CHICAGO MAY CORN STRUCK 600

Good Local Cash Wheat Demand-General News of the

Minneapolis Chamber of Commerce, May 15.

—There is a continuation of the weather market in wheat. This morning brought a firmer tone and slightly higher price range, principally from the fact that the rains in Kansas yesterday were not so heavy as first reported. This Kansas situation is the bull possibility at present. Cables were in part responsive to our weakness of yesterday, Liverpool coming ½d lower and closing ½d to ¼d lower. Budapest cabled a synopsis of the official report of Hungarian crop conditions, and placed the acerage as medium, with the crop in need of mild weather and rain.

July wheat opened at 12½c and sold to 284.

in need of mild weather and rain.

July wheat opened at 72½c and sold to 72½c.

Towards noon the market began to ease off again on renewed reports of rains in the southwest. July sold to 71½c. Chicago failed to take hold readily on the early bullish news and was prompt to respond to later favorable reports. May corn in Chicago ran up to 60c. Rains in Kansas yesterday were scattered. Oklahoma was well soaked, and southern Kansas had good rain in places with light showers extending northward. There were showers in Nebraska and South Dakota.

The Washington crop bulletin says the general absence of rain over Nebraska, Kansas and Missouri has somewhat checked the prog-ress of winter wheat, but elsewhere conditions are very favorable, and there is an improvement noted on the Pacific coast. The Kansas weekly weather and crop report says it has been a dry and cool week with frosts, but there has been on the whole little damage, and the wheat is in good condition but needing rain.

Primary receipts were 325,000 bu, against \$22,000 bu last year. Clearances wheat and flour, \$80,000 bu. Minneapolis received 143 cars, and Duluth 9, against 149 and 67 last The market firmed up towards the close

New York had good export inquiry and cash demand was active in all markets. July wheat closed at 7214@72%c; September, 69%@ 69%c; May, 71%c. May corn closed at 40%c; July corn, 40%c. Corn was very quiet. Traders showed dis-position to hold off while the flurry was on

in Chicago and local trading was light.

Milling wheat was in excellent demand. Besides cleaning up the tables, millers drew more heavily on terminals. For the ordin-ary No. 1 the basis was ½c over July, and selected lots sold fractionally higher. No. 2 northern was also drawn freely from ele-vators, and the offerings were taken on a range of 70%c for ordinary to 71%c for choice, averaging around 71c. No. 3 wheat sold from 65%c to 69%c. Rejected ranged from 60c to 64c, wet rejected going at 59c. No grade 64c, wet rejected going at 59c. No grade wheat was scarce and brought 59c to 63c for lots offered.

London, May 15.—3:27 p. m.—Contrary to the fears felt on the stock exchange, the settlement, thus far, is progressing without difficulty, and the best-informed brokers believe the crisis has been successfully passed so far as London is concerned. Opening prices of Americans, while they showed advances over those of the eclosing of New York yesterday, were wholly nominal, and there were no transactions.

Four or five small firms are still in difficulty, but it will not be known until 4:30 p. m. whether their checks have passed through the bank all right or not. In any case, it will not affect the situation materially, all the big houses needing assistance having obtained it.

Logan, New York, to Jolley: Bouvier, who has been bearish for some time and who is notoriously conservative, has turned buil. He believes stocks should be bought on all declines. I would rather take his opinion than any one I know of.

"Ah," exclaimed the minister, "fishing on the Sabbath! What will your father say to you?"
"Can't tell yet," replied the bad boy.
"If I don't eatch nothin' I'll catch it; if
I do, I won't."
