

63 MINES AND MINING.

FOR SALE--THREE SHARES PERMANENT stock in Quincy Savings and Loan Association, Minneapolis, worth \$7.50, will sell for \$25. Address X, box 312, Kasson, Minn.

IMPORTANT ANNOUNCEMENT

The American Mining Investment Company is preparing a new prospectus for its "Kettle-Curlew," "Boundary Camp" and "Queen Bee" shareholders, and

The National Mining Promotion Company is in like manner in a few days to make a sensational announcement to "Union Consolidated" shareholders.

General Manager C. R. Tuttle, President S. A. Kemp of Duluth, of the "Kettle-Curlew" Company, with the Smelter Expert, Mining Engineer, left this morning, April 17th, for Spokane and Curlew, Wash., and Grand Forks, N. D., where they will conclude arrangements for the building of the wood work for the big Curlew smelter, and to transact very important business affecting the interests of shareholders.

They will conclude negotiations which have been under way for some time concerning important British Columbia mining interests, and will, in the course of two weeks from the date mentioned, make a report which will unquestionably raise the price of "Kettle-Curlew" and "Boundary Camp" shares from five cents to ten cents. Negotiations have gone far enough to enable us to say that this report, which will be ready between the first and fifth of May, will be one of the most sensational announcements made in mining circles anywhere this year.

"Kettle-Curlew" and "Boundary Camp" shareholders should not part with any of their holdings until they have read this report, as it will surprise them to their entire satisfaction.

A report from the "Queen Bee" mines and the new stamp mills now in operation there will be issued about the same time by a special committee, which will leave here for the purpose in a few days.

The American Mining Investment Company has not been heard from very strongly for a few days past, but it has been at work and we would beg leave to announce that the report which will be put out under its auspices from the first to the fifth of May will show beyond any controversy of question of doubt that "Kettle-Curlew" and "Boundary Camp" shares are the best investment in the United States both as to safety and certainty of dividends.

Regular dividends in May and June, and special interest dividends were guaranteed on July 1, 1901.

We have been making rapid strides in our business, although in a somewhat quiet way during the past month, and will in a short time be able to show results of our hard work to the great satisfaction of shareholders.

"Kettle-Curlew," "Boundary Camp" and "Queen Bee" Smelter shares for sale at the usual terms until May 1st, when they will go to probably five or ten cents a share. Write for particulars.

THE SECRET OF SUCCESS

IS A HEALTHY MIND IN A HEALTHY BODY.

There are thousands of men whose minds are weak and unpaired, and whose bodies are un-sound and diseased. Such men can not enjoy life because they have neither the power nor the ambition to go ahead and take their place among their fellowmen, and can, therefore, not attain any measure of success. Some of these men are not less than work, business, study and marriage, and others are suffering from private diseases such as Gonorrhoea, Gleet, Stricture, Parotitis, Enlarged Prostate or Blood Poison (Syphilis), the tremor or weakness and disease appals their minds and shakes their bodies, and life to them a waste and a failure. They drag out a miserable existence and wait for death to end their troubles.

SUMMER CLUB WORKS

Playgrounds and Saturday Closing Discussed by Woman's Council. The counter attractions of spring-like weather and bright skies cut down the customary attendance of the Woman's Council up next, the resuming of the Consumer's League. Mrs. H. F. Brown and Mrs. C. W. Keyes spoke for the improvement of the playgrounds and the Saturday closing movement of the Consumer's League.

Miss Gratta Countryman spoke of the rapid development of the traveling library plans, which from the beginning established by the Woman's Council three years ago have grown into a system with 145 libraries in circulation. Miss Alberta Garber gave an account of the plan of the Consumer's League to reduce the retail stores to close at 6 o'clock on Saturday in July and August and asked the co-operation of the council members in circulating petitions making that request.

NO COLOR DECISION

Thursday Club of St. Paul Deems a Vote Inopportune. The Thursday club of St. Paul appointed last week a time to take a decisive vote upon the color question in the federation, but at the crucial point decided that the time was inopportune, so long as the question was still to be passed upon the general federation. It seems pertinent to inquire how the general federation is to decide the question should all clubs and club women take the option of a time to take any action in the matter. It is to be passed over in silence or indecisively by the clubs and state federations and the delegates permitted to go to the annual convention only a vague idea of what their organizations really think about the matter? In such case the vote of the delegates would represent in a large measure the opinion of a time but themselves.

MARRIED IN MONTANA.

Miss Marge Isabelle Scott, daughter of Mr. and Mrs. Robert R. Scott, and William K. Thomson were married April 17 in Helena, Mont. Mr. and Mrs. Scott formerly resided in Minneapolis and the wedding ceremony at Stanley Hall. The decorations all appointments were charming and the green of palms and trailing vines were relieved with white blossoms. The dining-room was in pink with shades of light, rose and apple ribbons. The ushers were Misses Sloan, Eekles, Minnie Swan, Mattie Swan and Messrs. Bert Scott, G. Y. Scott and Cornelius Hedges, Jr. and the young women wore gowns of green and white and carried marguerites. Miss Breidenbach, the maid of honor, was in white organdy and carried pink roses. The bride's gown was of organdy and the bodice was trimmed with old Dutch lace, an heirloom in the family. Her flowers were bride roses. James Scott was best man and the service was read by Rev. Dr. Sloan. Miss Ruth Smith furnished the wedding music. Mr. and Mrs. Thomson left for a short trip and they will be at home May 9 and 10 at 331 Broadway, Helena.

BLEW OUT HIS BRAINS.

Seattle, Wash., April 29.--H. E. Darnell of Oil City was found dead at the Perrin House. He had blown out his brains with a revolver. As near as can be ascertained the suicide took place Sunday afternoon. From letters found in his room it appears that Darnell was in destitute circumstances.

ECZEMA

Eczeema sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or gnaw. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects. There are several forms of Eczeema, the moist, or weeping kind, that comes in little pustules which discharge a watery, sticky fluid, which dries and peels off in bran-like scales. So profuse is the discharge at times that large scabs or crusts form, which are both painful and troublesome, and not easily removed. Red, disfiguring bumps and sores are symptoms of Eczeema. The dry form usually attacks the hands and feet; the skin, becoming hard and rough, often cracking open and bleeding, and attended with much itching. Eczeema depends upon a poisoned condition of the blood, and local applications, while soothing and cooling, and may to some extent relieve the inflammation and itching, cannot be considered cures, because external remedies do not reach constitutional or blood diseases. Salves, ointments, powders, lotions and soaps do more harm than good, by smearing over and sealing up the pores of the skin, thus forcing the poison back into the blood. S. S. S. antidotes and neutralizes the acid poisons and drives out of the circulation all impurities and humors, and the pure, rich blood that is carried to the diseased skin quickly allays the inflammation, opens the clogged pores, and the skin becomes soft, smooth and ready to perform its proper functions. To be rid of Eczeema you must first purify and build up the blood, and nothing so surely and effectually does this as S. S. S., the only guaranteed purely vegetable blood purifier. Send for our book on blood and skin diseases, and write our physicians for any information or advice you may desire. Medical advice and book free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Palace CLOTHING HOUSE CO.

"The Ladies, God Bless 'Em,"

Are taking great interest just now in seeing their husbands, brothers and sons and friends properly clothed. We say this because the number of ladies calling on us in company with the "lords of creation" is unusually large.

We like to have you come, ladies, because when a man's clothes satisfy his female critics they're sure to be all right. It is great pleasure to us to display our charming array of Men's and Boys' Spring Suits, Overcoats, Hats, etc., before your discerning eyes.

Come, then, and welcome! Our best hospitality is at your disposal.

Omega Oil

Great is Oil! Did you ever think what an important thing oil is in this world? It is the oil in paint that prevents decay of woodwork. It is the oil in the bootblack puts on your shoes that preserves the leather. It is the oil that keeps iron and steel from rusting. It is oil that makes machinery run easily and smoothly.

But the greatest oil of all is Omega Oil, the popular green-colored liniment that everybody is talking about. It keeps the human body from decaying and getting rusty. It softens, relaxes, soothes and preserves the flesh of old people. It lubricates stiff joints, and makes them work easily and smoothly. And the little Swiss green herb in Omega Oil is the most amazing thing for stopping pains and aches that ever grew out of Old Mother Earth. If you have a place on your body that hurts, you are mighty foolish if you don't rub that place with Omega Oil, and get cured right away. It is good for everything a liniment ought to be good for.

Tell your druggist you must have Omega Oil and nothing else. He will give it to you or get it for you. The Omega Chemical Co., 27 Broadway, New York, will mail you a bottle, prepaid, anywhere in the United States for 5c in cash, money order or stamps. 752
