BOTH SIDES WAIT

No Solution of the Local Strike Situation Is Offered.

THE WEST WAITS ON THE EAST The Situation Here To-day As Stated by Representatives of Both Factions.

Extreme quiet prevails on both sides in the machinists' strike here. The disposition is to wait for something to happen.

It is Secretary Whipp's opinion that nothing will happen here until something is done in the east. If the agreement is signed by the Chicago and Milwaukee shop owners, the Minneapolis employers will naturally fall in line, he says.

Members of the union who are employed in the flour and the saw mills have been called out and their employers will be asked to sign the agreement, just as though they were running manufacturing machine shops.

Mr. Whipp stamps the statements in the press, to the effect that the machinists refused to hold any conference with their employers, as untrue. The association, he says, has agreed to meet with the employers only if the machinists would break their agreement.

Shops Are Running. "Every machine shop is running," said Secretary Whipp of the union of the twin city association of employers of machinists.

It was learned from Mr. Strong that notices to employees would be posted in all the shops to-day. The notices will announce that all machinists who remain at work will be remembered.

Mr. Strong takes exception to the statement of the machinists that the association has refused to meet them in a conference.

State's Famous Entomologist Died This Morning.

His Death Was Unexpected He Had Been Very Sick, But It Was Thought That He Was Better.

Professor Otto Lueger, state entomologist and botanist, died at 11 a. m. yesterday at his home, 1455 North Cleveland avenue, St. Anthony Park.

Dr. Lueger's illness dates from May 12. The day before he had driven out from Fairbault to inspect some greenhouses. The weather suddenly grew colder, and he had no overcoat.

He was attacked by a peculiar form of pneumonia, a disease of the lungs, together with chills and a depression of vitality. Dr. Cannon, who attended him, was fearful of heart failure, and Dr. Greene of St. Paul, who was called in consultation, entertained the same view of Dr. Lueger's condition.

The crisis of his disease was passed, it was supposed, two days ago, and strong hopes were yesterday entertained for his recovery. Last night, however, he was not comfortable having frequent vomiting and coughing spells.

This forenoon he was easier and the action of his heart nearly normal. About 11 o'clock the nurse left the room to bring something for the relief of a coughing spell, and as she passed out Dr. C. Cannon, the attending physician, entered. Dr. Lueger said "Good morning," and then remarked that he was better.

Dr. Lueger's Career. Dr. Lueger was a native of Germany, and has been professor of zoology and entomology at the state agricultural school for the past forty years.

ST. MARK'S DISSENSIONS

Parishioners as a Whole, Said to Support Him—Can He Resign?

Rev. T. W. MacLean, rector of St. Mark's Episcopal church, has been brought into unpleasant prominence by a statement in a morning paper that he was resigning from the rectory.

On the authority of no less a personage than Chief Justice Fuller of the United States supreme court, a church parish can no more make an agreement with an ordained priest, after the form of a civil contract, than it can fly, which disposes of the statement that Mr. MacLean is bound by an agreement, however, which his services can be dispensed with on thirty days' notice.

As to Mr. MacLean's failure to improve the spiritual and physical condition of the United States supreme court, a church parish can no more make an agreement with an ordained priest, after the form of a civil contract, than it can fly, which disposes of the statement that Mr. MacLean is bound by an agreement, however, which his services can be dispensed with on thirty days' notice.

HUNGARIAN C. THE ORK

A Gang Arrived From Chicago This Morning.

LOCAL MEN REFUSE \$1.50 A DAY They Say That \$1.75 Is the Ruling Rate—Work Was Promised Locals.

Twenty-five swarthy Hungarians were set to work at the Wisconsin Central railway terminals this morning and the other men were curtly informed that their services were no longer needed.

Some time ago, when the Wisconsin Central railway council to grant it some valuable privileges, President Whitcomb, General Counsel Morris and representatives of the Butler-Ryan company had been awarded the terminal contract promised the aldermen that residents of Minneapolis would be given the preference on contracts and work.

The importation of the Huns is doubtless due to the strike of last week. There has been trouble ever since, particularly in procuring men. The work was hard, and those who applied demanded \$1.75 per day, while the firm offered only \$1.50.

So little progress was made that the contractors commissioned J. McEachern, a Second street employment agent, to go to Chicago for laborers. The first batch, twenty-five in number, arrived last evening. Another batch will arrive this evening, including a party which missed the train while taking the last drink in a nearby saloon.

How many of the contractors expect to bring here is not known, but as the work is of considerable magnitude, it is expected that several hundred shavers will be needed.

An employment agent who places a great many seekers for work during the year, said to-day that no contractor is paying less than \$1.75 per day at the present time. He said that the importation of Chicago Hungarians by the Butler-Ryan company will have a bad effect. The local laborers are obliged to work below the customary wages or be forced out by imported strangers.
