

YERXA COFFEE

The Coffee drinker has some rights. We submit to the criticism of every Coffee drinker that "Hoffman House" is a 30-cent coffee with all the Java and Mocha richness, fineness, fragrance, smack and life of the best elsewhere 45-cent Coffee—but the genuine article can be bought in bulk at the Yerxa Stores only.

Teas Few import as good; few tea dealers import at all, but lean on the expensive middleman. By reason of importing direct, we are enabled to retail pure teas thus:

"Minarda" Tea 60c
 "Aline" Tea 60c
 Japan Tea 35c
 Hoffman House Coffee 22c
 Coffee 30c
 Coffee 22c
 Coffee 15c

THE CITY TOWN TALK

The Provision Co., has added a full line of teas and coffees to their market business. School pictures, school memorials, factory prices. Smith's factory, 417 First avenue S. 1901 bicycle snap; Tribune, 235. Northwestern Motor Vehicle Co., 611-13 First Avenue S. Flowers for funerals and all other purposes shipped to all parts of the Northwest. Sendenbach Bros., 1116-1118 Sixth street S. Subscribe for all magazines, papers, etc., and get your binding done at the Century News Store, 3 Third street S., near Hennepin avenue.

Protect your silver, other valuables and jewelry by using the Safe Deposit and Storage vaults of Minnesota Loan and Trust Co., 213 Nicolet avenue.

A small pug dog has aroused the neighbors in the vicinity of Eighteenth and Twentieth avenues NE, along Central avenue, for the past three days. The animal is thought to be afflicted with rabies and several dogs have been bitten, but so far no persons have been attacked.

The National District Telegraph company, which petitioned the council at its last meeting for a franchise to do a watch and private fire alarm business in Minneapolis, yesterday withdrew the petition, announcing that it had investigated the matter further and found that there was not big enough field here for two such concerns.

The Minnesota Title Insurance and Trust company, of Minneapolis, is examining the title of the city of Paul to the new jail site at Fourth, Third and St. Peter streets. If the company can satisfy itself that the greatest difficulties in the path of a transfer are not insurmountable, the policy will be laid before the Ramsey county commissioners next Monday.

There will be a meeting at Mayor Ames' office this evening between the mayor, representing Governor Van Sant, and a committee of officers from the Minneapolis battalion. At this meeting they will attempt to decide on the question of giving the battalion a permanent headquarters. The committee consists of Major Corstian, Captains Smith, Hovey and Langens, and five other members. It is proposed to raise the necessary funds by subscription.

Superintendent of Police Ames told the police committee yesterday that he wanted some red, white, blue and yellow cords for police equipment. The yellow cords will be used for the mounted squad; the blue and white cords will wear white silk cords for their hats, and the sergeants blue silk, while the blues used by patrolmen are of a commoner material. They will cost about \$48. A request was also made by the chief for extra summer uniforms for the patrolmen.

At a meeting of representatives of all A. O. U. W. lodges in the city, called to act upon the invitation of the Grand Lodge, a memorial day exercises, it was unanimously decided that the entire membership of the order should appear in a parade on Monday. Officers have been appointed and music secured for the occasion. The orders in Minneapolis number over 4,000, and the parade will be a musical one, the prospects of turning out almost the entire strength. They will be headed by a brass band and the uniformed staffs of the various lodges.

HAD A YOUNG GOLD MINE

MAN WITH NOR. PACIFIC STOCK

He Came Into Town in a Hurry and Managed to Work It Off Around 700.

There is one lucky Hennepin county man at least. This one resides just outside the city. Yesterday, having heard a great deal about the fancy prices brought by Northern Pacific stock, he went to the city, bringing with him twenty shares which he has possessed for some time past, with the intention of selling at some point under 200.

Arriving in the city he lost no time in seeking a broker and was very much astonished when told that the stock was just at that moment listed at 700. He immediately brought forth his certificates and asked that they be sold. The broker did not know him and informed him that identification would be necessary before any business could be done.

In this dilemma the man thought him of George Bell, of the Hennepin County Savings bank and the telephone was immediately called into requisition.

Bell gave the man a certificate of identification and the broker undertook to wire New York and make the necessary arrangements for the transfer.

All these preliminaries, however, took considerable time and the price of the stock continued to rise steadily until the 1,000 mark was reached. The countryman sweating with apprehension meantime. Fortunately for him, however, there was a very little delay and his stock was disposed of at a price in the vicinity of the 700 mark.

One story in circulation was that a local banker, the possessor of thirty-six shares of stock, had disposed of them at \$1,900, but in circulating about the city the usual trimmings were added to the shares and grown to 28,000 shares and the banker's profits to over \$3,000,000.

After the high mark of the market had been reached local brokers received advices from New York that the price of the stock had fallen to figures and therefore the actual dealings in that security amounted to very little indeed.

THE WEATHER

The Predictions.

Minnesota—Generally fair to-night and Saturday; cooler Saturday and in south-east portion to-night; northwest winds. Wisconsin—Partly cloudy to-night; generally fair and cooler Saturday; easterly winds shifting to fresh northwest. Iowa—Partly cloudy to-night; generally fair Saturday; cooler easterly winds, shifting to northwest. North Dakota—Generally fair and continued cool to-night and Saturday; probably shifting to fresh northwest. South Dakota—Generally fair to-night and Saturday; cooler in east portion to-night; continued cool Saturday; probably heavy frost to-night; northerly winds.

For Minneapolis and vicinity: Fair and cooler to-night and Saturday.

Weather Conditions.

There have been rains during the past twenty-four hours in the Allegheny mountain region, northern New England, northern Michigan, eastern Montana, the Dakotas, Nebraska, western Minnesota, the British Possessions, northern Texas, Washington and Oregon, and rain was falling this morning at Boston, Los Angeles, Prince Albert and New Ulm and "Minneapolis City, Minn. The rains were all light, except in the northwest, where it was warmer than it was yesterday from Lake Superior southwestward to Texas and New Mexico, and colder in the Dakotas and Nebraska and thence northward. This morning's temperatures are below 40 degrees in western and central North Dakota, Wyoming and Montana and the British Possessions west of Manitoba. The pressure is low in the whole central valley region and high in the extreme northwest. There have been high winds from thirty-six to forty-eight miles per hour in the Dakotas, Nebraska and Montana, and seventy-six miles per hour at Miles City.

T. S. Outram, Section Director.

NEW PUMPING STATION

Council Committee Would Rush the Work on It.

The council committee on water works believes that there is urgent need of a new pumping station in northeast Minneapolis to obviate at the earliest possible time the necessity of using the West Side station in emergencies. At a special meeting of the committee last night, it was agreed to recommend to the city council at to-night's meeting to advertise for bids for one and perhaps two pumps for service in the new station as soon as it is finished. J. T. Fanning, consulting engineer of the water department, advised the use of three pumps of 1,000 gallons capacity each at the new station, instead of two of 15,000 gallons.

It is estimated that the smaller pumps will cost about \$60,000 each and that it will take a full year to erect the building and install the pumps. The council, some months ago, set aside \$100,000 from the water department fund to erect the building, and some preliminary work has already been done. If the proposed Coon Creek dam is built, it is probable that the city will try to make a deal for the use of electric power in the operation of the new station. The city engineer was instructed last night to make an estimate of the cost of the building complete and of three boilers.

FORTY CARS

It Will Take That Many to Bring Conductors to Minneapolis.

The advance guard of the delegates to the railway conductors' convention will arrive in St. Paul next week. Addresses of welcome will be made by Governor Van Sant, Mayor Smith, Grand Master E. P. Saenger of the Locomotive Firemen and probably E. A. Morley, secretary of the Interstate Commerce commission. The entertainment of pleasure has been arranged for the visitors. The convention will last just one week.

The special committee of the entertainment of the conductors on the occasion of their visit to Minneapolis met in conjunction with the railway conductors' committee in the office of Mayor Ames last evening. Forty cars will be chartered to bring the conductors and their friends to Minneapolis. All principal points of interest in the city will be visited.

MANHATTAN BARRED.

The Manhattan Fire Insurance company of New York is debarred from doing business in Minnesota. Insurance Commissioner Deane has revoked its license on the ground that the company has allowed its capital to become impaired.

"Your wife doesn't seem to be one of those complaining women."
 "No," answered the Kansas husband. "Sometimes I wish she would sit down and complain. I would feel good, starting down town with an ax every time she gets a little bit tired."

FOSTER & WALDO, 49 5th St. So.

THE CITY TOWN TALK

Old Timers Say "Amen" to "Zeke" Austin's Views.

THERE IS ONE EXCEPTION NOTED

They Are Done With Fusion in Every Respect—Both State and National.

Old line democrats are willing to meet the populists of the "Zeke" Austin school more than half way. They say "amen" to the proposition to drop fusion on the national ticket, and further declare themselves opposed to further fusion in state and local politics. In this they are diametrically opposed to the Bryan element, which still wants fusion all the way down the line. While Minnesota democracy still has all the respect for Bryan, the old-time leaders of the party do not agree with him on this question of policy, and it is a good guess that as far as Minnesota is concerned fusion is dead.

The views are clearly and pointedly stated in the following interview given **The Journal** by one of the party leaders, who has always stood by Bryan, but differs with him now:

Fusion to the Rear.

There is no use talking about fusion any longer. It has always been a bad thing for democracy, though many of us thought differently a while ago. There will be only two parties of any consequence next year and in 1904. The populists who are disinterested and now democrats will be willing to declare themselves as such. The party is not going to be swallowed up by the gold democracy, neither is it by the silver republicans. Scramble a gold democrat and you find a better name with a silver republican. There are some pot-hunting politicians who will try to keep up a populist organization for local fusion in order to get their share of the nominations; but they will find the democrats can go it alone, and there will be nothing left of the populist party but a few irreconcilables.

Fusion is not honest. The proposition to run independent issues and to have separate state purposes is ridiculous. The great mass of the people have no sympathy with trading and sacrificing independence for petty jobs, and such a policy will only lose votes.

Bryan's Error.

In my belief, Mr. Bryan, in his Commoner, is making a great mistake. He is raising a controversy with the bolters, the gold democrats, about the control of the party. He ought not to recognize them as democrats at all until they show a disposition to come back and work with the party. They are willing to swallow us up. They know as well as we do that a party dominated by Cleveland democracy could not get any electoral votes in the west.

If the present prosperity continues, we shall not show any signs of the trouble that will continue to encroach without any remedy being applied by the republican party, we shall have an excellent show to win in 1904 on a platform of tariff reduction and a rural policy in the hands of the republican party. The platform would rally the whole democracy, all the populists but the irreconcilables, who are only republican stock pigeons, and it would bring to our support many republicans.

The Candidate.

How about a candidate? Well, it is too far away to say. We want a conservative man who will have the confidence of the business public, but he must be a man free from any suspicion of control by such men as Cleveland in the east and James J. Hill in the west. I cannot say I can say at this time. David B. Hill? Well, I am sure I do not know enough about it to say just yet. But a man such as I have described would hold all our old strength in the east and our newly acquired electoral votes of the west.

CONNECTION SEVERED

The Woodworkers Withdraw From Building Trades Council.

The Woodworkers' Union formally severed its connection with the Building Trades Council yesterday. The resolution of the council asking for the withdrawal of the union in the interests of a peaceful settlement of the strike between the master builders association and the carpenters' union was adopted April 1st and first came up for consideration by the Woodworkers' Union at last night's meeting. The woodworkers, while unanimous in their approval of the resolution, decided to accept the suggestion of the council, took the request in no very philosophical humor, and in the course of the resolution announcing their withdrawal from the council they made a few remarks regarding the council's action. The council in refusing to stand by the union violated one of the fundamental principles of unionism, that is, to stand by the woodworkers had every prospect of winning their contest with the manufacturers had the council stood by it, it was stated.

DOBBY'S VERSION

Says the Republicans Did Not Play Him False.

W. R. Dobby of Minneapolis says he was not turned down by the railroad and state committee, and that the state committee was not turned down. His name was left off the list of appointments. In explanation Mr. Dobby says: "Some of my political enemies are trying to make it appear that I was not appointed. That is not the truth. My name was presented to the commission as a candidate for registrar at Minneapolis. I was willing to accept the place if the legislature would not require my full time. Paul Fontaine has been working only about two hours a day in that place. The commission decided to elect by regular ballot a registrar, in addition to his own duties, to do the work of a clerk in the weighing department. I therefore declined to accept the place, as my business would not permit me to give up my whole time to other work. I do not blame the commission for their action, which is in the direction of economy, and have no complaint to make whatever."

TERRITORIAL PIONEERS

They Hold Their Annual Meeting To-morrow.

The annual meeting of the Territorial Pioneers is to be held to-morrow in the log cabin at the state fair grounds. Some of the Minneapolis members will go down in Charles E. Wales' old Concord stage coach, which precedes the interurban car. They will leave the West hotel at 9:30 a. m. St. Paul will send its contingent in an old stage coach, and in its modern successor, the automobile. Judge D. A. Baker, the first district school teacher in St. Paul, will be in attendance with the following pupils, who used to bring excursions to him for absence fifty years ago: Lorenzo territorial pioneer, John E. Hoyt, Mrs. J. Hoyt, W. H. Hoyt and Mrs. Hannah E. Hazzard.

The souvenir publication No. 2, containing a full report of proceedings of the past two years, names of members and half tone portraits of over 160 pioneers, with biographical sketches of each, will be ready for delivery at the log cabin to-morrow.

AFTER THE WESTERN UNION.

The legislature has given the attorney general power to enforce the collection of taxes levied on telephone and telegraph companies by a suit in the district court. The Western Union resists collection of its 1899 and 1900 taxes, claiming their assessment excessive. It will shortly be brought to enforce payment.

AFTERMATH.

Parson Primrose—I thought you liked to have company at the house. You seem to have plenty of fun when there are visitors here.

Freddie—Yes, sir; but I always get the stuffing knocked out of me as soon as they are gone.

THE ONE-PRICE COMPLETE HOUSEFURNISHERS,
 5th St., 6th St. and 1st Av. S.

BIG SALES IN SIGHT

Good Crop Prospects Encourage Land Investors.

A 150,000-ACRE SALE THIS WEEK

Many Sales of From 15,000 to 25,000 Acres Are Reported Recently.

With the present favorable crop prospects the land sales of 1901 promise even greater things than the most sanguine considered probable earlier in the year. Every section of the northwest has a pleasant story on crop. The seed was in the ground in time, and the weather that followed was favorable.

The Hackney-Boynton Land company of St. Paul, which in the past year has been operating in farm lands at the present time in the west, expects to make its sales reach 1,000,000 acres by harvest time. In seventy-five days this company has disposed of 600,000 acres of land to syndicates and a large amount in small tracts to actual settlers. A Des Moines syndicate made a purchase of 150,000 acres this week, located in Logan, Emmons, and McIntosh counties, North Dakota. Another syndicate from southern Minnesota bought several townships in that part of North Dakota. Several Nebraska, Kansas and Iowa men have made purchases ranging from 15,000 to 25,000 acres within the past two weeks. These lands will be resold in smaller tracts to farmers from the three states mentioned. Mr. Hackney says that nearly all of the buyers are impressed with the value of creameries to a western state and he believes the dairy industry will be given an impetus by the new syndicates as well as the many new settlers who are going into the Dakotas from Iowa, southern Minnesota and Nebraska.

SETTLE DIFFERENCES

St. Paul Carpenters and Builders Agree.

Unless the St. Paul Building Trades' Council interferes, there will be peace between the Carpenters' Union and the contractors needed in the Builders' Exchange in that city. Committees from the exchange and the Carpenters' Union met last night and agreed upon a scheme of settlement of the differences. Both sides concurred something. It only remains now for the Building Trades' Council to ratify the agreement and it will stand for the present season.

One of the important provisions of the agreement is that which declares that the council shall have no power to order out the carpenters on sympathetic strikes. This is a serious question of the powers of the council, and it may refuse to endorse the proposition. The agreement also provides for a permanent arbitration board to enforce its provisions. The laboring day is placed at eight hours, and the wages at 2 1/2 cents per hour, with one-half more for overtime.

ARNE GOES TO SHATTUCK.

Judge Kelly of the district court, St. Paul, issued a peremptory order yesterday that Ray S. Arne, the young boy whose custody has been frequent cause of contention between his parents, should be taken at once to Shattuck school by a deputy sheriff. The father declared that the boy had suffered an injury to his knee and that he was not able to be moved. The order of the court will be executed immediately.

HOW DID SHE DO IT?

State Superintendent Olsen was surprised yesterday to hear from a Minneapolis school teacher, who in applying for a position in one of the summer schools informed him that she had done some very effective campaign work last fall, and that she got him a good many votes at least. Mr. Olsen had been under the impression that his office is appointive, and does not recall having made any campaign last fall.

CERTIFICATE OF AMENDMENT TO ARTICLES OF INCORPORATION OF BARNARD-COPE MANUFACTURING COMPANY.

Know all men by this certificate, which the "Barnard-Cope Manufacturing Co." (a corporation organized under Title 2, Chapter 34, General Statutes, 1894, of the State of Minnesota) has caused to be prepared, and to be subscribed and sworn to by its President and Secretary, in accordance with the annual meeting of the stockholders of said corporation, held at the office of said corporation, in the City of Minneapolis, Minnesota, on the 21st day of May, A. D. 1901, all the stockholders of said corporation being then present and consenting to the transaction of the business hereinafter referred to, the Articles of Incorporation of said corporation were amended and the amendments were adopted by the unanimous vote of all the stockholders of said stock, to-wit:

"Resolved, That Article III. of the Articles of Incorporation of the Barnard-Cope Manufacturing Co. be, and the same hereby is, amended so as to read as follows, to-wit:

"The amount of capital stock of said corporation shall be One Hundred Thousand Dollars (\$100,000) shares, of which Three Hundred (300) shares shall be preferred stock and Seven Hundred (700) shares shall be common stock.

"The amount of stock, whether preferred or common, shall be entitled to one vote at all meetings of the corporation.

"No dividend of the common stock upon any of said stock except by the vote of the majority of all the directors of the corporation, and only out of net profits of the business.

"Dividends declared in any year shall be first applied to pay a 5 per cent dividend upon all the shares of the preferred stock; then to pay a 5 per cent dividend upon all the shares of the common stock; and the remainder of the dividend, if any, shall be paid upon the shares of preferred and common stock, pro rata distinction.

"The preferred stock shall not, however, be entitled to cumulative dividends in any year, or on account of previous years, which a full dividend of 5 per cent was not paid upon such stock.

"In Witness Whereof, The said corporation has caused this certificate to be executed, and the said Henry Cope and Harry A. Barnard have subscribed and sworn to the same this 21st day of May, A. D. 1901.
