

NOT AN EGG THROWN

Professor Herron and His Friends Were Apprehensive.

SOCIETY AGAIN ANATHEMATIZED

A Big Crowd Listens at Brooklyn-Basis of Charges Against Herron.

New York Sun Special Service

New York, April 29.—Under the introduction of Bolton Hall, George D. Herron, from whom so many people have fled during the past week, lectured in Brooklyn last evening at the Park theater. The audience was a big one.

Two policemen stood at the entrance to the theater and scrutinized everybody who entered, and there were detectives about the doors. A change had been made also in the theater. Last week only the chairman, one of Mr. Herron's assistants, sat upon the stage. Last evening the stage was full of chairs, which were occupied by men and women who were invited to sit there.

Mr. Herron found it very easy to say things. Some of the things he said are these: "The greatest makers of socialism today are the monopolists." This was applauded.

DIVORCE PAPERS FOUND

They'll Be Used This Week in the Trial of Herron.

Special to The Journal. Grinnell, Iowa, April 29.—Rev. E. M. Vittum, pastor of the Grinnell Congregational church, the church that will prefer charges against Dr. Herron, has finally secured copies of the divorce papers in a divorce case. These are the papers that disappeared from the clerk's office at Algona, and difficulty was experienced in obtaining them.

That notwithstanding the plaintiff always conducted herself towards the defendant as a loving, kind and dutiful wife, and notwithstanding she discharged to the fullest measure her duties and obligations to him, the defendant, during the last two years especially, has been guilty of such cruel and inhuman treatment of the plaintiff as to seriously impair her health and to endanger her life, wherefore the plaintiff prays the court to grant her a divorce, that she may be given possession of the child said to be in her possession, maintenance and education.

Herron, in his answer admits the marriage and birth of the children, but denies all other allegations, the point being that while he admits the charges he will make no defense. The decree finds that the allegations made in the petition are true and grants the divorce as asked.

"DEGRADING THE HOME"

Rev. Mr. Henderson Holds Herron Up as an Example.

Chicago, April 29.—In a sermon on "Degrading the Home," the Rev. John Henderson in Armour Mission yesterday referred at some length to Professor Herron. After saying that the moral tone of society never rises above that of the homes of the people, and speaking of some tendencies that threaten the home, he continued:

The worst evils that threaten the home, however, come from within. A hasty, unwise and stupid marriage has in it discord, divorce and everything that can disgrace the home. Marriages are frequently governed by no higher considerations than those of social standing or wealth. Then the contempt in which the contract is often held, and the ease with which its obligations are laid aside, are fatal to the dignity and true interests of home life.

Recently we had a striking illustration of this in the conduct of Professor Herron. While posing as a reformer, denouncing the church and state, and characterizing them as atheistical parasites, he was giving a shamless exhibition of brutal neglect and desertion of the wife and children whom he was bound to protect. Trying to extract the mote from the eye of society, his own moral life did not rise to the level of the decent recognition of first principles. It is a matter for rejecting that such a prophet, in spite of his powers of declamation, is not allowed to escape public denunciation.

There Are 2400

Disorders incident to the human frame, of which a majority are caused or promoted by impure blood.

The remedy is simple. Take Hood's Sarsaparilla.

That this medicine radically and effectively purifies the blood is known to every druggist, known to hundreds of thousands of people who themselves or by their friends have experienced its curative powers.

The worst cases of scrofula, the most agonizing sufferings from salt rheum and other virulent blood diseases, are conquered by it, while those cured of boils, pimples, dyspeptic and bilious symptoms and that tired feeling are numbered by millions. Hood's Sarsaparilla. Will do you good. Begin to take it today.

ON A SOLID BASIS TRY TO GET RHODES

Speculative Boom Is Not Founded on Fictitious Values.

JOHN J. MITCHELL'S OPINION

The Burlington Deal, for Instance, Shows That St. Paul Stock Is Not Too High.

New York Sun Special Service

Chicago, April 29.—Chicago will assist Great Britain in its great financial need by subscribing \$7,500,000 of the \$50,000,000 war loan apportioned to the United States. John J. Mitchell has just returned from New York, where he secured 15 per cent of the American share for the Illinois Trust & Savings company, of which he is president.

Mr. Mitchell comes back from New York satisfied that the great speculative boom now on in the stock market is not based on fictitious values, and he declares that the English financiers whom he met were equally impressed with the solidity of American values.

Mr. Mitchell's trip to New York, it was understood, was in part in connection with the consolidation of the Chicago and elevated railroads of Chicago and the reported deal between the Union Pacific and the North-Western roads. He declined to discuss these topics in any form.

Referring to the Burlington deal, carried through by James J. Hill, as an illustration of the point that the appreciation of securities was not in excess of their true value, Mr. Mitchell said: "It is evident that the St. Paul was offered the same proposition as that accepted by the Burlington, a guarantee of 8 per cent on the property in perpetuity. The fact that the offer was declined ought to be conclusive proof that the price of St. Paul securities is not too high."

It is a wonderful condition, but it seems to be warranted by the general income business everywhere. The west has done as well as the east in this rise of securities, for while the east became alarmed and bought and sold securities, the west held on and realized to the full extent on its holdings.

Party of Boers Blows Up a Railroad in Three Places

TO INTERCEPT RHODES' TRAIN

Report That Democrats May Invite Kruger to Visit America—Boer Prison.

New York Sun Special Service

Cape Town, April 29.—A party of Boers blew up the railroad between Graspan and Belmont, Cape Colony, in three places. April 27, apparently with the intention of intercepting a train carrying Cecil Rhodes. The damage done was slight and was quickly repaired.

LAAGER SURPRISED

Kitchener Reports the Capture of Ammunition and Stores.

London, April 29.—Lord Kitchener reports to the war office from Pretoria under date of April 28, as follows: Kitchener's fighting in the Transvaal has surprised and captured Van Rensburg's laager at Kildam, north of Pietersburg. Seven Boers were killed and thirty-seven taken prisoners. Eight thousand rounds of ammunition and all the wagons, carts, oxen, mules and horses were captured.

Only one casualty was wounded. The other columns report three killed, fifty-eight taken prisoners, fifty-seven surrendered and one quick-firer captured.

FENCE IN THE BOERS

British Thought to Be Preparing Darrell's Island for Prisoners.

Correspondence of the Associated Press. Hamilton, Bermuda, April 28.—There is considerable excitement at present in Bermuda over the expected arrival of 1,700 Boer prisoners. The British government has leased Darrell's Island for one year with the option of relinquishing it on a month's notice. Tuckers Island has also been leased.

The army officials are very reticent, but the blacksmiths of the town have been sounded as to their ability to construct several hundred yards of iron fence, very strong, close, high and with spike points.

FUTILE OPERATIONS

British Captures Are Thought to Be Mainly Old Men and Boys.

New York Sun Special Service. London, April 29.—The country is dissatisfied because the war in South Africa still drags along. During the last few weeks a movement designed to sweep the northern Transvaal has been in progress and a good many Boers have been captured, but the impression prevails that the totals include more old men and boys left on the farms than bona fide prisoners, and at the rate of a couple of hundred captures a week it will take a long time to get rid of the 15,000 Boers who are still believed to be under arms.

Months have passed away since the invaders entered Cape Colony, yet they are there to-day and quite as troublesome as ever. Some people argue that the

British army is even now not strong enough for the task in hand.

DEMOCRATS WANT KRUGER

European Report That Bryan May Go to Invite Him.

New York Sun Special Service. London, April 29.—A Daily Mail correspondent at Geneva says that a number of influential American democrats, possibly headed by William Jennings Bryan, will visit Europe, and that they may personally invite Mr. Kruger to visit America.

COMING ORATORICAL CONTEST

INSANITY EXPERT BECOMES MAD

New York Sun Special Service. San Francisco, April 29.—Dr. George A. Shurtieff, for years superintendent of the Stockton insane asylum, and the most noted insanity expert in California, is dying at Stockton of dementia. His disease was induced by a failure to cure his adopted daughter of insanity.

Shurtieff years ago made a great effort to cure a young married woman, whose mind had given way. She died, and Shurtieff adopted her child. She grew to womanhood, but the taint of insanity adhered. Shurtieff lavished all his skill to conquer the disease.

The girl died, and with her death Shurtieff began to fall. He was put in an asylum he had conducted so many years, but recently he was declared harmless and removed to rooms outside.

MINNEAPOLIS DRY GOODS CO. The Best Yet in Lace Curtains. The best chapter in the story of our Lace Curtain Season will now be written. Arnold B. Heine, of New York, a large importer of laces, is giving up the curtain end of the business. He sold off his stock of Brussels Curtains, at auction. Our man got the cream of it, paying on the average, about half what the stuff was worth. The goods reached us Saturday night and now they are yours at the same ratio of prices.

Pettigrew's Mountain of Gold. New York Sun Special Service. San Francisco, April 29.—A veritable mountain of low grade ore at Picocho, Cal., on the Colorado river above Yuma, will soon be worked by Senators Morgan of Alabama and Jones of Nevada and ex-Senator Pettigrew of South Dakota. The plans are for a mill with 280 stamps, with a cyanide plant larger than any in the country. The mountain of ore is practically inexhaustible, but it would be a waste to put in a small mill, for the ore is not rich enough to pay without a mill that will crush hundreds of tons a day.

Bogus Nobleman Finds Good Field. Special to The Journal. Winona, Minn., April 29.—Herron Von Droste, who several months ago worked several prominent German residents of Winona for advances of money on the representation that he was a German nobleman, and then disappeared, has been heard from again. He has turned up at Cleveland, Ohio, where he played much the same game as here, with the addition that he became engaged to Miss Lizzie Mueller, daughter of a wealthy German. Preparations for the wedding were well under way, but the disappearance of the alleged count has caused their postponement. It is said Von Droste secured several thousand dollars in Cleveland.
