

The New Fancy Flannel Suits.

As the warm weather approaches the fancy French and English Flannels are in great demand.

They come in shades of blue, gray, green and brown, with a "chalk line" that is just "the thing."

We have them at popular prices, \$10, \$12, \$15 and \$18, and in the military cut that is so popular, but our patterns do not caricature the style.

J. J. HILL IN MINING

Great Northern President Plans Another Iron in the Fire.
Montreal, Quebec, May 16.—James J. Hill has interested himself in mining in Canada. Yesterday a second chartered schooner, carrying a number of men, left on the way toward the north coast to a place known as Riviere St. Jean, in the Labrador district, where work of extensive proportions is now in progress.
That the territory lying north of the St. Lawrence river possesses wealth beyond conception in the way of mines is now on the eve of being proved beyond a doubt. Mr. Hill has interested himself in the matter, and it is alleged he has already under his control all the water power throughout the district.
It is known he has purchased land at Riviere St. Jean and that he has already commenced the construction of a handsome residence to be utilized principally by him when on the fishing trips. The structure, which is to be unique, will cost about \$50,000. Mr. Hill is expected there in June on his yacht.

JAYHAWK WHEAT

Twenty Thousand Harvesters Are Needed in Kansas.
New York Sun Special Service
Topeka, Kan., May 16.—Kansas will need at least 20,000 from outside the state to cut, stack and thresh the season's wheat. Last year about 15,000 men were imported, and the demand will be far greater this year.

IT IS EASY WORK

when you are well, to rub and scrub, but when the back aches and the head throbs, a woman's work is hourly torment.
No woman can be strong and healthy of body who is the victim of those womanly diseases which are often responsible for feminine sufferings. Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the womanly organs, say that work doesn't tire them any more. "Favorite Prescription" regulates the periods, dries encrusting drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.
There is no alcohol in "Favorite Prescription," neither opium, cocaine or any other narcotic.
"I had poor health for nine years (ever since the birth of my child)," writes Mrs. Arminia Watkins of Acme, Kanawha Co., W. Va. "Had female weakness, was very irregular and would suffer untold misery. Our family doctor did not do me any good and I concluded to write to you. When I wrote I had no idea that I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr. Pierce's medicine as directed and began to improve in strength. I was soon able to do the work for my family of six. I think there never were such medicines in the world. I took eight bottles of Favorite Prescription and five of Golden Medical Discovery and two of Dr. Pierce's Pellets cure constipation."

RATHER UNWORLDLY

Novelty in the shape of a Church Trust in Ohio.
Toledo, Ohio, May 16.—Toledo evangelical churches are to form a trust. The plan has been approved by the pastors' union and will be submitted to the various congregations next Sunday. The object is to concentrate force, economize effort and afford a solid front against money and private evil. There are in the city 100 religious gatherings, places to a population of 145,000. The erection of unnecessary churches will be opposed. Where a neighborhood has sufficient churches of whatever denomination, the federation will stand against the erection of other churches. Where it is conceded that a neighborhood needs a church, a canvas of the people will be made and the best site for possessing the most adherents will be aided by the other denominations in the erection of a suitable edifice. A prime idea of the federation will be to stand as a unit for Sunday observance and for the abolition of gambling and other evils. The opinion now is that every evangelical church in the city will enter the federation.

The Food-Drink.

Malt-Nutrine is especially beneficial to thin-blooded people. It gives life, purity and richness to the blood—energizes the entire system. Prepared only by the Anheuser-Busch Brewing Ass'n, St. Louis, U. S. A.
The Courage of the Prize-Fighter.
The courage that comes from self-confidence may make a man behave very boldly under a certain set of conditions and very differently under another set. A bronco-buster who fears no horse may not be the best man to hunt down a man-killing desperado. The prize-fighter who is a coward in the ring may have the courage that his nonathletic neighbor when it comes to facing a burglar with a gun. Real courage is a matter of steady nerves. It is based on application to the "Golden Grain Belt" beer, for it is brewed from the purest barley malt and hops. Every glass contains the strength of bread and meat and in a form that is easy to digest. It is sold by the "Golden Brewery," sample this delicious beverage and see how it is made. Then you will never be without a case.

IRON TRADE'S QUIET GREAT SHEP

Buyers and Sellers in No Haste to Get Together.

WILDCAT ENTERPRISES GO DOWN

This is One of the Results of the Recent Flurry in Stocks.

New York, May 16.—The iron age says to-day of conditions in the iron trade: "Taken as a whole the conditions of the market have quieted down considerably, and it seems some time will elapse before buyers and sellers get together on a basis for the second half of the year. In some sections and in some branches, sellers show some eagerness, which points to concessions in order to start the buying movement for the third and fourth quarter. The effect of the flurry in stocks has probably not been measured yet. It will cut off many wildcat enterprises, which in an advantage rather than a drawback. On the other hand, some buyers show a disposition to hold off in order to watch developments. It is a significant fact that the agricultural implement-makers continue in the market for supplies for the future, not only charcoal, pig iron and bars, thus showing the iron industry, which is nearest to the farming interests, enjoys unshakable confidence. Some uneasiness is created by the danger of widespread labor disturbances. The situation created by the demands of the machinists may develop awkward phases, and there is a feeling that in the event of a strike controlled by the Amalgamated Association of Iron and Steel Workers, there may possibly be trouble after July 1. Labor generally is reported to be scarce and some feeling to be aggressive. Some good contracts have been placed for welded pipe and quite considerable quantities of structural material have been placed. It is noteworthy that prices abroad for bridge work have declined so much lately that American companies are practically withdrawing from the competition. This we understand to be the case with the Clyde contract, which involves about 9,000 tons, and the Copenhagen and Amsterdam draw-bridges, both large structures.
The steel rail trade has quieted down, as was expected. We understand that the arrangements for a next fiscal year have been under consideration in connection with the announcement is significant that Jones & Laughlins, limited, are to build a mill for rolling rails. The Dominion company, at Sydney, is also reported to be placing orders for rail mill machinery. How the market conditions have changed is illustrated by the fact that foreign old steel rails and old iron rails are now being offered for importation. It is not so long since the export trade in these branches was flourishing. It should be noted, however, that the foreign prices are still so much above our market as to put business out of the question.

A HEROIC MOTHER DIES

SAVED HER BABE FROM FLAMES
Pays Fortell With Her Life, After Refusing Medical Attendance.
Chicago, May 16.—After lingering twelve days, during which time she suffered much pain, Mrs. Josephine Christensen, wife of Louis Christensen, and who, with her two-year-old baby was frightfully burned in the Marquette avenue fire in South Chicago, on the morning of May 6, died last night. Mrs. Christensen refused medical aid to the last, and she stepped into the hallway and was almost swallowed up in the burst of flame and smoke which shot into the room as she opened the door. With her face and hair terribly burned and her hair falling about her head, she got back into the room and close the door. As she did so her strength forsook her and she dropped the baby on the floor. Then she ran to the window and attempted to jump out, but was restrained by her husband. He took her by the hands and lowered her as far as he could. She was on her feet almost immediately and received the baby when it was lowered. The two were taken to the home of Frank McKee and there she and her husband absolutely refused medical aid either for herself or the baby. She finally took the baby by force and placed it in the care of Dr. Lamb, where it still is.
Christensen and several others of his belief prayed for the relief of Mrs. Christensen and after several prayers the woman declared she felt no pain. Later she was removed to the Zion home and from there she was taken to the hospital, where she died without medical aid. The officials at the home and her husband insisted that she was not badly injured and that she would soon be well.

USES RAZOR ON AN OFFICER

A BLOODY AFFRAY IN INDIANA
Clash With Desperados, in Which One Is Dealt Instant Death.
New York Sun Special Service
Petersburg, Ind., May 16.—Winslow, a small town in Indiana, was the scene of a bloody encounter yesterday between Hilda Wright, the deputy town marshal, and Benjamin and Joe Hook, two Ayershire miners, which terminated in the instant death of one of the latter. If not fatal, wounding of the officer. Last Saturday night the Hook brothers and a number of their associates came to Winslow and assaulted the town marshal, beating him almost to death. They then paraded the streets, threatening the lives of prominent citizens. At length they began the destruction of property by throwing clubs and bricks through windows and doors. The citizens were terrorized and did not dare assert themselves.
Yesterday afternoon the Hook boys, who were leaders in Saturday night's rioting, came to Winslow and began a repetition of their former conduct. As Marshal Wright was endeavoring to read a warrant to Ben Hook, issued by Squire Chandler for his previous depredations, his brother Joe came up and began a murderous assault on the officer. Ben Hook then struck the officer with a razor, cutting a deep gash from the corner of the eye to the temple. Joe Hook then stepped forward and assisted his brother. As quick as a flash Officer Wright leveled his gun full at Joe Hook's head and pulled the trigger, sending a bullet through his brain. Hook fell face down and death was instantaneous.

Business Men Should Remember

The story of George Washington and his little hatchet in their newspaper advertisements. It is just as important to advertise honestly and truly as any other transaction in business, and the people will surely pass judgment on any firm that misrepresents. It is a pleasure to do any honest business, and as each week passes and you see your store crowded with satisfied people you feel as if you wanted to be in business all your life. Our business this spring has passed all previous records and there is not a day that our store is not crowded. We are willing to prove to any person that we do the largest furniture and carpet business in Minneapolis. We received the LARGEST CARS OF FURNITURE ever shipped here, and it is a grand sight to see this display on our five double floors. You are always welcome.
