. The common people are looking after their health as never before. American physicians in Havana are ordering the great spring remedy. Its health-giving effect on friends and relatives who first tried Paine's celery compound in the United States has encouraged thousands of despondent, hopeless sufferers at home to use it. The re-

Dear Sirs—I have had the gout in my fingers and hands. My limbs were very number and I could hardly stand. I went to several physicians. A druggist advised me to use Paine's celery compound. I began at once to get better, and to-day I am perfectly well. Naturally I have great faith in Paine's celery compound. Very truly yours,

MRS. BELEN GUERRA. Every one in this springtime needs to purify the blood and regulate the nerves. Carry home to-day—not by and by—a bottle of Paine's celery compound. Cure nervousness, neuralgia and rheumatism this spring. You can now put your health on a sound basis by means of Paine's celery compound.

Such evidences of an unhealthy condition as those constant headaches, melancholy, dyspepsia or constipation, rapidly disappear under the cleansing, regulating action of Paine's celery compound.

Dr. Humphreys' Specific System

Covers as wide a range of disease as it is safe for a layman to treat. A few of the most used cures are: Grip and Colds.—The use of "77" starts the blood coursing through the veins until it reaches the extremities, when the feet warm up and the Cold is broken. Rheumatism.—The use of No. 15 neutralizes the uric acid in the blood, and the poison passes off through the kidneys. Dyspepsia, Indigestion, Weak Stomach.—The use of No. 10 stimulates the gastric juices, the food assimilates, the digestion is perfected. Malaria is prevalent owing to the upheaval of the streets. The use of No. 16 "breaks up" the Chills and Fever, while its tonicity sustains the system. 25 cents each at Druggists, or mailed. A pocket epitome of Domestic Practice mailed for the asking. A postcard will do. Humphreys' Homeopathic Medicine Co., Cor. William and John Sts., New York.
