President McKinley and Party in "Land of Fruit and Flowers."

Redlands, Cal., May 8.—President McKinley and party entered the "land of fruit and flowers" shortly after midnight.

Washington, May 8.—From a member of Commissioner Rockhill's family in Washington it is learned that he is not a candidate for the position of minister to China and would not accept it if offered.

With the withdrawal of Rockhill from the field there is nobody at present in sight for successor to Conger, whose resignation will be written in a short time.

As soon as word that Rockhill is not an applicant becomes generally known, there will be a flood of candidates from all sections.

If the northwest is to be represented in the list of candidates, the senators from that section have not yet indicated that fact.

It is generally believed here among public men and former residents of Iowa, that Conger intends to actively enter the race for the gubernatorial nomination and that in due time his present attitude of being unwilling to make a fight for the nomination will be changed.

Control of the Treasury Tracewell has ruled that the appropriation for the restriction of Chinese immigration may be applied to the erection of suitable buildings at points on the Canadian border for housing detained Chinese or for leasing buildings for that purpose.

Leaving the rich mining section in the mountains, 4,000 feet above sea level, the train dropped down into the green Salt River valley, with its waving alfalfa fields and big herds of cattle.
