

Waltham Watches.

Emerson established the Waltham Watch in common speech as a synonym of perfect adjustment.

"The Perfected American Watch," an illustrated book of interesting information about watches, will be sent free upon request.

American Waltham Watch Company, Waltham, Mass.

SPORTS GOLF SEASON IS ON

Formal Opening at Minikahda Links on Saturday.

LAFAYETTE'S INFORMAL, TOO

Brya Mavr to Play Fairbault on Memorial Day—Minikahda's List of Games.

The formal opening of the season at the Minikahda Club will occur Saturday, when the enthusiasts of the game at the Calhoun links will play of the first 18-hole qualifying round for the team.

The season's events are finally arranged by the golf committee, in addition to the Saturday meet.

May 18—Second 18-hole qualifying round for team.

May 25—First, handicap tournament.

May 29—Team match with Winona at Winona.

June 1—Team match with Town and Country club at Minikahda.

Following the custom of qualifying which has been in practice at the Town and Country Club, the fourteen contestants making the best scores in the qualifying rounds on May 11 and 18 will constitute the team. Members of the team will be subject to challenge as provided by the team rules.

Every Saturday afternoon the position of No. 14 on the team will be open to contest to all members of the club, except the members of the team numbers one to thirteen, inclusive.

Lafayette Club, Too.

The links of the Lafayette Club at Minnetonka, which have been allowed to remain open for sport Saturday, many members of the popular north shore club have arranged to visit the lake and "try-out" Saturday.

The opening will be entirely optional, and the members of the club will be held during the first week in June.

Brya Mavr Plans.

The Brya Mavr club will play the Fairbault Golf Club on the Brya Mavr links Memorial Day. The challenge was accepted early in the season having recently been accepted. There will be fifteen men on each team. The Brya Mavr cracks who will take the field are: J. J. Burton, who expect to make up the team on Saturday, all their spare time practicing.

The Brya Mavr links have this great advantage over other twin city links—that of the most convenient location. While members of the Minikahda must figure on making connections with the St. Louis Park line, after which they walk a quarter of a mile or cross Calhoun in a launch, the Brya Mavr people have a car to take them to the suburb and are there in fifteen minutes.

Deephaven Links.

The Deephaven golf links have more natural hazards than any other course in the northwest, and it takes a skillful player to "figure out" on H. J. Burton's stamping grounds. In addition to the natural risks, he has an artificial break which puts everything else in the way of hazard in the division. The links are divided by the lake shore of the Minnetonka, St. Louis Park road, which cuts its way through the hills at that point.

A. B. Cutts, general passenger agent of the road, himself an enthusiastic golfer, and a member of the Brya Mavr club, has facetiously called the "cut" Mr. Burton's \$20,000 hazard—that being Mr. Cutts' estimate of the value of the road break for that stretch.

LOGS KILL PIKE

Also Prevent Gathering of Pike Eggs for Planting.

Game Warden Sam Fullerton returned Tuesday from a trip to the Cass Lake district. The warden went to the lake for the express purpose of corraling 10,000,000 pike eggs for the state hatchery. He was disappointed in securing 1,000,000.

Mr. Fullerton says that his failure to get the quantity of eggs sought was due to the big mortality among the pike in the headwaters of the Mississippi, caused by the log drive. Pike had collected by thousands in the river below the dam, where it leaves Cass Lake. During the spawning season they keep close to the surface in swift waters, and when the logs are released they rove over the mass of fish, killing thousands of them. The warden says that dead fish killed by log drives were found all along the stream in that vicinity. Millions of eggs were also destroyed.

Blue Fin White Fish.

Mr. Fullerton made a discovery while at Cass Lake which will be of exceptional interest to anglers looking for gamey fish. He found that blue fin white fish, not supposed to be native of those waters, and scarcely looked for out of the great lakes, is to be found at Cass Lake this year.

This fish is almost identical with the Lake Superior whitefish, having the distinguishing hump on its nose. The warden and party caught four pike at Cass Lake, whose aggregate weight was 12 pounds and the others between 7 and 11 pounds.

Many anglers, particularly the residents here, have complained to the warden that the pike species has almost disappeared from Lake Minnetonka. He is at a loss to account for the scarcity of pike in a lake peculiarly adapted to them.

Within the next month Mr. Fullerton will undertake a long drive to Taylors Falls, where all members of the fluky tribe are so plentiful.

The next month Mr. Fullerton will undertake a long drive to Taylors Falls, where all members of the fluky tribe are so plentiful.

EASTERNERS AFTER FISH

Boston and New York Each Send a Party.

Eastern sportsmen are flocking into Minneapolis now that the fishing season has opened. Two parties from New York and Boston are here on an elaborate scale and then struck into the preserves for the entire summer season.

They purchased nearly a carload of tackle, the most complete outfit ever taken out of the city. In the outfit, in addition to angling apparatus, were boats, tents, guns and camping accessories.

The New York party was headed by Mr. P. T. Snyder, George Myers, M. W. Smith and John Hoskins. The Bostonians, who went to Annandale, were Fred Scott, George Houston, Lem Shepherd and Mervyn Kempel.

Both parties will remain in the state until the fall hunting season, when they will open on big game.

BEST BOWLING YET

Spears' and Graham's Teams Play Exciting Tie.

Graham's St. Paul bowling club and Spears' Minneapolis club played the most exciting game of the season last night at Spears' alleys. Each team made 2,483 pins in the three games played. A crowd of St. Paul "rooters" were present. The score:

SPEARS' CLUB. Buehler 141, Matthews 129, Holmes 136, Hainley 140, Hoag 144. Total 590.

GRAHAM'S CLUB. Larkin 128, Biddeman 141, Nelson 142, Frederickson 146, Graham 156. Total 513.

TWIN CITY JOCKEY CLUB. Creditors Will Receive 15 Cents on the Dollar.

The claims of the creditors of the de-

fect Twin City Jockey club, aggregating \$100,000, were allowed on an equal footing yesterday in the Ramsey district court. After the expenses of the receivership are deducted, the creditors will receive about 15 cents on the dollar. The only asset of the company is the \$25,000 owned by the state commission for the grand stand. The claims include notes, checks, issued by the club, and bills for printing, purses for horse races and bills for liquors.

MAY BE SOME BOXING Exhibitions.

Chicago May Yet Have Many Art Exhibitions.

Chicago, May 9.—Boxing in Chicago is now up to the city council. Action is to be taken at the meeting of that body Monday night, when a resolution will be introduced rescinding the resolution which Alderman Patterson had passed last December, a short time after the McGovern-Gans fiasco. The Patterson resolution recommended that the police department and mayor refuse to sanction boxing and issue no permits for the same.

Mayor Harrison is rather non-committal in regard to the question. He said that he would take no action in the matter one way or another until the council had done something with the Patterson resolution.

THE OLYMPIAN GAMES They Will Be Held in Chicago—\$250,000 to Be Spent.

Chicago Sun Special Service. Chicago President W. R. Harper of the University of Chicago said to-day that the Olympian games of 1904 would be held in Chicago, and that preparation for the contests \$250,000 would be spent on Marshall field, the athletic ground. Permanent improvements will be made on the grounds with the aim of making them the best and most complete in the world.

Dr. Harper's positive statement that the much coveted games will come to Chicago followed gratifying assurances from the members of the international committee. These gentlemen expressed themselves as so well satisfied with the work of the local committee that they thought the city of Chicago has changed from lukewarm to decidedly favorable.

WOMAN'S RACE AT TROY

Minneapolis Girls Will Leave for New York in a Few Days.

The woman's bicycle racing fever is breaking out in spots around the country. Fargo having put on a fairly successful meet for the first time in its history, at preparation for the contest \$250,000 would be spent on Marshall field, the athletic ground. Permanent improvements will be made on the grounds with the aim of making them the best and most complete in the world.

Dr. Harper's positive statement that the much coveted games will come to Chicago followed gratifying assurances from the members of the international committee. These gentlemen expressed themselves as so well satisfied with the work of the local committee that they thought the city of Chicago has changed from lukewarm to decidedly favorable.

ARE LAW-ABIDING

Medicine Lake Bass Refuse to Take the Hook.

There was a terrible commotion among the fish at Medicine lake to-day. L. S. Spencer, who was patrolling the lake in a pea green boat, and according to a special report by The Journal just before going to press, the mortality among the bass was so great that several were found to be dead. No bass were caught. The Medicine lake kids are law abiding and refused to infringe upon the latest bit of legislation enacted in their behalf.

The Lucky Horsesho Yester.

San Francisco (Oakland)—Search Light, Vassallo, Macgry, Glendinning, The Pretter, and others were patrolling the lake in a pea green boat, and according to a special report by The Journal just before going to press, the mortality among the bass was so great that several were found to be dead. No bass were caught. The Medicine lake kids are law abiding and refused to infringe upon the latest bit of legislation enacted in their behalf.

Shamrock at Weymouth. Southampton, May 9.—Sir Thomas Lipton has reached Southampton. Mr. Watson and Sir Thomas Lipton were in the boat. Mr. Lipton is expected to arrive Monday or Tuesday next. Sir Thomas will send the two boats to Weymouth to-day. The boats are deep water, clear of tides and shoals. It is not likely that further trials will take place in the Solent.

Police After Tagless Riders.

The police descended upon the Seventh avenue cycle path last evening and stopped many tagless riders who were riding unless they secured tags, allowing them the use of the path, at their earliest convenience. The police would supply follow preliminary action of the police is an earnest of what may be expected by cyclists who continue to evade the tag ordinance.

The Auto Juggernaut.

An automobile whose driver was laboring under the influence of liquor, and who was over everything crowded a cyclist into the curb on Nicollet avenue between Fifth and Sixth streets, and threw him to the pavement. The cyclist was seriously injured. The auto, which was running at a high rate of speed, refused to keep to the right of the street.

Track Team Not Selected.

Special to The Journal. The appointment by Governor Herred of Judges Bartlett, Tripp of Yankton and Gideon C. Moody of Deadwood to be code commissioners with James D. Brown of Yankton as well as generally. Judge Moody is the only prominent member of the early bar of Dakota territory, who is still practicing in the territory. Judge Tripp has been out of practice for some years past. Moody was in the arena with Spink and General Tripp, uncle of Bartlett Tripp. These latter Tripp gained his prominence. With the exception of his brief term in the United States senate, Moody has been in the arena for over thirty-five years and there is no man to-day who is more familiar with the code as it was and is than he.

A Fifteen-Round-Go.

Special to The Journal. Houghton, Mich., May 9.—Jack Beauschotte, heavy-weight, of Chicago, who put out Jim Arnold, of Duluth, in eight rounds last Saturday, will meet the champion middle-weight of reputation, for fifteen rounds, before the Twin City Athletic Club, at the Harvard armory Saturday evening. The prize of \$300, winner to take 75 per cent.

Harvard Beats Yale.

Atlantic City, N. J., May 9.—Brown of Harvard defeated Hitchcock, Yale, 4 up, at golf; Stuckey of Yale defeated Lindsey of Harvard, 1 up, at golf; Cheyne of Yale, one up; Averill of Harvard beat Myers of Yale, three up. In the first round of the golf tournament, sixteen points to Yale's one, according to straight match play, and 12 to 14 points by the new college system of scoring.

ANTI-COMPACT LAW

Insurance Men of Iowa Move for Its Repeal.

Special to The Journal. Des Moines, Iowa, May 9.—Fire insurance men at a conference here entered on a movement for remedying the insurance laws of the state. They purpose to secure the repeal of the anti-compact law which prohibits companies from agreeing on rates of premiums or commissions to agents. The law is being introduced to head off the introduction of a valued policy law, which was only defeated at the last session of the last legislature by the veto of Governor Cook. The companies need further change in the code so as to make it compulsory that the appraisal method settlement shall be followed when either the insurer or the assured demands it.

GRAIN IN SILOS

Illuminating Demonstration by Francis Fox.

Special to The Journal. London, May 9.—At a conversation of the Royal Society, Francis Fox gave an interesting demonstration of the pressure of grain in silos. He showed that 240 tons upon upright walls ten feet apart would exert a pressure of 100 tons per foot upon the floor, the explanation that the grain forms "self into arches, the ends of which press downwards on the walls with vertical, not horizontal or bursting pressure. He further said it had been ascertained that after an earthquake more weight was transferred from the floor to the walls.

ENGINEERING

New Department for the Northwestern University.

Chicago, May 9.—Northwestern university is to have a department of electrical and mechanical engineering. The department will be introduced next year and will be under the charge of Professor Henry Crew, head professor of physics. He will be assisted by Professor Bastkin, who at present holds a fellowship at the university and who was until recently mechanical expert of the American Lullifer Frism company. The mechanical department will be under the direction of Mr. Starkweather, an expert mechanical engineer of New York.

Sight May Be Lost.

Special to The Journal. Packwood, Iowa, May 9.—Miss Ella Knox, who at present holds a fellowship at the university and who was until recently mechanical expert of the American Lullifer Frism company. The mechanical department will be under the direction of Mr. Starkweather, an expert mechanical engineer of New York.

Special to The Journal. Indianapolis, Iowa, May 9.—Senator Berry has filed notice of an appeal to the supreme court of the case of Margaret Hosack, now serving a life sentence in the penitentiary for the murder of her husband. The senator was one of the attorneys for the defense at the time of the trial and is now appearing in court to have the sentence commuted each day of the innocence of his client.

Chicago—Green Pack, of Bluefields, Va., in Chicago on his way to Harlan, Iowa. With his wife, he has walked the whole distance.

Special to The Journal. Buffalo, Iowa, May 9.—Municipal Judge Ira P. Shisler lies in a precarious condition. He was affected by gangrene last year in one toe, and the toe was amputated to his foot and part of that was removed. It kept on going up, and the foot was taken off a few inches above the ankle last fall. The disease seemed to be checked, but recently it has appeared in the other foot, and that member was taken off a few inches above the ankle yesterday. His recovery is considered doubtful, as there are other complications.

John Peerman, who lives near Melrose, has commenced a divorce proceeding against his wife, Stella Peerman, who is in the Blue Earth county jail awaiting her trial on the charge of bigamy. Peerman had supposed until recently that his wife had secured a divorce from him half a dozen years ago, and he married again. He now alleges adultery and desertion and asks for the two children. Mrs. Peerman claims that she, too, had supposed that she had been granted a divorce from her husband, as she desires to have the children. Garden City township is in a tangle over an election which it held Tuesday to organize a township graded school under the laws of 1887. The proposition was carried by the male voters 103 to 97, and by the male and female voters combined, 160 to 130. After the vote had been counted, objections were raised that the women should not have been allowed to vote. A vote had also been taken on the proposition to raise money to establish the school and on that to elect trustees, but the judges refused to count the votes on these propositions and sealed the ballot boxes, to await legal advice. This is believed to be the first township in the state to take advantage of the law.

Madagascar's "Ruler" to Whistle-Away Time in France. New York Sun Special Service. Paris, May 9.—The captive Queen Ranavalona of Madagascar is coming to visit Paris. Permission was given her by the direct intervention of President Loubet, to whom the queen recently addressed a letter asking consent to visit the city. Queen Ranavalona will be allowed to remain in France two months. She will pass half the time in Paris and the rest at the fashionable watering places, which she greatly desires to do. Queen Ranavalona is kept a semi-prisoner in Algeria.

Prominent Lodge Man Killed. Buffalo, Iowa, May 9.—George Kuhn, a prominent Pythian, was killed while on his way home from lodge by a bolt of lightning.
