**N. P. FIGHT IS OVER**

Both Factions Manifest a Spirit of Conciliation.

**MORGAN HAS MOST OF STOCK**

Union Pacific to Be Protected in the Matter of the Burlington Lease.

New York, May 15.—The fight for the control of the Northern Pacific railroad has practically ended. The contending parties have practically agreed on terms for an amicable settlement of their differences, and although the details are yet to be arranged, there is scarcely room for doubt that a satisfactory outcome will be reached within a short time.

A spirit of conciliation has been manifested by the Kuhn, Loeb-Harriman syndicate and the representatives of J. Pierpont Morgan, who have seen ardent instructions from the chief in London. Jacob H. Schiff and Mr. Harriman informed Robert Bacon of J. P. Morgan & Co. that as they held about 40 per cent of the common and preferred stock of the Northern Pacific, they were pledged to them they were in position to vote a majority of all the company's outstanding stock at the next annual election in October.

Mr. Morgan and the interests connected with him admittedly hold a majority of the Northern Pacific common stock. The present board of directors is strongly in Morgan's favor, and it has the power to retire the preferred stock at par. Should such a retirement be ordered the voting power of the holdings of the Harriman syndicate would be reduced to a minority. The situation was ripe for a bitter and protracted fight, but by mutual consent the chief parties in interest have determined to eliminate the rivalries and settle all differences on the community-of-interest plan. This determination was arrived at immediately after communication had been opened up between New York and London.

The settlement of his contest for control of the Northern Pacific, it is asserted on excellent authority, will include a satisfactory proposal for the purchase of the interests of the Union Pacific and all railroads affected by the leasing of the Burlington to the Great Northern and the Northern Pacific companies. E. H. Harriman concurred with J. Pierpont Morgan by cable to-day and in the afternoon, when questioned about Northern Pacific control he said:

"In my own opinion everything will be all right. I have no statement to make, but I don't think there will be any more trouble."

**CRISIS THREATENED**

No Plain Sailing Between London and N. Y. Stock Exchanges.

London, May 15.—A crisis of the gravest kind threatens the relations between the New York and London stock exchanges. Monday's action of the board of directors of the London exchange has undoubtedly precipitated it. There is a general feeling around Capel Court today that things cannot possibly go on much longer in the present fashion.

For some time past there has been a growing discontent throughout all sections of commercial England at the increasing grasp of trade by American firms. This has been reflected on a hundred different ways, but most of all in the transactions in American stocks between London and New York.

The climax came more suddenly than was anticipated, owing to developments of such colossal conflicting interests in Northern Pacific as the sudden squeeze last week exposed. London woke up to find that what Harriman, Kuhn, Loeb & Co. had done in Wall Street, they could just as easily do as regards Capel Court. Hence the board of directors of the London exchange turned into such an unfortunate direction.

When everybody was looking forward to a squeeze in Northern Pacific, Morgan had once again declared emphatically to lend any shares due him at "even," which is the official mode of saying that those who owed his firm stock would not be called upon to deliver. The directors in the day Kuhn, Loeb & Co. cabled to the same effect.

In spite of this offer, however, the directors of the stock exchange saw fit to fix the settling of the stock at the board of directors of the London exchange, and at the same time suspend the rule as to the preemptory buying in of sold stock which could not be carried, or had not been arranged in the day Kuhn, Loeb & Co. had arranged to do so.

There are thousands of shares yet unaccounted for, said the Westminster Gazette last night, "and banks are shy of granting any facilities. This means that to-morrow either the unaccounted shares must be taken up—that is, if they are ready for delivery, which is more problematical—or the shares must be bought in against the bears. Should the committee allow such a thing there may be a dozen repetitions of the squeeze in Northern Pacific. On the other hand, the bears and other American stocks have reason to complain if, owing to the discrimination by the directors, they are allowed to go by the board, while the bears in Northern Pacific are allowed to repudiate their deals with impunity. Where the tangle will end nobody can say to-night. Where they would like it to end is another matter, and one on which it is not difficult to give an opinion."

**Northern Pacific Control.**

New York, May 15.—One of Mr. Harriman's associates, in explaining the situation, said:

"So far as the control of Northern Pacific stock is concerned, the following may be given on the authority of certain Harriman interests: Kuhn, Loeb & Co. own a majority of the stock, as shown by actual certificates, including some of the common stock. K. L. & Co. own a majority of the common stock. It is possible for the preferred stock of Northern Pacific to be retired next January. Should this be done the majority of Kuhn, Loeb & Co. would be wiped out and Morgan & Co. would be in control. The annual election of Northern Pacific officers occurs in October. Should it be held at that time, and should the present ownership be unchanged, the Kuhn, Loeb interest would win, but should, as the result of legal action, the election be deferred until after the 1st of January, Morgan & Co. would win."

**CABLE FLASHES**

Paris—Captain Rollinot, who pacified Tebad province, Africa, which has been seized by France, is the hero of the day.

St. Petersburg—Six hundred and fifty-two British consular agents are being sent to Breslin, province of Warsaw. 11,000,000 roubles.

Madrid—A cabinet council it was decided to resign their offices as regards a certain amount of decentralization in administrative affairs.

London—The Morgans, Rothschilds and one or two other houses readily advanced loans yesterday at 5 per cent in order to assist operators over settlement.

San Domingo—The revolt in the provinces of Moca and Le Vega has proved a failure. The operations of government troops led by Vice President Vasquez have been successful.

Yokohama—The birth of an heir to the throne of Japan has caused such manifestations of public joy as has never before been known even among the enthusiastically festive people.

Manila—The military court sentenced Commander Woodcock to dismissal from the army and three years' imprisonment. He was found guilty of having improperly placed his arms in the hands of a private.

Peking—Yesterday eight American soldiers robbed a jeweler's shop in the British section of thirty-four watches and a number of other valuables.

Cape Town—In an address to the St. George's society, Sir Gordon Sprigg, prime minister of Cape Colony, declared emphatically that there was not a vestige of truth in the report of ministerial dissensions.

Berlin—Some time ago Herr Krupp bought a coal mine in Westphalia belonging to the coal syndicate. The latter refused to allow Krupp to have the product of the mine and consequently he instigated suit against the coal syndicate. The case has been decided against Krupp.

Frederic—The number of burghers who are surrendering is rapidly increasing. These men state that the Boers are worn out by the protracted war and are ready to surrender. A majority of the burghers who have surrendered are without horses and all are half starved and poorly clad.

Vienna—The newspapers here print a sensational story of a plot to kidnap the Sultan of Turkey. It was the intention of the conspirators to arrange for a declaration that the majesty was insane, and then to keep him secretly confined, and to proclaim his younger brother, Mohamed Reza, sultan in his stead.

Manila—Detectives and local police have captured and broken up an American band and brigades who have been operating in the province of Pangasinan. George Raymond, Ulrich Rogers and Oscar Williams have been captured, and Andrew Martin, Peter Heise, George Munn and two others are still being sought. The band committed outrages, criminal assaults, robbery and murder.

**IN A NUTSHELL**

Washington—Mrs. Gage, wife of the secretary of the treasury, who has been ill for some time, is reported to be in a serious condition.

Toledo, Ohio—Former President Cleveland, who is failing at Middle Bass, is having poorer luck than usual. Two other anglers have made bigger catches.

New York—W. Bourke Cockran is the recipient of a distinguished honor at the hands of Roman Catholic Archbishop Corrigan, in the conferring of the Latimers medal.

Oklahoma—G. B. Stone, a prominent real estate dealer, shot Elmer E. Luke, another real estate dealer, fatally wounding him. The men quarreled over a real estate transaction.

Chattanooga—A strong movement is on foot to have the general land office set aside part of the Wichita mountains, near here, for a national park, to be ten miles square and to contain 6,000 acres.

Pittsburg—Fifteen millions in bonds of the Carnegie company, the launching of which signalled the practical close of the famous business quarrel of Andrew Carnegie and H. C. Frick, have been burned.

New York—Official announcement is made of the formation of a company to purchase and control the cotton duck trade, to be known as the United States Cotton Duck company. It has a capital of \$2,000,000.

Chicago—Delirious from the ravages of erysipelas and practically blind, "Billy" Rice, sixty-eight years of age, was taken to the National Hotel to the county hospital. His friends say there is little hope for recovery.

Hamilton, Ohio—President John H. Thomas of the Oxford university for women, has tendered his resignation. The office of president will be held by Mrs. J. H. Robinson, the present dean, who will become the executive head of the institution.

Chattanooga—H. J. Evans, commissioner of pensions, has arrived here. He declared the report that he was to be appointed minister to Japan is absolutely without foundation. He also denied that he is to succeed Charles Emory Smith as postmaster general.

Washington—Though China has practically accepted the demands of the powers for an indemnity of \$20,000,000, Special Commissioner Hays has been instructed by the acting secretary to work for a reduction of this amount. It is evident to the officials that these efforts will be barren of results.

Washington—The immigration officers in charge of the bureau here are surprised by the amount of Chinese immigration during the month of May. He has attacked and fired on by two men, and that he had returned the fire. The police have been unable to locate the two men, and fearing a repetition of the books seems to point to a shortage of \$15,000.

Washington—Admiral Bradford, chief of the naval bureau of equipment, has given out an extract from the report of the board which has investigated the question of transmitting messages by wireless telegraphy. It recommends that the system be adopted by the navy for transmission of messages between distant points, and that two stations be established where officers and men may be trained in the science.

Chicago—A story was circulated in Englewood that Dowie's branch Zion was to be blown up, the motive being, presumably, to express contempt for the death of Mrs. Judd. John Alexander Dowie deserted his best friend and right-hand man, and, fearing mob violence, refused to attend the funeral of Mrs. H. Worthington Judd, whose life was sacrificed on the altar of "Dowieism" in order to perpetuate the strange creed which places a ban on medical aid.

New York—Mrs. Eliza A. Frost is suing Robert A. Pinkerton, the detective, and the Brooklyn Jockey Club for \$50,000 damages for alleged false arrest and assault and battery. She told at her trial how she was imprisoned in a caboose at the Brighton Beach race track. Her husband, some time ago, recovered a \$50,000 verdict against Pinkerton and the club on a similar complaint. She said she was attacked and fired on by two men, and that he had returned the fire. The police have been unable to locate the two men, and fearing a repetition of the books seems to point to a shortage of \$15,000.

Miss Mary L. Bertwell, Cambridge, Mass.; Charles P. Kellings, Waterbury, Conn.; W. H. McLean, St. Louis; Lee K. Frankel, New York; treasurer, A. D. Crockett, Grand Rapids, Mich.; official reporter and editor, Mrs. Isabel C. Barrows, New York.

Washington—The monthly statement of imports and exports of the United States shows that during April, 1901, the imports of merchandise amounted to \$750,882, which is \$8,467,725 less than the same month of the year 1900. The exports of domestic merchandise during April exceeded the imports of April, 1900, by \$1,000,000 in excess of the imports of April, 1900. The exports of domestic merchandise during April aggregated \$120,780,590, an increase of \$2,000,000.

**ON THE AGGRESSIVE**

Iowa Insurance Men Organize to Affect Legislation.

Des Moines, Iowa, May 15.—Fifty fire insurance men representing practically all the companies doing business in Iowa, organized yesterday for a campaign to influence insurance legislation in the next meeting of the general assembly. Three bills will be asked: First, the repeal of the anti-compact; second, the repeal of laws making unjust discriminations against foreign companies, taxing them 3 1/2 per cent and American companies only 2 per cent; third, suppression of an expected repetition of an attempt to pass a valued policy law.

The state was divided into thirty-eight districts, and one agent was assigned to each, in which he will do political work from now until the legislature convenes. An executive committee was named.

Results When Coffee Drinking is Abandoned.

It is almost as hard for an old coffee toper to quit the use of coffee as it is for a whisky or tobacco nee to break off, except that the coffee user can quit coffee and take up Postum Food Coffee without any feeling of a loss of the morning beverage, for when Postum is well boiled and served with cream, it is really better in point of flavor than most of the coffee served nowadays, and to the taste of the connoisseur it is like the flavor of fine Java.

A great transformation takes place in the body within ten days or two weeks after coffee is left off and Postum Food Coffee used, for the reason that the poison to the nerves has been discontinued and in its place is taken a liquid that contains the most powerful elements of nourishment.

It is easy to make this test and prove these statements by changing from coffee to Postum Food Coffee.

**MINISTER ARNOLD'S LETTER**

Dr. Greene's Nervura Built Up His System and Restored His Energy. He Says: "PubNah This Letter For Others' Good."

When you are run down with overwork and mental strain, the world is a dark and dreary place. Lassitude and weariness possess you. Every morning you wake unrefreshed. Your blood is thin and impure. You do not get the benefit of your food. Your appetite has gone from you and the whole machinery of existence is out of order.

Do you realize that when the blood is foul, there is a steady infusion of poison into the muscles and fibre of the body? How can you look for strength while this is going on?

Dr. Greene's Nervura blood and nerve remedy is the most potent medicine for this distressing condition known to the world to-day. It is almost marvellous in its operation and there is no mystery about it. It drives out foulness by natural means, and without stimulation. Stomach, liver, and kidneys begin promptly, with its help, to do their proper work of strengthening and draining the system. You are helped almost instantly by it, and there is a steady progress to absolute health.

REV. E. L. ARNOLD.

Take now heart from the letter of Rev. E. L. Arnold, Pastor M. E. Church, Mooers, N. Y., which shows the way to vigor and strength:

"I have used Dr. Greene's Nervura blood and nerve remedy for nervous prostration and debility. I have used it frequently when in that exhausted condition brought on by overwork, and I count it a very excellent remedy for building up the system and restoring lost energy. I can and do recommend it to others, as a remedy of a very high order of merit. My permission is given to publish this letter, with my photograph, for others' good."

Minister Arnold is a hard worker in his field. Every hour of his time calls for some special effort of body and mind. His letter contains a message to all who are exhausted and worn out, all who are weak, prostrated and ill. Dr. Greene's Nervura is the true help for all such. It is Nature's powerful assistant and never shocks the system. Begin its use to-day, if you are weak or debilitated from any cause. The counsel of Dr. Greene may be had free of charge, by all who call or write to him at 35 W. 14th St., New York City.

**TRANSFORMATIONS**

Results When Coffee Drinking is Abandoned.

It is almost as hard for an old coffee toper to quit the use of coffee as it is for a whisky or tobacco nee to break off, except that the coffee user can quit coffee and take up Postum Food Coffee without any feeling of a loss of the morning beverage, for when Postum is well boiled and served with cream, it is really better in point of flavor than most of the coffee served nowadays, and to the taste of the connoisseur it is like the flavor of fine Java.

A great transformation takes place in the body within ten days or two weeks after coffee is left off and Postum Food Coffee used, for the reason that the poison to the nerves has been discontinued and in its place is taken a liquid that contains the most powerful elements of nourishment.

It is easy to make this test and prove these statements by changing from coffee to Postum Food Coffee.

**MINISTER ARNOLD'S LETTER**

Dr. Greene's Nervura Built Up His System and Restored His Energy. He Says: "PubNah This Letter For Others' Good."

When you are run down with overwork and mental strain, the world is a dark and dreary place. Lassitude and weariness possess you. Every morning you wake unrefreshed. Your blood is thin and impure. You do not get the benefit of your food. Your appetite has gone from you and the whole machinery of existence is out of order.

Do you realize that when the blood is foul, there is a steady infusion of poison into the muscles and fibre of the body? How can you look for strength while this is going on?

Dr. Greene's Nervura blood and nerve remedy is the most potent medicine for this distressing condition known to the world to-day. It is almost marvellous in its operation and there is no mystery about it. It drives out foulness by natural means, and without stimulation. Stomach, liver, and kidneys begin promptly, with its help, to do their proper work of strengthening and draining the system. You are helped almost instantly by it, and there is a steady progress to absolute health.

REV. E. L. ARNOLD.

Take now heart from the letter of Rev. E. L. Arnold, Pastor M. E. Church, Mooers, N. Y., which shows the way to vigor and strength:

"I have used Dr. Greene's Nervura blood and nerve remedy for nervous prostration and debility. I have used it frequently when in that exhausted condition brought on by overwork, and I count it a very excellent remedy for building up the system and restoring lost energy. I can and do recommend it to others, as a remedy of a very high order of merit. My permission is given to publish this letter, with my photograph, for others' good."

Minister Arnold is a hard worker in his field. Every hour of his time calls for some special effort of body and mind. His letter contains a message to all who are exhausted and worn out, all who are weak, prostrated and ill. Dr. Greene's Nervura is the true help for all such. It is Nature's powerful assistant and never shocks the system. Begin its use to-day, if you are weak or debilitated from any cause. The counsel of Dr. Greene may be had free of charge, by all who call or write to him at 35 W. 14th St., New York City.
